

# BOOMPDS® Rhythm

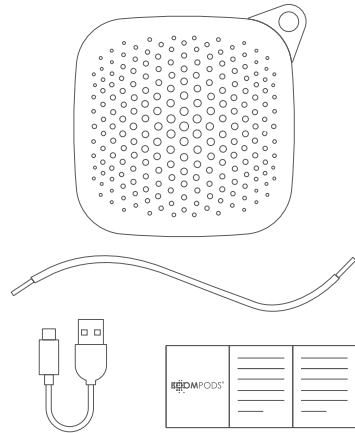

The sustainably made party speaker

But how is this possible? I mean, this was plastic waste!

Yes. But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over: We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

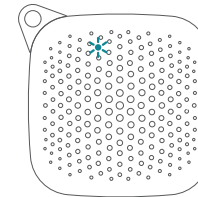

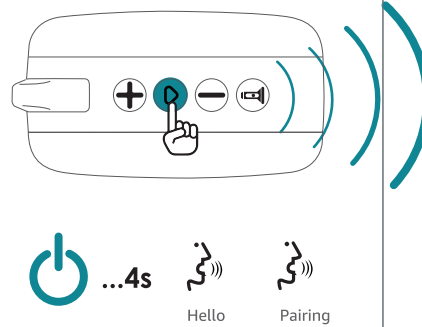

The recycled ocean plastic used to make this product may have traces of the wide mix of types of plastics collected, this can allow some minor black spots and imperfections to appear upon the surface. These are normal and do not affect the performance of the product. The material is unique in character and happy not to be in the Sea.

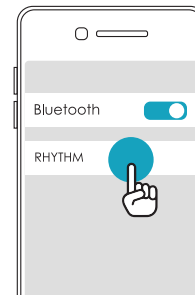

## How to Connect

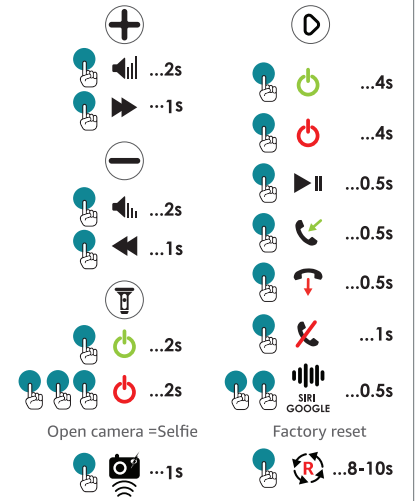

Switch ON: blue LED indicator will flash,  
Choose "RHYTHM" from your device menu,  
Wait until you hear voice prompt "Connected",  
You are now connected,  
Blue LED indicator will now stay on.

Connected

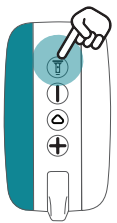

## Controls

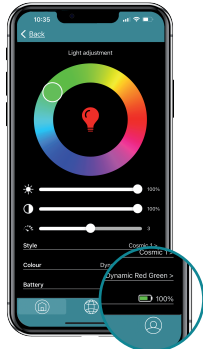

## light modes

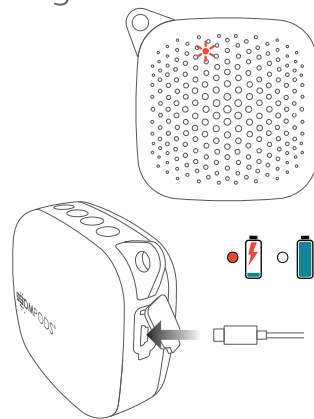

Light button:  
White, Gradual, Disco, Red, Blue, Yellow, Green, OFF

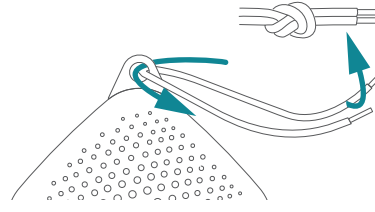

Further enhance the light show by  
using the BoomPods App:

## Charge

To check Buds battery status at any time  
you can open the BoomPods App.

Product Name	Rhythm
Type	Waterproof Bluetooth speaker
Colours	Black
Compatibility	Devices with Bluetooth 5 or lower
Warranty	12 months
IPX Rating	IPX 7 (fully waterproof)
Features	Waterproof 1m, Light modes, App Voice assistant, Volume, Skip Tracks.
Play Time	5H
Cables	USB-A to USB-Micro
Battery	2000mah
Charge time	2.5h
frequency range	2.4-2.480 GHZ
Sensitivity	-42±3dB, omni-directional, S.N.R≥60dB
Mic frequency range	20hz-20khz
Working Current	≤ 30mA (minimum volume)
Working Voltage	DC 2.7-4.2 V
Speaker	5W waterproof high quality driver.
Bluetooth	V5.1

Further enhance your experience by downloading  
the BoomPods App, go to the App store.
