Blazingly Fast Premium 1M Braided Cable

Capable of transferring data at a blistering 40Gbps, ALOGIC's Fusion USB-C to USB-C Gen 3 USB4 cable has enough bandwidth to support all your desktop devices while delivering crisp ultra-high-definition images to your screens.

The 1 metre cable's premium braiding has been custom engineered for maximum durability, to end the wasteful cycle of endlessly rebuying substandard cables after just a few months of use. Its reversible, low-profile nickel-plated connector is designed withstand the stresses of daily use for years to come and the entire cable is protected by a 2-year warranty.

Supports 8K or Dual 4K Monitors

Whether you're maximising your multitasking productivity, tackling a gargantuan spreadsheet or just bingeing Netflix's latest, USB4's high data capacity will ensure you get the best visuals your screen can support.

On a single monitor, this cable supports up to 8K/40hz or 4K/120hz output or 4K/60hz across two displays.

240W of Recharging Power

With full support for USB4's new Extended Power Range (EPR) 240W power transfer standard, this USB4 cable can charge your devices more than twice as quickly as your existing cables if plugged into a compatible power source.

Whether you're powering a workstation of devices or power-hungry gaming laptop, with 240W you'll never again experience that sinking feeling of watching a device's power slowly drop while it's plugged in.

User Interface

Connector 1 USB-C (Male)
Connector 2 USB-C (Male)

Speed

USB 4 Gen 3 Superspeed USB 40Gbps

Resolution

Single Monitor 8K/60Hz, 4K/120Hz
