HS-1600T Mark II

4-Channel HD/SD HDBaseT Portable Dual Streaming Studio

ONE VOLUNTEER DUAL STREAMING SOLUTION

The HS-1600T Mark II is an all-in-one live dual video production and streaming solution designed with a single operator in mind. This HDBaseT switcher is designed using single Cat6 cable to provide power, video, camera control and tally lamp, in a compact and portable footprint. Designed to work with the PTC-140T and/or PTC-150TL PTZ cameras.

- NEW** • Dual Streaming Encoder
- NEW** • HDBaseT output – up to 60 meters
- NEW** • HDMI loop out for presentations

www.datavideo.com

Dual Stream encoder to Facebook Live, YouTube, Twitch, and more.

With its built-in H.264 web streaming encoder, you can stream your show to virtually any CDN like YouTube and Facebook at the same time. It's volunteer and novice friendly, allowing you to produce and stream any live event meeting, trade show, townhall, government event, worship, sports, and musical performances.

Did you know...

The HS-1600T Mark II is able to send video, power, and control using only one ethernet cable for each camera. This increase in flexibility greatly reduces setup time, allowing you to mount the cameras without the need for an electrician.

PTC-150TL can output HDBaseT as well as HDMI and HD-SDI.

PTC-150TL Quick Features

- 30x optical zoom
- maximum resolution of 1080p60
- Great image quality even in less-than-perfect lighting conditions

**Neutrik®
