The sustainably made true wireless earbuds

But how is this possible? I mean, this was plastic waste!

Yes, But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over: We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

In the Box

The recycled ocean plastic used to make this product may have traces of the wide mix of types of plastics collected, this can allow some minor black spots and imperfections to appear upon the surface. These are normal and do not affect the performance of the product. The material is unique in character and happy not to be in the Sea.

How to Connect

Note: once you have followed this procedure, the next time you remove from charging case earbuds will connect to your phone automatically.

Once connected LED will flash Blue slowly

Charging case

1 LED: Less than 25% Case needs charging

Flashing LED: Case is charging

4 Solid LED: Case is fully charged

Gently pull the silicone cover upward from the bottom to expose only the USB-C port, and use the supplied USB-C cable to charge.

Charging buds

To check Buds battery status at any time you can open the BoomPods App.

Place earbuds into charging case.

Red LED: Earbuds Charging

NO LED: Earbuds Charged

Reset

In the unlikely case of any pairing problem

1. Remove from Phone Bluetooth menu.
2. Press and hold both ear buds for 8 seconds.
3. place buds back into case.
4. Remove both from case, quickly press 1 earbud 5 times.
5. Now connect to your phone like for the first time.

Further enhance your experience by downloading the BoomPods App, go to the App store.

The Declaration of Conformity can be found at:
<https://www.boompods.com/product/soundwave>
 Hereby, BoomPods declares that the radio equipment type [Earphone with Bluetooth] is in compliance with Directive 2014/53/EU.
 FCC ID: RDR-BH20T13A
