[1]Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic and network overhead, lower actual data throughput rate. [2]Jumbo frame support for 9216 Bytes is applicable in Gigabit mode only. Use of Jumbo Frame feature requires the PC to have a Gigabit NIC that supports Jumbo Frames. Jumbo Frame performance may be affected when used in 10/100 Fast Ethernet mode. [3]To enable the Limited Lifetime Warranty on this product, you must register the product, within the first thirty days of purchase. For warranty and regulatory information, please visit http://www.dlink.com/support/warranty-information. [4]DGS-1100-05PDV2 PoE budget is 8W with 802.3af input/18W with 802.3at input.

Product specifications, size and shape are subject to change without notice, and actual product appearance may differ from that depicted on the packaging. See inside package for warranty details.
