# C2335, CS531, CS632, CS639 Printers

## User's Guide

# Contents

# Safety information

## Conventions

**Note**: A *note* identifies information that could help you.

**Warning**: A *warning* identifies something that could damage the product hardware or software.

**WARNING (in full capitals)**: A *WARNING* indicates a risk of death or serious injury if not avoided.

**CAUTION**: A *caution* indicates a potentially hazardous situation that could injure you.

Different types of caution statements include:

⚠️ **CAUTION—POTENTIAL INJURY:**  Indicates a risk of injury.

⚠️ **CAUTION—SHOCK HAZARD:** Indicates a risk of electrical shock.

⚠️ **CAUTION—HOT SURFACE:** Indicates a risk of burn if touched.

⚠️ **CAUTION—TIPPING HAZARD:** Indicates a crush hazard.

⚠️ **CAUTION—PINCH HAZARD:** Indicates a risk of being caught between moving parts.

## Product statements

⚠️ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

⚠️ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.

⚠️ **CAUTION—POTENTIAL INJURY:** Do not use this product with extension cords, multioutlet power strips, multioutlet extenders, or UPS devices. The power capacity of these types of accessories can be easily overloaded by a laser printer and may result in a risk of fire, property damage, or poor printer performance.

⚠️ **CAUTION—POTENTIAL INJURY:** Only a Lexmark Inline Surge Protector that is properly connected between the printer and the power cord provided with the printer may be used with this product. The use of non-Lexmark surge protection devices may result in a risk of fire, property damage, or poor printer performance.

⚠️ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not place or use this product near water or wet locations.

⚠️ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

⚠ **CAUTION—POTENTIAL INJURY:** Do not cut, twist, bind, crush, or place heavy objects on the power cord. Do not subject the power cord to abrasion or stress. Do not pinch the power cord between objects such as furniture and walls. If any of these things happen, a risk of fire or electrical shock results. Inspect the power cord regularly for signs of such problems. Remove the power cord from the electrical outlet before inspecting it.

⚠ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, make sure that all external connections (such as Ethernet and telephone system connections) are properly installed in their marked plug-in ports.

⚠ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

⚠ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

⚠ **CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

⚠ **CAUTION—POTENTIAL INJURY:** When moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Make sure that all doors and trays are closed.
- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.
- If the printer has separate floor-standing optional trays or output options attached to it, then disconnect them before moving the printer.
- If the printer has a caster base, then carefully roll it to the new location. Use caution when passing over thresholds and breaks in flooring.
- If the printer does not have a caster base but is configured with optional trays or output options, then remove the output options and lift the printer off the trays. Do not try to lift the printer and any options at the same time.
- Always use the handholds on the printer to lift it.
- Any cart used to move the printer must have a surface able to support the full footprint of the printer.
- Any cart used to move the hardware options must have a surface able to support the dimensions of the options.
- Keep the printer in an upright position.
- Avoid severe jarring movements.
- Make sure that your fingers are not under the printer when you set it down.
- Make sure that there is adequate clearance around the printer.

⚠ **CAUTION—TIPPING HAZARD:** Installing one or more options on your printer or MFP may require a caster base, furniture, or other feature to prevent instability causing possible injury. For more information on supported configurations, see **www.lexmark.com/multifunctionprinters**.

⚠ **CAUTION—TIPPING HAZARD:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

⚠ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

⚠ **CAUTION—PINCH HAZARD:** To avoid the risk of a pinch injury, use caution in areas marked with this label. Pinch injuries may occur around moving parts, such as gears, doors, trays, and covers.

⚠ **CAUTION—POTENTIAL INJURY:** This product uses a laser. Use of controls or adjustments or performance of procedures other than those specified in the *User's Guide* may result in hazardous radiation exposure.

⚠ **CAUTION—POTENTIAL INJURY:**  The lithium battery in this product is not intended to be replaced. There is a danger of explosion if a lithium battery is incorrectly replaced. Do not recharge, disassemble, or incinerate a lithium battery. Discard used lithium batteries according to the manufacturer's instructions and local regulations.

---

### ⚠ WARNING

- **INGESTION HAZARD**: This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH of CHILDREN**.
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

---

Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children. Do not dispose of batteries in household trash or incinerate. Even used batteries may cause severe injury or death. Call a local poison control center for treatment information.

Battery type: CR6821

Nominal battery voltage: 3V

Do not force discharge, recharge, disassemble, heat above 60°C (140°F), or incinerate. Doing so may result in injury due to venting, leakage, or explosion resulting in chemical burns.

This product is designed, tested, and approved to meet strict global safety standards with the use of specific manufacturer's components. The safety features of some parts may not always be obvious. The manufacturer is not responsible for the use of other replacement parts.

Refer service or repairs, other than those described in the user documentation, to a service representative.

**SAVE THESE INSTRUCTIONS.**

# Learn about the printer

## Finding information about the printer

| What are you looking for? | Find it here |
|---|---|
| Initial setup instructions | See the setup documentation that came with the printer. |
| • Printer software<br>• Print or fax driver<br>• Printer firmware<br>• Utility | Go to **www.lexmark.com/downloads**, search for your printer model, and then in the Type menu, select the driver, firmware, or utility that you need. |
| • Selecting and storing paper and specialty media<br>• Loading paper<br>• Configuring printer settings<br>• Viewing and printing documents and photos<br>• Configuring the printer on a network<br>• Caring for and maintaining the printer<br>• Troubleshooting and solving problems | Information Center—Go to **https://infoserve.lexmark.com**.<br><br>How-to videos—Go to **https://infoserve.lexmark.com/idv/**. |
| Help information for using the printer software. | Help for Microsoft Windows or Macintosh operating systems—Open a printer software program or application, and then click **Help**.<br><br>Click ⑦ to view context-sensitive information.<br><br>**Notes:**<br>• Help is automatically installed with the printer software.<br>• Depending on the operating system, the printer software is either in the printer program folder or on the desktop. |
| • Documentation<br>• Live chat support<br>• E-mail support<br>• Voice support | Go to **https://support.lexmark.com**.<br><br>**Note:** Select your country or region, and then select your product to view the appropriate support site.<br><br>Support contact information for your country or region can be found on the website or on the printed warranty that came with the printer.<br><br>Have the following information ready when you contact customer support:<br>• Place and date of purchase<br>• Machine type and serial number<br>For more information, see "Finding the printer serial number" on page 9. |

| What are you looking for? | Find it here |
|---|---|
| • Safety information<br>• Regulatory information<br>• Warranty information<br>• Environmental information | Warranty information varies by country or region:<br>• **In the U.S.**—See the Statement of Limited Warranty included with the printer, or go to **https://support.lexmark.com**.<br>• **In other countries and regions**—See the printed warranty that came with the printer.<br>*Product Information Guide*—See the documentation that came with the printer or go to **https://support.lexmark.com**. |
| Information on Lexmark digital passport | Go to **https://csr.lexmark.com/digital-passport.php**. |

# Finding the printer serial number

**1** Open door A.

**2** Locate the serial number.

# Printer configurations

⚠ **CAUTION—TIPPING HAZARD:** Installing one or more options on your printer or MFP may require a caster base, furniture, or other feature to prevent instability causing possible injury. For more information on supported configurations, see **www.lexmark.com/multifunctionprinters**.

⚠ **CAUTION—TIPPING HAZARD:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

You can configure your printer by adding any of the following options:

• A 650-sheet duo tray
• A 650-sheet duo tray and up to two 550-sheet trays

- Up to three 550-sheet trays

For more information, see "Installing optional trays" on page 38.
| 1 | Control panel |
|---|---|
| 2 | Standard 250-sheet tray |
| 3 | Optional 650-sheet duo tray<br>**Note:** The tray is composed of a 550-sheet tray and a 100-sheet multipurpose feeder. |
| 4 | Optional 550-sheet trays |
| 5 | Manual feeder |
| 6 | Standard bin |

# Using the control panel

## Lexmark CS531 and Lexmark C2335

| | Control panel part | Function |
|---|---|---|
| 1 | Power button | • Turn on or turn off the printer.<br>    **Note:** To turn off the printer, press and hold the power button for five seconds.<br>• Set the printer to Sleep mode.<br>• Wake the printer from Sleep or Hibernate mode. |
| 2 | Home button | Go to the home screen. |
| 3 | Back button | Return to the previous screen. |
| 4 | Start button | Start a job. |
| 5 | Indicator light | Check the status of the printer. |
| 6 | Display | • View the printer messages and supply status.<br>• Set up and operate the printer. |

## Lexmark CS632 and Lexmark CS639

|  | Control panel part | Function |
|---|---|---|
| **1** | Power button | • Turn on or turn off the printer.<br>    **Note:** To turn off the printer, press and hold the power button for five seconds.<br>• Set the printer to Sleep mode.<br>• Wake the printer from Sleep or Hibernate mode. |
| **2** | Display | • View the printer messages and supply status.<br>• Set up and operate the printer. |
| **3** | Indicator light | Check the status of the printer. |

# Understanding the status of the indicator light

| Indicator light | Printer status |
|---|---|
| Off | The printer is off. |
| Solid blue | The printer is ready. |
| Blinking blue | The printer is printing or processing data. |
| Blinking red | The printer requires user intervention. |
| Solid amber | The printer is in Sleep mode. |
| Blinking amber | The printer is in Deep Sleep or Hibernate mode. |

# Selecting paper

## Paper guidelines

Use the appropriate paper to prevent jams and help ensure trouble-free printing.
- Always use new, undamaged paper.
- Before loading paper, know the recommended printable side of the paper. This information is usually indicated on the paper package.
- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, types, or weights in the same tray; mixing results in jams.
- Do not use coated papers unless they are specifically designed for electrophotographic printing.

For more information, see the *Paper and Specialty Media Guide*.

## Paper characteristics

The following paper characteristics affect print quality and reliability. Consider these factors before printing on them.

## Weight

Trays can feed paper of varying weights. Paper lighter than 60 g/m$^2$ (16 lb) may not be stiff enough to feed properly, and may cause jams. For more information, see the "Supported paper weights" topic.

## Curl

Curl is the tendency for paper to curl at its edges. Excessive curl can cause paper feeding problems. Curl can occur after the paper passes through the printer, where it is exposed to high temperatures. Storing paper unwrapped in hot, humid, cold, or dry conditions can contribute to paper curling before printing and can cause feeding problems.

## Smoothness

Paper smoothness directly affects print quality. If paper is too rough, toner cannot fuse to it properly. If paper is too smooth, it can cause paper feeding or print quality issues. We recommend the use of paper with 50 Sheffield points.

## Moisture content

The amount of moisture in paper affects both print quality and the printer ability to feed the paper correctly. Leave paper in its original wrapper until you use it. Exposure of paper to moisture changes can degrade its performance.

Before printing, store paper in its original wrapper for 24 to 48 hours. The environment in which the paper is stored must be the same as the printer . Extend the time several days if the storage or transportation environment is very different from the printer environment. Thick paper may also require a longer conditioning period.

## Grain direction

Grain refers to the alignment of the paper fibers in a sheet of paper. Grain is either *grain long* which runs the length of the paper, or *grain short* which runs the width of the paper. For recommended grain direction, see the "Supported paper weights" topic.

## Fiber content

Most high-quality xerographic paper is made from 100 percent chemically treated pulped wood. This content provides the paper with a high degree of stability, resulting in fewer paper feeding problems and better print quality. Paper containing fibers such as cotton can negatively affect paper handling.

# Unacceptable paper

The following paper types are not recommended for use with the printer:

- Chemically treated papers that are used to make copies without carbon paper. They are also known as carbonless papers, carbonless copy paper (CCP), or no carbon required (NCR) paper.
- Preprinted papers with chemicals that may contaminate the printer.
- Preprinted papers that can be affected by the temperature in the printer fuser.
- Preprinted papers that require a registration (the precise print location on the page) greater than ±2.3 mm (±0.09 in.). For example, optical character recognition (OCR) forms.

  Sometimes, registration can be adjusted with a software app to print successfully on these forms.
- Coated papers (erasable bond), synthetic papers, or thermal papers.

- Rough-edged, rough or heavily textured surface papers, or curled papers.
- Papers that fail EN12281:2002 (European).
- Paper weighing less than 60 g/m$^2$ (16 lb).
- Multiple-part forms or documents.

## Using recycled paper

Lexmark works to reduce the environmental impact of paper by providing customers choices when it comes to printing. One way we achieve this is by testing products to ensure recycled paper may be used—specifically, papers made with 30%, 50%, and 100% post-consumer recycled content. Our expectation is that recycled papers perform as well as virgin paper in our printers. While no official standard exists for office equipment use of paper, Lexmark uses European Standard EN 12281 as a minimum properties standard. To ensure breadth of testing, test paper includes 100% recycled papers from North America, Europe, and Asia, and tests are conducted at 8–80% relative humidity. Testing includes duplex printing. Office paper using renewable, recycled, or chlorine-free content may all be used.

## Storing paper

Use these paper storage guidelines to help avoid jams and uneven print quality:

- Store paper in its original wrapper in the same environment as the printer for 24 to 48 hours before printing.
- Extend the time several days if the storage or transportation environment is very different from the printer environment. Thick paper may also require a longer conditioning period.
- For best results, store paper where the temperature is 21°C (70°F) and the relative humidity is 40 percent.
- Most label manufacturers recommend printing in a temperature range of 18–24°C (65–75°F) with relative humidity between 40 and 60 percent.
- Store paper in cartons, on a pallet or shelf, rather than on the floor.
- Store individual packages on a flat surface.
- Do not store anything on top of individual paper packages.
- Take paper out of the carton or wrapper only when you are ready to load it in the printer. The carton and wrapper help keep the paper clean, dry, and flat.

## Selecting preprinted forms and letterhead

- Use grain long paper.
- Use only forms and letterhead printed using an offset lithographic or engraved printing process.
- Avoid paper with rough or heavily textured surfaces.
- Use inks that are not affected by the resin in toner. Inks that are oxidation-set or oil-based generally meet these requirements; latex inks might not.
- Print samples on preprinted forms and letterheads considered for use before buying large quantities. This action determines whether the ink in the preprinted form or letterhead affects print quality.
- When in doubt, contact your paper supplier.
- When printing on letterhead, load the paper in the proper orientation for your printer. For more information, see the *Paper and Specialty Media Guide*.

## Supported paper sizes

| Paper size and dimension | Standard 250-sheet tray | Manual feeder | Optional 650-sheet duo tray | | Optional 550-sheet tray | Two-sided printing |
|---|---|---|---|---|---|---|
| | | | 550-sheet tray | Multipurpose feeder | | |

[1] Load this paper size into the standard tray and the manual feeder with the long edge entering the printer first.

[2] Load this paper size into the optional trays and the multipurpose feeder with the short edge entering the printer first.

[3] When Universal is selected, the page is formatted for 215.9 x 355.6 mm (8.5 x 14 in.) unless the size is specified by the software application.

[4] Load narrow paper with the short edge entering the printer first.

[5] When Other Envelope is selected, the page is formatted for 215.9 x 355.6 mm (8.5 x 14 in.) unless the size is specified by the software application.

**Note:** Your printer model may have a 650-sheet duo tray, which consists of a 550-sheet tray and an integrated 100-sheet multipurpose feeder. The 550-sheet tray of the 650-sheet duo tray supports the same paper sizes as the optional 550-sheet tray. The integrated multipurpose feeder supports different paper sizes, types, and weights.

## Supported paper types

| Paper type | Standard 250-sheet tray | Manual feeder | Optional 650-sheet duo tray | | Optional 550-sheet tray | Two-sided printing |
|---|---|---|---|---|---|---|
| | | | 550-sheet tray | Multipurpose feeder | | |
| **Plain** | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |
| **Card stock** | ✓ | ✓ | ✓ | ✓ | ✓ | X |

| Paper type | Standard 250-sheet tray | Manual feeder | Optional 650-sheet duo tray | | Optional 550-sheet tray | Two-sided printing |
|---|---|---|---|---|---|---|
| | | | 550-sheet tray | Multipurpose feeder | | |
| Labels | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |
| Vinyl Labels | ✓ | ✓ | ✓ | ✓ | ✓ | X |
| Envelope | ✓ | ✓ | X | ✓ | X | X |

**Notes:**

- Your printer model may have a 650-sheet duo tray, which consists of a 550-sheet tray and an integrated 100-sheet multipurpose feeder. The 550-sheet tray of the 650-sheet duo tray supports the same paper type as the 550-sheet tray. The integrated multipurpose feeder supports different paper sizes, types, and weights.

- Labels, envelopes, and card stock always print at reduced speed.

- Vinyl labels are supported for occasional use only and must be tested for acceptability. Some vinyl labels may feed more reliably from the multipurpose feeder.

## Supported paper weights

| Standard 250-sheet tray | Manual feeder | Optional 650-sheet duo tray | | Optional 550-sheet tray | Two-sided printing |
|---|---|---|---|---|---|
| | | 550-sheet tray | Multipurpose feeder | | |
| 60–218 g/m² (16–58-lb bond) | 60–218 g/m² (16–58-lb bond) | 60–176 g/m² (16–47-lb bond) | 60–176 g/m² (16–47-lb bond) | 60–176 g/m² (16–47-lb bond) | 60–105 g/m² (16–28-lb bond) |

**Notes:**

- Your printer model may have a 650-sheet duo tray, which consists of a 550-sheet tray and an integrated 100-sheet multipurpose feeder. The 550-sheet tray of the 650-sheet duo tray supports the same paper types as the 550-sheet tray. The integrated multipurpose feeder supports different paper sizes, types, and weights.

- For 60 to 176 g/m² (16–47-lb bond) paper, grain long fibers are recommended.

- Paper less than 75 g/m² (20-lb bond) must be printed with Paper Type set to Light Paper. Failure to do so may cause excessive curl which can lead to feeding errors, especially in more humid environments.

# Set up, install, and configure

## Selecting a location for the printer

- Leave enough room to open trays, covers, and doors and to install hardware options.
- Set up the printer near an electrical outlet.

  ⚠️ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

  ⚠️ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not place or use this product near water or wet locations.

- Make sure that airflow in the room meets the latest revision of the ASHRAE 62 standard or the CEN Technical Committee 156 standard.
- Provide a flat, sturdy, and stable surface.
- Keep the printer:
  - Clean, dry, and free of dust.
  - Away from stray staples and paper clips.
  - Away from the direct airflow of air conditioners, heaters, or ventilators.
  - Free from direct sunlight and humidity extremes.
- Observe the recommended temperatures and avoid fluctuations:

| | |
|---|---|
| Ambient temperature | 10 to 32.2°C (50 to 90°F) |
| Storage temperature | 15.6 to 32.2°C (60 to 90°F) |

- Allow the following recommended amount of space around the printer for proper ventilation:

| | | |
|---|---|---|
| **1** | Top | 254 mm (10 in.) |
| **2** | Rear | 102 mm (4 in.) |
| **3** | Right side | 76 mm (3 in.) |

| 4 | Front | 508 mm (20 in.) |
|---|---|---|
|   |   | **Note:** The minimum space needed in front of the printer is 75 mm (3 in.) |
| 5 | Left side | 76 mm (3 in.) |

# Attaching cables

⚠ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, do not set up this product or make any electrical or cabling connections, such as the power cord, fax feature, or telephone, during a lightning storm.

⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.

**Warning—Potential Damage:** To avoid loss of data or printer malfunction, do not touch the USB cable, any wireless network adapter, or the printer in the areas shown while actively printing.

|   | **Printer port** | **Function** |
|---|---|---|
| 1 | Power cord socket | Connect the printer to a properly grounded electrical outlet. |
| 2 | USB printer port | Connect the printer to a computer. |
| 3 | USB port | Attach a keyboard or any compatible option. |
| 4 | Ethernet port | Connect the printer to a network. |

# Setting up and using the home screen applications

## Using the home screen

**Note:** Your home screen may vary depending on your home screen customization settings, administrative setup, and active embedded solutions.

| | Icon | Function |
|---|---|---|
| **1** | Stop or Cancel button | Stop the current printer task. |
| **2** | Status/Supplies | • Show a warning or error message whenever the printer requires intervention to continue processing.<br>• View more information on the printer warning or message and how to clear it.<br>**Note:** You can also access this setting by touching the top section of the home screen. |
| **3** | Job Queue | Show all the current print jobs.<br>**Note:** You can also access this setting by touching the top section of the home screen. |
| **4** | Change Language | Change the language on the display. |
| **5** | Settings | Access the printer menus. |
| **6** | USB Drive | Print photos and documents from a flash drive. |
| **7** | Held Jobs | Show the print jobs that are held in the printer memory. |
| **8** | Address Book | Manage a contact list that other applications on the printer can access. |
| **9** | On-screen keypad | Enter numbers or symbols in an input field. |

## Customizing the home screen

**1** Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** Click **Settings** > **Device** > **Home Screen Customization**.

**3** Do one or more of the following:

- To add an icon to the home screen, click ╋, select the app name, and then click **Add**.
- To remove a home screen icon, select the app name, and then click **Remove**.
- To customize an app name, select the app name, click **Edit**, and then assign a name.

- To restore the name of an app, select the app name, click **Edit**, and then select **Restore app label**.
- To add a space between apps, click ➕, select **BLANK SPACE**, and then click **Add**.
- To arrange the apps, drag the app names in the order that you want.
- To restore the default home screen, click **Restore home screen**.

**4** Apply the changes.

## Supported applications

| Application | Printer models |
|---|---|
| Display Customization | C2335, CS531, CS632, CS639 |
| Customer Support | C2335 |
| Device Quotas | C2335 |

## Using Display Customization

Before using the application, make sure to enable and configure the screen saver, slideshow, and wallpaper settings from the Embedded Web Server.

**Managing screen saver and slide show images**

**1** From the Embedded Web Server, click **Apps** > **Display Customization** > **Configure**.

**2** In the Screen Saver and Slideshow Images section, add, edit, or delete an image.

> **Notes:**
>
> - You can add up to 10 images.
> - When enabled, the status icons appear on the screen saver only when there are errors, warnings, or cloud‑based notifications.

**3** Apply the changes.

**Changing the wallpaper image**

**1** From the home screen, touch **Change Wallpaper**.

**2** Select an image to use.

**3** Apply the changes.

**Running a slide show from a flash drive**

**1** Insert a flash drive into the front USB port.

**2** From the home screen, touch **Slideshow**.

**Note:** You can remove the flash drive after the slide show starts, but the images are not stored in the printer. If the slide show stops, then insert the flash drive again to view the images.

## Using Customer Support

**Notes:**

- This application is supported only in some printer models. For more information, see "Supported applications" on page 22.
- For information on how to configure the application settings, see the *Customer Support Administrator's Guide.*

**1** From the home screen, touch **Customer Support**.

**2** Print or e-mail the information.

## Setting up Device Quotas

**Notes:**

- This application is supported only in some printer models. For more information, see "Supported applications" on page 22.
- For information on how to configure the application settings, see the *Device Quotas Administrator's Guide*.

**1** Open a web browser, and then type the printer IP address in the address field.

> **Notes:**
>
> - View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
> - If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** Click **Apps** > **Device Quotas** > **Configure**.

**3** In the User Accounts section, add or edit a user, and then set the user quota.

**4** Apply the changes.

## Managing bookmarks

### Creating bookmarks

Use bookmarks to print frequently accessed documents that are stored in servers or on the web.

**1** Open a web browser, and then type the printer IP address in the address field.

> **Notes:**
>
> - View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
> - If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** Click **Bookmarks** > **Add Bookmark**, and then type a bookmark name.

**3** Select an Address protocol type, and then do one of the following:

- For HTTP and HTTPS, type the URL that you want to bookmark.
- For HTTPS, make sure to use the host name instead of the IP address. For example, type `myWebsite.com/sample.pdf` instead of typing `123.123.123.123/sample.pdf`. Make sure that the host name also matches the Common Name (CN) value in the server certificate. For more information on obtaining the CN value in the server certificate, see the help information for your web browser.
- For FTP, type the FTP address. For example, `myServer/myDirectory`. Enter the FTP port number. Port 21 is the default port for sending commands.
- For SMB, type the network folder address. For example, `myServer/myShare/myFile.pdf`. Type the network domain name.
- If necessary, select the Authentication type for FTP and SMB.

To limit access to the bookmark, enter a PIN.

**Note:** The application supports the following file types: PDF, JPEG, and TIFF. Other file types such as DOCX and XLSX are supported in some printer models.

**4** Click **Save**.

## Creating folders

**1** Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** Click **Bookmarks** > **Add Folder**, and then type a folder name.

**Note:** To limit access to the folder, enter a PIN.

**3** Click **Save**.

**Note:** You can create folders or bookmarks inside a folder. To create a bookmark, see <u>"Creating bookmarks" on page 23</u>.

## Managing contacts

**1** From the home screen, touch **Address Book.**

**2** Do one or more of the following:

- To add a contact, touch ⋮ on top of the screen, and then touch **Create Contact**. If necessary, specify a login method to allow application access.
- To delete a contact, touch ⋮ on top of the screen, touch **Delete Contacts**, and then select the contact.
- To edit contact information, touch the contact name.
- To create a group, touch ⋮ on top of the screen, and then touch **Create Group**. If necessary, specify a login method to allow application access.
- To delete a group, touch ⋮ on top of the screen, touch **Delete Groups**, and then select the group.
- To edit a contact group, touch **GROUPS** > select a group name > ⋮ > select the action you want to make.

**3** Apply the changes.

# Setting up and using the accessibility features

## Activating Voice Guidance

### From the home screen

**1** In one motion and using one finger, slowly swipe left then up on the display until you hear a voice message.

  **Note:** For printer models without built-in speakers, use headphones to hear the message.

**2** Using two fingers, touch **OK**.

  **Note:** If the gesture does not work, then apply more pressure.

### From the keyboard

**1** Press and hold the **5** key until you hear a voice message.

  **Note:** For printer models without built-in speakers, use headphones to hear the message.

**2** Press **Tab** to navigate the focus cursor to the OK button, and then press **Enter**.

**Notes:**

- When Voice Guidance is activated, always use two fingers to select any item on the display.
- Voice Guidance has limited language support.

## Deactivating Voice Guidance

**1** In one motion and using one finger, slowly swipe left then up on the display until you hear a voice message.

  **Note:** For printer models without built-in speakers, use headphones to hear the message.

**2** Using two fingers, do either of the following:

  - Touch **Voice Guidance**, then touch **OK**.
  - Touch **Cancel**.

  **Note:** If the gesture does not work, then apply more pressure.

You can also deactivate Voice Guidance by doing either of the following:

- Using two fingers, double tap the home screen.
- Press the power button to put the printer in Sleep or Hibernate mode.

## Navigating the screen using gestures

**Notes:**

- Most of the gestures are applicable only when Voice Guidance is activated.
- Enable Magnification to use the zoom and pan gestures.
- Use a physical keyboard to type characters and adjust certain settings.

| Gesture | Function |
|---|---|
| Swipe left then up using one finger | Launch Accessibility mode. Use the same gesture to exit Accessibility mode.<br>**Note:** This gesture is also applicable when the printer is in normal mode. |
| Double-tap using one finger | Select an option or item on the screen. |
| Double-tap the home icon using two fingers | Deactivate the Accessibility mode. |
| Triple-tap using one finger | Zoom in or zoom out text and images. |
| Swipe right or swipe down using one finger | Move to the next item on the screen. |
| Swipe left or swipe up using one finger | Move to the previous item on the screen. |
| Swipe up then down using one finger | Move to the first item on the screen. |
| Pan | Access parts of the zoomed image that are beyond the limit of the screen.<br>**Note:** Use two fingers to drag a zoomed image. |
| Swipe up then right using one finger | Increase the volume.<br>**Note:** This gesture is also applicable when the printer is in normal mode. |
| Swipe down then right using one finger | Decrease the volume.<br>**Note:** This gesture is also applicable when the printer is in normal mode. |
| Swipe up then left using one finger | Exit an application and return to the home screen. |
| Swipe down then left using one finger | Go back to the previous setting. |

## Using the on-screen keyboard

When the on-screen keyboard appears, do one or more of the following:
- Touch a key to announce and type the character in the field.
- Drag a finger across different characters to announce and type the character in the field.
- Touch a text box using two fingers to announce the characters in the field.
- Touch **Backspace** to delete characters.

## Enabling Magnification mode

**1** In one motion and using one finger, slowly swipe left then up on the display until you hear a voice message.

   **Note:** For printer models without built-in speakers, use headphones to hear the message.

**2** Using two fingers, do the following:

   **a** Touch **Magnification mode**.

   **b** Touch **OK**.

   **Note:** If the gesture does not work, then apply more pressure.

For more information on navigating a magnified screen, see .

# Loading paper and specialty media

## Setting the paper size and type

1 From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type** > select a paper source.

2 Set the paper size and type.

## Configuring Universal paper settings

1 From the home screen, touch **Settings** > **Paper** > **Media Configuration** > **Universal Setup**.

2 Configure the settings.

## Loading trays

**CAUTION—TIPPING HAZARD:** To reduce the risk of equipment instability, load each tray separately. Keep all other trays closed until needed.

1 Remove the tray.

**Note:** To avoid jams, do not remove trays while the printer is busy.

2 Adjust the guides to match the size of the paper that you are loading.

**Note:** Use the indicators on the bottom of the tray to position the guides.
**3** Flex, fan, and align the paper edges before loading.

**4** Load the paper stack with the printable side faceup.

- For one-sided printing, load letterhead faceup with the header toward the front of the tray.
- For two-sided printing, load letterhead facedown with the header toward the back of the tray.
- Do not slide paper into the tray.

- Make sure that the stack height is below the maximum paper fill indicator. Overfilling may cause paper jams.
**5** Insert the tray.

If necessary, set the paper size and type to match the paper loaded in the tray.

## Loading the manual feeder

**1** Adjust the edge guides to match the width of the paper that you are loading.

**Note:** Make sure that the guides fit snugly against the paper, but not too tight as to cause the paper to buckle.
**2** Load a sheet of paper with the printable side facedown.

**Note:** Make sure that the paper is loaded straight to avoid skewed or crooked print.

- For one-sided printing, load letterhead with the printable side facedown and the top edge entering the printer first.
- For two-sided printing, load letterhead with the printable side faceup and the top edge entering the printer last.
- Load envelope with the flap side up and against the right side of the paper guide.
**3** Feed the paper until its leading edge gets pulled in.

**Warning—Potential Damage:** To avoid paper jams, do not force paper into the manual feeder.

# Loading the multipurpose feeder

**Note:** The multipurpose feeder is available only if the optional 650-sheet duo tray is installed.

**1** Open the multipurpose feeder.

**2** Adjust the guide to match the size of the paper that you are loading.
**3** Flex, fan, and align the paper edges before loading.

**4** Load the paper.

- For one‑sided printing, load letterhead with the printable side facedown and the top edge entering the printer first.

- For two‑sided printing, load letterhead with the printable side faceup and the top edge entering the printer last.
- Load envelopes with the flap side up and against the right side of the paper guide.

**Warning—Potential Damage:** Do not use envelopes with stamps, clasps, snaps, windows, coated linings, or self-stick adhesives.

**5** From the Paper menu in the control panel, set the paper size and type to match the paper loaded in the multipurpose feeder.

## Linking trays

**1** From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > select a paper source.

**2** Set the same paper size and paper type for the trays that you are linking.

**3** From the home screen, touch **Settings** > **Device** > **Maintenance** > **Configuration Menu** > **Tray Configuration** > **Tray Linking**.

**4** Touch **Automatic**.

To unlink trays, make sure that no trays have the same paper size and paper type settings.

**Warning—Potential Damage:** The temperature of the fuser varies according to the specified paper type. To avoid printing issues, match the paper type setting in the printer with the paper loaded in the tray.

# Installing and updating software, drivers, and firmware

## Installing the printer software

**Notes:**

- The print driver is included in the software installer package.
- For Macintosh computers with macOS version 10.7 or later, you do not need to install the driver to print on an AirPrint-certified printer. If you want custom printing features, then download the print driver.

**1** Obtain a copy of the software installer package.

- From the software CD that came with your printer.
- Go to **www.lexmark.com/downloads**.

2 Run the installer, and then follow the instructions on the computer screen.

## Adding printers to a computer

Before you begin, do one of the following:

- Connect the printer and the computer to the same network. For more information on connecting the printer to a network, see "Connecting the printer to a Wi‑Fi network" on page 45.
- Connect the computer to the printer. For more information, see "Connecting a computer to the printer" on page 47.
- Connect the printer to the computer using a USB cable. For more information, see "Attaching cables" on page 20.

   **Note:** The USB cable is sold separately.

### For Windows users

1 From a computer, install the print driver.

   **Note:** For more information, see "Installing the printer software" on page 33.

2 Open the printers folder, and then click **Add a printer or scanner**.

3 Depending on your printer connection, do one of the following:

- Select a printer from the list, and then click **Add device**.
- Click **Show Wi‑Fi Direct printers**, select a printer, and then click **Add device**.
- Click **The printer that I want isn't listed**, and then from the Add Printer window, do the following:

   a Select **Add a printer using a TCP/IP address or hostname**, and then click **Next**.

   b In the "Hostname or IP address" field, type the printer IP address, and then click **Next**.

      **Notes:**

      – View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.

      – If you are using a proxy server, then temporarily disable it to load the web page correctly.

   c Select a print driver, and then click **Next**.

   d Select **Use the print driver that is currently installed (recommended)**, and then click **Next**.

   e Type a printer name, and then click **Next**.

   f Select a printer sharing option, and then click **Next**.

   g Click **Finish**.

### For Macintosh users

1 From a computer, open **Printers & Scanners**.

2 Click ➕, and then select a printer.

3 From the Use menu, select a print driver.

   **Notes:**

- To use the Macintosh print driver, select either **AirPrint** or **Secure AirPrint**.

- If you want custom printing features, then select the Lexmark print driver. To install the driver, see "Installing the printer software" on page 33.

**4** Add the printer.

## Exporting or importing a configuration file

You can export the configuration settings of your printer into a text file, and then import the file to apply the settings to other printers.

**1** Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** From the Embedded Web Server, click **Export Configuration** or **Import Configuration**.

**3** Follow the instructions on the screen.

**4** If the printer supports applications, then do the following:

**a** Click **Apps** > select the application > **Configure**.

**b** Click **Export** or **Import**.

## Adding available options in the print driver

### For Windows users

**1** Open the printers folder.

**2** Select the printer you want to update, and then do either of the following:

- For Windows 7 or later, select **Printer properties**.
- For earlier versions, select **Properties**.

**3** Navigate to the Configuration tab, and then select **Update Now - Ask Printer**.

**4** Apply the changes.

### For Macintosh users

**1** From System Preferences in the Apple menu, navigate to your printer, and then select **Options & Supplies**.

**2** Navigate to the list of hardware options, and then add any installed options.

**3** Apply the changes.

# Updating firmware

## Updating the firmware using the control panel

**Using the notification center**

This method is applicable only in some printer models.

**1** From the control panel, navigate to the notification center, and then select **Firmware update available**.

**2** Select **Install now**.

The printer reboots automatically after the update.

**Using the Settings menu**

**1** From the control panel, navigate to **Settings** > **Device** > **Update Firmware**.

**2** Depending on your printer model, select **Check for updates** or **Check for updates now**.

**3** If a new update is available, then select **Install now**.

The printer reboots automatically after the update.

### Updating the firmware using the Embedded Web Server

Before you begin, make sure that:

- You have downloaded the latest printer firmware from **https://support.lexmark.com** and saved it to your flash drive or computer.

  **Note:** To deploy the printer firmware, extract the .fls firmware file from the ZIP package.

- You are not using a special code on your printer to avoid losing this functionality.

**Warning—Potential Damage:** Make sure that all printers receiving firmware updates are turned on during the entire firmware update process. Turning off a printer during a firmware update can severely damage it.

If the printer is connected to the network when checking for updates, then downloading the firmware is not required.

**1** Open a web browser, and then type the printer IP address in the address field.

> **Notes:**
>
> - View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
> - If you are using a proxy server, then temporarily disable it to load the web page correctly.

**2** Click **Device**.

**3** Scroll down, and then click **Update Firmware**.

**4** Depending on your printer model, click **Check for updates** or **Check for updates now**.

If a new update is available, then click **I agree, start update**.

The printer reboots automatically after the update.

# Installing hardware options

## Available internal options

- Intelligent storage drive (ISD)
  - Fonts
    - Simplified Chinese
    - Traditional Chinese
    - Japanese
    - Korean
    - Arabic
  - Mass storage
- Hard disk

- Licensed features
  - IPDS
  - Bar Code

**Notes:**

- An ISD or a hard disk is required to activate Forms Merge and some IPDS features.
- Some options are available only in some printer models. For more information, contact **customer support**.

## Installing optional trays

⚠️ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**1** Turn off the printer.

**2** Unplug the power cord from the electrical outlet, and then from the printer.

**3** Unpack the optional tray, and then remove all packing material.

**4** Align the printer with the optional tray, and then lower the printer into place.

⚠️ **CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it requires two or more trained personnel to lift it safely.

**Note:** To avoid invalid configuration, when installing both the 550-sheet tray and 650-sheet tray, always place the 550-sheet tray below the 650-sheet tray.

**5** Connect the power cord to the printer, and then to the electrical outlet.

⚠️ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**6** Turn on the printer.

Add the tray in the print driver to make it available for print jobs. For more information, see .

## Installing the intelligent storage drive

⚠️ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**1** Turn off the printer.

**2** Unplug the power cord from the electrical outlet, and then from the printer.

**3** Using a flat-head screwdriver, remove the controller board shield.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board components or connectors.

**4** Unpack the intelligent storage drive (ISD).

**Warning—Potential Damage:** Avoid touching the connection points along the edge of the card.

**5** Locate the ISD connector.
**6** Insert the storage drive to the ISD connector.
**7** Attach the controller board shield, and then install the screws.

**8** Connect the power cord to the printer, and then to the electrical outlet.

⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**9** Turn on the printer.

## Installing a printer hard disk

⚠ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**Note:** This task requires a flat-head screwdriver.

**1** Turn off the printer.

**2** Unplug the power cord from the electrical outlet, and then from the printer.

**3** Remove the controller board shield.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board components or connectors.
**4** Remove the hard disk port cover from the controller board shield.
**5** Unpack, and then assemble the hard disk.
**6** Attach the hard disk to the controller board shield.
**7** Connect the hard disk interface cable to the controller board.
**8** Attach the controller board shield, and then install the screws.
**9** Connect the power cord to the printer, and then to the electrical outlet.

> ⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.
**10** Turn on the printer.

# Networking

## Wireless support

| Printer model | Machine type | Model number | Wireless |
|---|---|---|---|
| C2335 | 5031 | 290 | ✓ |
| CS531dw | | 270 | X |
| | | 280 | ✓ |
| CS632dwe | | 675 | X |
| | | 685 | ✓ |
| CS639 | | 635 | X |

## Connecting the printer to a Wi‑Fi network

Make sure that Active Adapter is set to Auto. From the home screen, touch **Settings** > **Network/Ports** > **Network Overview** > **Active Adapter**.

**Using the control panel**

**1** From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Setup On Printer Panel** > **Choose Network**.

**2** Select a Wi‑Fi network, and then type the network password.

**Note:** For Wi‑Fi‑network‑ready printer models, a prompt for Wi‑Fi network setup appears during initial setup.

**Using Lexmark Mobile Assistant**

**1** Depending on your mobile device, download the Lexmark Mobile Assistant application from either the Google Play™ store or App Store online store.

**2** From the printer home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Setup Using Mobile App** > **Printer ID**.

**3** From your mobile device, launch the application, and then accept the Terms of Use.

**Note:** If necessary, grant permissions.

**4** Tap **Connect to Printer** > **Go to Wi‑Fi Settings**.

**5** Connect your mobile device to the printer wireless network.

**6** Return to the application, and then tap **Setup Wi‑Fi Connection**

**7** Select a Wi‑Fi network, and then type the network password.

**8** Tap **Done**.

## Connecting the printer to a wireless network using Wi‑Fi Protected Setup (WPS)

Before you begin, make sure that:
- The access point (wireless router) is WPS‑certified or WPS‑compatible. For more information, see the documentation that came with your access point.
- A wireless network adapter is installed in your printer. For more information, see the instructions that came with the adapter.
- Active Adapter is set to Auto. From the home screen, touch **Settings** > **Network/Ports** > **Network Overview** > **Active Adapter**.

### Using the Push Button method

**1** From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Wi‑Fi Protected Setup** > **Start Push Button Method**.

**2** Follow the instructions on the display.

### Using the personal identification number (PIN) method

**1** From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Wi‑Fi Protected Setup** > **Start PIN Method**.

**2** Copy the eight‑digit WPS PIN.

**3** Open a web browser, and then type the IP address of your access point in the address field.

**Notes:**

- To know the IP address, see the documentation that came with your access point.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

**4** Access the WPS settings. For more information, see the documentation that came with your access point.

**5** Enter the eight‑digit PIN, and then save the changes.

## Configuring Wi‑Fi Direct

Wi‑Fi Direct® is a Wi‑Fi‑based peer‑to‑peer technology that allows wireless devices to connect directly to a Wi‑Fi Direct‑enabled printer without using an access point (wireless router).

**1** From the home screen, touch **Settings** > **Network/Ports** > **Wi‑Fi Direct**.

**2** Configure the settings.
- **Enable Wi‑Fi Direct**—Enables the printer to broadcast its own Wi‑Fi Direct network.
- **Wi‑Fi Direct Name**—Assigns a name for the Wi‑Fi Direct network.

- **Wi‑Fi Direct Password**—Assigns the password for negotiating the wireless security when using the peer‑to‑peer connection.
- **Show Password on Setup Page**—Shows the password on the Network Setup Page.
- **Auto‑Accept Push Button Requests**—Lets the printer accept connection requests automatically.

   **Note:** Accepting push‑button requests automatically is not secured.

**Notes:**

- By default, the Wi‑Fi Direct network password is not visible on the printer display. To show the password, enable the password peek icon. From the home screen, touch **Settings** > **Security** > **Miscellaneous** > **Enable Password/PIN Reveal**.
- To know the password of the Wi‑Fi Direct network without showing it on the printer display, from the home screen touch **Settings** > **Reports** > **Network** > **Network Setup Page**.

## Connecting a mobile device to the printer

Before connecting your mobile device, make sure that Wi‑Fi Direct has been configured. For more information, see .

**Connecting using Wi‑Fi Direct**

**Note:** These instructions apply only to Android mobile devices.

1 From the mobile device, go to the settings menu.

2 Enable **Wi‑Fi**, and then tap **Wi‑Fi Direct**.

3 Select the printer Wi‑Fi Direct name.

4 Confirm the connection on the printer control panel.

**Connecting using Wi‑Fi**

1 From the mobile device, go to the settings menu.

2 Tap **Wi‑Fi**, and then select the printer Wi‑Fi Direct name.

   **Note:** The string DIRECT‑xy (where x and y are two random characters) is added before the Wi‑Fi Direct name.

3 Enter the Wi‑Fi Direct password.

## Connecting a computer to the printer

Before connecting your computer, make sure that Wi‑Fi Direct has been configured. For more information, see .

**For Windows users**

1 Open the printers folder, and then click **Add a printer or scanner**.

2 Click **Show Wi‑Fi Direct printers**, and then select the printer Wi‑Fi Direct name.

**3** From the printer display, take note of the eight-digit PIN of the printer.

**4** Enter the PIN on the computer.

**Note:** If the print driver is not already installed, then Windows downloads the appropriate driver.

**For Macintosh users**

**1** Click the wireless icon, and then select the printer Wi-Fi Direct name.

**Note:** The string DIRECT-xy (where x and y are two random characters) is added before the Wi-Fi Direct name.

**2** Type the Wi-Fi Direct password.

**Note:** Switch your computer back to its previous network after disconnecting from the Wi-Fi Direct network.

## Deactivating the Wi-Fi network

**1** From the home screen, touch **Settings** > **Network/Ports** > **Network Overview** > **Active Adapter** > **Standard Network**.

**2** Follow the instructions on the display.

## Checking the printer connectivity

**1** From the home screen, touch **Settings** > **Reports** > **Network** > **Network Setup Page**.

**2** Check the first section of the network setup page, and confirm that the status is connected.

If the status is not connected, then the LAN drop may be inactive, or the network cable may be malfunctioning. Contact your administrator for assistance.

# Secure the printer

## Locating the security slot

The printer is equipped with a security lock feature. Attach a security lock compatible with most laptop computers in the location shown to secure the printer in place.
## Erasing printer memory

To erase volatile memory or buffered data in your printer, turn off the printer.

To erase nonvolatile memory, device and network settings, security settings, and embedded solutions, do the following:

1 From the home screen, touch **Settings** > **Device** > **Maintenance** > **Out of Service Erase**.

2 Touch the **Sanitize all information on nonvolatile memory** check box, and then touch **ERASE**.

3 Touch **Start initial setup wizard** or **Leave printer offline**, and then touch **Next**.

4 Start the operation.

**Note:** This process also destroys the encryption key that is used to protect user data. Destroying the encryption key makes the data irrecoverable.

# Erasing printer storage drive

**1** From the home screen, touch **Settings** > **Device** > **Maintenance** > **Out of Service Erase**.

**2** Depending on the storage drive that is installed on your printer, do either of the following:

- For hard disk, touch the **Sanitize all information on hard disk** check box, touch **ERASE**, and then select a method to erase data.

  **Note:** The process to sanitize the hard disk can take from several minutes to more than an hour, making the printer unavailable for other tasks.

- For intelligent storage drive (ISD), touch **Erase Intelligent Storage Drive**, and then touch **ERASE** to erase all user data.

**3** Start the operation.

# Restoring factory default settings

**1** From the home screen, touch **Settings** > **Device** > **Restore Factory Defaults**.

**2** In the Restore Settings menu, select the settings that you want to restore.

**3** Touch **RESTORE**.

**4** Follow the instructions on the display.

# Statement of Volatility

| Type of memory | Description |
| --- | --- |
| Volatile memory | The printer uses standard random access memory (RAM) to buffer temporarily user data during simple print jobs. |
| Nonvolatile memory | The printer may use two forms of non-volatile memory: EEPROM and NAND (flash memory). Both types store the operating system, printer settings, and network information. They also store bookmark settings and embedded solutions. |
| Hard disk storage drive | Some printers may have a hard disk drive installed. The printer hard disk is designed for printer-specific functionality. The hard disk lets the printer retain buffered user data from complex print jobs, form data, and font data. |
| Intelligent storage drive (ISD) | Some printers may have an ISD installed. ISD uses non-volatile flash memory to store user data from complex print jobs, form data, and font data. |

Erase the content of any installed printer memory in the following circumstances:

- The printer is decommissioned.
- The printer hard disk or ISD is replaced.
- The printer is moved to a different department or location.
- The printer is serviced by someone from outside your organization.

- The printer is removed from your premises for service.
- The printer is sold to another organization.

**Note:** To dispose a storage drive, follow the policies and procedures of your organization.

# Print

## Printing from a computer

**Note:** For labels, card stock, and envelopes, set the paper size and type in the printer before printing the document.

**1** From the document that you are trying to print, open the Print dialog.

**2** If necessary, adjust the settings.

**3** Print the document.

## Printing from a mobile device

Printing from a mobile device using Lexmark Mobile Print

### Printing from a mobile device using Lexmark Mobile Print

Lexmark™ Mobile Print allows you to send documents and images directly to a supported Lexmark printer.

**1** Open the document, and then send or share the document to Lexmark Mobile Print.

**Note:** Some third-party applications may not support the send or share feature. For more information, see the documentation that came with the application.

**2** Select a printer.

**3** Print the document.

### Printing from a mobile device using Lexmark Print

Lexmark Print is a mobile printing solution for mobile devices running on Android™ version 6.0 or later. It lets you send documents and images to network-connected printers and print management servers.

**Notes:**

- Make sure that you download the Lexmark Print application from the Google Play store and enable it in the mobile device.
- Make sure that the printer and the mobile device are connected to the same network.

**1** From your mobile device, select a document from the file manager.

**2** Send or share the document to Lexmark Print.

**Note:** Some third-party applications may not support the send or share feature. For more information, see the documentation that came with the application.

**3** Select a printer, and then adjust the settings, if necessary.

**4** Print the document.

## Printing from a mobile device using Mopria Print Service

Mopria® Print Service is a mobile printing solution for mobile devices running on Android version 5.0 or later. It allows you to print directly to any Mopria-certified printer.

**Note:** Make sure that you download the Mopria Print Service application from the Google Play store and enable it in the mobile device.

**1** From your Android mobile device, launch a compatible application or select a document from your file manager.

**2** Tap ⋮ > **Print**.

**3** Select a printer, and then adjust the settings, if necessary.

**4** Tap 🖶.

## Printing from a mobile device using AirPrint

The AirPrint software feature is a mobile printing solution that allows you to print directly from Apple devices to an AirPrint-certified printer.

**Notes:**

- Make sure that the Apple device and the printer are connected to the same network. If the network has multiple wireless hubs, then make sure that both devices are connected to the same subnet.
- This application is supported only in some Apple devices.

**1** From your mobile device, select a document from your file manager or launch a compatible application.

**2** Tap ⬆ > **Print**.

**3** Select a printer, and then adjust the settings, if necessary.

**4** Print the document.

## Printing from a mobile device using Wi‑Fi Direct®

Wi‑Fi Direct® is a printing service that lets you print to any Wi‑Fi Direct-ready printer.

**Note:** Make sure that the mobile device is connected to the printer wireless network. For more information, see .

**1** From your mobile device, launch a compatible application or select a document from your file manager.

**2** Depending on your mobile device, do one of the following:

- Tap ⋮ > **Print**.
- Tap ⬆ > **Print**.
- Tap ⋯ > **Print**.

**3** Select a printer, and then adjust the settings, if necessary.

**4** Print the document.

# Printing from a flash drive

**1** Insert the flash drive.
**Notes:**

- If you insert the flash drive when an error message appears, then the printer ignores the flash drive.
- If you insert the flash drive while the printer is processing other print jobs, then `Busy` appears on the display.

**2** From the display, touch the document that you want to print.

If necessary, configure the print settings.

**3** Print the document.

To print another document, touch **USB Drive**.

**Warning—Potential Damage:** To avoid loss of data or printer malfunction, do not touch the flash drive or the printer in the area shown while actively printing, reading, or writing from the memory device.

# Supported flash drives and file types

## Flash drives

- Lexar JumpDrive S70 (16GB and 32GB)
- SanDisk Cruzer Micro (16GB and 32GB)
- PNY Attaché (16GB and 32GB)

**Notes:**

- The printer supports high-speed flash drives with full-speed standard. Low-speed USB devices are not supported.
- Flash drives must support the File Allocation Table (FAT) system.
- Devices formatted with New Technology File System (NTFS) or any other file system are not supported.

## File types

| Documents | Images |
|---|---|
| <br>• PDF (version 1.7 or earlier)<br>• HTML<br>• Microsoft file formats (DOC, DOCX, XLS, XLSX, PPT, PPTX) | • JPEG or JPG<br>• TIFF or TIF<br>• GIF<br>• BMP<br>• PNG<br>• PCX<br>• DCX |

# Configuring confidential jobs

**1** From the home screen, touch **Settings** > **Security** > **Confidential Print Setup**.

**2** Configure the settings.

| Setting | Description |
|---|---|
| Max Invalid PIN | Set the limit for entering an invalid PIN.<br>**Note:** When the limit is reached, the print jobs for that user name are deleted. |
| Confidential Job Expiration | Set an individual expiration time for each held job before it is automatically deleted from the printer memory, hard disk, or intelligent storage drive.<br>**Note:** A held job is either Confidential, Repeat, Reserve, or Verify. |
| Repeat Job Expiration | Set the expiration time for print jobs that you want to repeat. |
| Verify Job Expiration | Set the expiration time for printing a copy of a job for you to check its quality before printing the remaining copies. |
| Reserve Job Expiration | Set the expiration time for jobs that you want to store in the printer for printing later. |
| Require All Jobs to be Held | Set the printer to hold all print jobs. |

| Setting | Description |
|---------|-------------|
| Keep duplicate documents | Set the printer to keep all documents with the same file name. |

# Printing confidential and other held jobs

## For Windows users

1 With a document open, click **File** > **Print**.

2 Select a printer, and then click **Properties**, **Preferences**, **Options**, or **Setup**.

3 Click **Print and Hold**.

4 Select **Use Print and Hold**, and then assign a user name.

5 Select the print job type (Confidential, Repeat, Reserve, or Verify).

 If you select **Confidential**, then secure the print job with a personal identification number (PIN).

6 Click **OK** or **Print**.

7 From the printer home screen, release the print job.

 - For confidential print jobs, touch **Held jobs** > select your user name > **Confidential** > enter the PIN > select the print job > configure the settings > **Print**.
 - For other print jobs, touch **Held jobs** > select your user name > select the print job > configure the settings > **Print**.

## For Macintosh users

**Using AirPrint**

1 With a document open, choose **File** > **Print**.

2 Select a printer, and then from the drop-down menu following the Orientation menu, choose **PIN Printing**.

3 Enable **Print with PIN**, and then enter a four-digit PIN.

4 Click **Print**.

5 From the printer home screen, release the print job. Touch **Held jobs** > select your computer name > **Confidential** > enter the PIN > select the print job > **Print**.

**Using the print driver**

1 With a document open, choose **File** > **Print**.

2 Select a printer, and then from the drop-down menu following the Orientation menu, choose **Print and Hold**.

3 Choose **Confidential Print**, and then enter a four-digit PIN.

4 Click **Print**.

5 From the printer home screen, release the print job. Touch **Held jobs** > select your computer name > **Confidential** > select the print job > enter the PIN > **Print**.

# Printing a font sample list

**1** From the home screen, touch **Settings** > **Reports** > **Print** > **Print Fonts**.

**2** Touch **PCL Fonts** or **PS Fonts**.

# Printing a directory list

From the home screen, touch **Settings** > **Reports** > **Print** > **Print Directory**.

# Placing separator sheets between copies

**1** From the home screen, touch **Settings** > **Print** > **Layout** > **Separator Sheets** > **Between Copies**.

**2** Print the document.

# Canceling a print job

**1** From the home screen, touch  .

**2** Select the job to cancel.

**Note:** You can also cancel a job by touching **Job Queue**.

# Adjusting toner darkness

**1** From the home screen, touch **Settings** > **Print** > **Quality** > **Toner Darkness**.

**2** Select a setting.

# Use printer menus

| **Restore Settings**<br>Restore all settings<br>Restore printer settings<br>Restore network settings<br>Restore app settings | Restore the printer factory default settings. |

## Maintenance

### Configuration Menu

| Menu item | Description |
|---|---|
| **USB Configuration**<br>USB PnP<br>1*<br>2 | Change the USB driver mode of the printer to improve its compatibility with a personal computer. |
| **USB Configuration**<br>USB Scan to Local<br>On*<br>Off | Set whether the USB device driver enumerates as a USB Simple device (single interface) or as a USB Composite device (multiple interfaces). |
| **USB Configuration**<br>USB Speed<br>Full<br>Auto* | Set the USB port to run at full speed and disable its high-speed capabilities. |
| **Tray Configuration**<br>Tray Linking<br>Automatic*<br>Off | Set the printer to link the trays that have the same paper type and paper size settings. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Tray Configuration**<br>    Show Tray Insert Message<br>        Off<br>        Only for unknown sizes*<br>        Always | Display a message that lets the user change the paper size and paper type settings after inserting the tray. |
| **Tray Configuration**<br>    Paper Prompts<br>        Auto*<br>        Multipurpose Feeder<br>        Manual Paper | Set the paper source that the user fills when a prompt to load paper appears.<br>**Note:** For Multipurpose Feeder to appear, in the Paper menu, set Configure MP to Cassette. |
| **Tray Configuration**<br>    Envelope Prompts<br>        Auto*<br>        Multipurpose Feeder<br>        Manual Envelope | Set the paper source that the user fills when a prompt to load envelope appears.<br>**Note:** For Multipurpose Feeder to appear, in the Paper menu, set Configure MP to Cassette. |
| **Tray Configuration**<br>    Action for Prompts<br>        Prompt user*<br>        Continue<br>        Use current | Set the printer to resolve paper- or envelope-related change prompts. |
| **Tray Configuration**<br>    Multiple Universal Sizes<br>        Off*<br>        On | Set the tray to support multiple universal paper sizes. |
| **Reports**<br>    Menu Settings Page<br>    Event Log<br>    Event Log Summary | Print reports about printer menu settings, status, and event logs. |
| **Supply Usage And Counters**<br>    Clear Supply Usage History | Reset the supply usage history, such as number of pages and days remaining, to the factory shipped level. |
| **Supply Usage And Counters**<br>    ITM Reset | Reset the counter after installing a new supply item or maintenance kit. |
| **Supply Usage And Counters**<br>    Reset Maintenance Counter | Reset the counter after installing a new maintenance kit. |
| **Supply Usage And Counters**<br>    Tiered Coverage Ranges | Adjust the amount of color coverage for each printing range. |
| **Printer Emulations**<br>    PPDS Emulation<br>        Off*<br>        On | Set the printer to recognize and use the PPDS data stream. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Printer Emulations**<br>  PS Emulation<br>    Off<br>    On* | Set the printer to recognize and use the PS data stream. |
| **Print Emulations**<br>  Use Native ISD Fonts<br>    Off*<br>    On | Let the printer use the native fonts or free fonts in the intelligent storage drive (ISD) for printing.<br>**Note:** This menu item appears only when an ISD is installed. |
| **Printer Emulations**<br>  Enable Formsmerge<br>    Off<br>    On* | Activate Forms Merge to store the forms into the hard disk or ISD.<br>**Notes:**<br>• The Forms Merge license must be installed.<br>• This menu item appears only when a hard disk or an ISD is installed. |
| **Printer Emulations**<br>  Enable Prescribe<br>    Off*<br>    On | Activate Prescribe.<br>**Note:** The Prescribe license must be installed. |
| **Printer Emulations**<br>  Emulator Security<br>    Page Timeout<br>      0–60 (60*) | Set the page time-out during emulation. |
| **Printer Emulations**<br>  Emulator Security<br>    Reset Emulator After Job<br>      Off*<br>      On | Reset the emulator after a print job. |
| **Printer Emulations**<br>  Emulator Security<br>    Disable Printer Message Access<br>      Off<br>      On* | Disable access to printer message during emulation. |
| **Print Configuration**<br>  Black Only Mode<br>    Off*<br>    On | Print non-copy jobs in grayscale. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Print Configuration**<br>Color Trapping<br>    Off<br>    1<br>    2*<br>    3<br>    4<br>    5 | Enhance the printed output to compensate for misregistration in the printer. |
| **Print Configuration**<br>Font Sharpening<br>    0–150 (24*) | Set a text point-size value below which the high-frequency screens are used when printing font data.<br>For example, if the value is 24, then all fonts sized 24 points or less use the high-frequency screens. |
| **Device Operations**<br>Quiet Mode<br>    Off*<br>    On | Set the printer to operate in Quiet Mode.<br>**Note:** Enabling this setting slows down the overall performance of the printer. |
| **Device Operations**<br>Safe Mode<br>    Off*<br>    On | Set the printer to operate in a special mode, in which it attempts to continue offering as much functionality as possible, despite known issues.<br>For example, when set to On, and the duplex motor is nonfunctional, the printer performs one-sided printing of the documents even if the job is two-sided printing. |
| **Device Operations**<br>Clear Custom Status | Erase user-defined strings for the Default or Alternate custom messages. |
| **Device Operations**<br>Clear all remotely-installed messages | Erase messages that were remotely installed. |
| **Device Operations**<br>Automatically Display Error Screens<br>    Off<br>    On* | Show existing error messages on the display after the printer remains inactive on the home screen for a length of time. |
| **Toner patch sensor setup**<br>Calibration frequency preference<br>    Disabled<br>    Fewest color adjustments<br>    Fewer color adjustments<br>    Normal*<br>    Better color accuracy<br>    Best color accuracy | Set the printer to put down the correct amount of toner to maintain color consistency. |
| **Toner patch sensor setup**<br>Full calibration | Run the full color calibration. |
| **Toner patch sensor setup**<br>Print TPS information page | Print a diagnostic page that contains information on toner patch sensor calibration. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **App Configuration**<br>   LES Applications<br>     Off<br>     On* | Enable Lexmark Embedded Solutions (LES) applications. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Out of Service Erase

| Menu item | Description |
|---|---|
| **Out of Service Erase**<br>   Memory Last Sanitized<br>   ISD last erased | Show a read-only information on when the printer memory or storage drive was last erased.<br>**Note:** ISD last erased appears only when an intelligent storage drive is installed. |
| **Out of Service Erase**<br>   Sanitize all information on nonvolatile memory<br>     Erase all printer and network settings<br>     Erase all apps and app settings<br>     Erase all shortcuts and shortcut settings<br>   Erase Intelligent Storage Drive | Clear all information on nonvolatile memory and on the storage drive.<br>**Note:** Erase Intelligent Storage Drive appears only when an ISD is installed. |

Home Screen Customization

## Home Screen Customization

**Note:** This menu appears only in the Embedded Web Server.

| Menu | Description |
|---|---|
|    Status/Supplies<br>   Job Queue<br>   Settings<br>   Address Book<br>   USB Drive<br>   Held Jobs | Specify which icons to show on the home screen. |

## Update firmware

| Menu item | Description |
|---|---|
| **Current Version** | Show the current firmware version installed on the printer. |
| **Check for updates now** | Check for firmware updates. |
| **Auto check for updates** | Set the printer to check for firmware updates automatically. |

## About this Printer

| Menu item | Description |
|---|---|
| **Asset Tag** | Specify the identity of the printer. The maximum length is 32 characters. |
| **Printer's Location** | Specify the printer location. The maximum length is 63 characters. |
| **Contact** | Specify the contact information for the printer. The maximum length is 63 characters. |
| **Firmware Version** | Show the firmware version installed on the printer. |
| **Engine** | Show the engine number of the printer. |
| **Serial Number** | Show the serial number of the printer. |
| **Export Configuration File to USB** | Export the configuration file to a flash drive. |
| **Export Compressed Logs to USB** | Export the compressed log files to a flash drive. |
| **Send Logs** | Send printer log information to Lexmark. |

# Print

## Layout

| Menu item | Description |
|---|---|
| **Sides**<br>1-Sided*<br>2-Sided | Specify whether to print on one side or both sides of the paper. |
| **Flip Style**<br>Long Edge*<br>Short Edge | Determine which side of the paper is bound when performing two-sided printing. |
| **Blank Pages**<br>Print<br>Do Not Print* | Print blank pages that are included in a print job. |
| **Collate**<br>Off (1,1,1,2,2,2)<br>On (1,2,1,2,1,2)* | Keep the pages of a print job stacked in sequence, particularly when printing multiple copies of the job. |
| **Separator Sheets**<br>None*<br>Between Copies<br>Between Jobs<br>Between Pages | Insert blank separator sheets when printing. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|-----------|-------------|
| **Separator Sheet Source**<br>Tray [x] (1*)<br>Multipurpose Feeder | Specify the paper source for the separator sheet. |
| **Pages per Side**<br>Off*<br>2 pages per side<br>3 pages per side<br>4 pages per side<br>6 pages per side<br>9 pages per side<br>12 pages per side<br>16 pages per side | Print multiple page images on one side of a sheet of paper. |
| **Pages per Side Ordering**<br>Horizontal*<br>Reverse Horizontal<br>Vertical<br>Reverse Vertical | Specify the positioning of multiple page images when using the Pages per Side menu. |
| **Pages per Side Orientation**<br>Auto*<br>Landscape<br>Portrait | Specify the orientation of multiple page images when using the Pages per Side menu. |
| **Pages per Side Border**<br>None*<br>Solid | Print a border around each page image when using the Pages per Side menu. |
| **Copies**<br>1–9999 (1*) | Specify the number of copies for each print job. |
| **Print Area**<br>Normal*<br>Fit to page<br>Whole Page | Set the printable area on a sheet of paper. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Setup

| Menu item | Description |
|-----------|-------------|
| **Printer Language**<br>PCL Emulation<br>PS Emulation* | Set the printer language.<br>**Note:** Setting a printer language default does not prevent a software program from sending print jobs that use another printer language. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Job Waiting**<br>Off*<br>On | Preserve print jobs requiring supplies so that jobs not requiring the missing supplies can print.<br>**Note:** This menu item appears only when a hard disk or an intelligent storage drive (ISD) is installed. |
| **Job Hold Timeout**<br>0–255 (30*) | Set the time in seconds that the printer waits for user intervention before it holds jobs that require unavailable resources.<br>**Note:** This menu item appears only when a hard disk or an ISD is installed. |
| **Printer Usage**<br>Max Speed<br>Max Yield* | Determine how the color imaging kit operates during printing.<br>**Notes:**<br>• When set to Max Yield, the color imaging kit slows or stops while printing groups of black-only pages.<br>• When set to Max Speed, the color imaging kit always runs while printing, whether color or black pages are being printed. |
| **Low-Speed Printer Usage**<br>Max Speed<br>Max Yield* | Determine how the color imaging kit operates during low-speed printing.<br>**Notes:**<br>• When set to Max Yield, the color imaging kit slows or stops while printing groups of black-only pages.<br>• When set to Max Speed, the color imaging kit always runs while printing, whether color or black pages are being printed.<br>• This setting only changes printer behavior when the print engine is running at a 25 pages per minute process speed. It has no effect when the print engine is running at faster process speeds. |
| **Download Target**<br>RAM*<br>Disk | Specify where to save all permanent resources that have been downloaded to the printer.<br>**Note:** This menu item appears only when a hard disk or an ISD is installed. |
| **Resource Save**<br>Off*<br>On | Determine what the printer does with downloaded resources when it receives a job that requires more than the available memory.<br>**Notes:**<br>• When set to Off, the printer retains downloaded resources only until memory is needed. Resources associated with the inactive printer language are deleted.<br>• When set to On, the printer preserves all the permanent downloaded resources across all language switches. When necessary, the printer shows memory full messages instead of deleting permanent resources. |
| **Print All Order**<br>Alphabetical*<br>Newest First<br>Oldest First | Specify the order when you choose to print all held and confidential jobs.<br>**Note:** This menu item appears only when a hard disk or an ISD is installed. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# Quality

| Menu item | Description |
|---|---|
| **Print Mode**<br>Black and White<br>Color* | Set how the printer generates color content. |
| **Print Resolution**<br>4800 CQ*<br>1200 dpi | Set the resolution for the printed output.<br>**Note:** 4800 CQ provides high-quality output at maximum speed. |
| **Toner Darkness**<br>1 to 5 (4*) | Determine the lightness or darkness of text images. |
| **Halftone**<br>Normal*<br>Detail | Enhance the printed output to have smoother lines with sharper edges. |
| **Color Saver**<br>Off*<br>On | Reduce the amount of toner used to print graphics and images.<br>**Note:** When set to On, this setting overrides the value of the Toner Darkness setting. |
| **RGB Brightness**<br>-6 to 6 (0*) | Adjust the brightness of every RGB and gray object on the page.<br>**Note:** This setting does not affect files where CMYK color specifications are used. |
| **RGB Contrast**<br>-6 to 6 (0*) | Adjust the contrast of every RGB and gray object on a page.<br>**Note:** This setting does not affect files where CMYK color specifications are used. |
| **RGB Saturation**<br>0 to 5 (0*) | Preserve the black and white values while adjusting the color values of every object on the page.<br>**Note:** This setting does not affect files where CMYK color specifications are used. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

## Advanced Imaging

| Menu item | Description |
|---|---|
| **Color Balance**<br>Cyan (0*)<br>Magenta (0*)<br>Yellow (0*)<br>Black (0*) | Adjust the amount of toner that is used for each color. |
| **Color Balance**<br>Reset Defaults | Reset all color settings to their default values. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Color Correction**<br>Off<br>Auto*<br>Manual | Modify the color settings used to print documents.<br>**Notes:**<br>• Off sets the printer to receive the color correction from the software.<br>• Auto sets the printer to apply different color profiles to each object on the printed page.<br>• Manual allows the customization of the RGB or CMYK color conversions applied to each object on the printed page. |
| **Color Samples**<br>Print Color Samples | Print sample pages for each of the RGB and CMYK color conversion tables used in the printer. |
| **Color Adjust** | Calibrate the printer to adjust color variations in the printed output. |
| **Spot Color Replacement**<br>Set Custom CMYK | Assign specific CMYK values to twenty named spot colors. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

## Job Accounting

| Menu item | Description |
|---|---|
| **Job Accounting**<br>Off*<br>On | Set the printer to create a log of the print jobs that it receives.<br>**Note:** This menu item appears only when a flash memory, a hard disk, or an intelligent storage drive (ISD) is installed. |
| **Accounting Log Frequency**<br>Daily<br>Weekly<br>Monthly* | Specify how often the printer creates a log file. |
| **Log Action at End of Frequency**<br>None*<br>E-mail Current Log<br>E-mail & Delete Current Log<br>Post Current Log<br>Post & Delete Current Log | Specify how the printer responds when the frequency threshold expires.<br>**Note:** The value defined in Accounting Log Frequency determines when this action is triggered. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Log Action at Near Full**<br>None*<br>E-mail Current Log<br>E-mail & Delete Current Log<br>E-mail & Delete Oldest Log<br>Post Current Log<br>Post & Delete Current Log<br>Post & Delete Oldest Log<br>Delete Current Log<br>Delete Oldest Log<br>Delete All But Current<br>Delete All Logs | Specify how the printer responds when the hard disk or ISD is nearly full. |
| **Log Action at Full**<br>None*<br>E-mail & Delete Current Log<br>E-mail & Delete Oldest Log<br>Post & Delete Current Log<br>Post & Delete Oldest Log<br>Delete Current Log<br>Delete Oldest Log<br>Delete All But Current<br>Delete All Logs | Specify how the printer responds when hard disk or ISD usage reaches the maximum limit (100MB). |
| **URL to Post Log** | Specify where the printer posts job accounting logs. |
| **E-mail Address to Send Logs** | Specify the e-mail address to which the printer sends job accounting logs. |
| **Log File Prefix** | Specify the prefix for the log files.<br><br>**Note:** The current host name defined in the TCP/IP menu is used as the default log file prefix. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## PDF

| Menu item | Description |
|---|---|
| **Scale To Fit**<br>Off*<br>On | Scale the page content to fit the selected paper size. |
| **Annotations**<br>Print<br>Do Not Print* | Specify whether to print annotations in the PDF. |
| **Print PDF Error**<br>Off<br>On* | Enable the printing of PDF error. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# PostScript

| Menu item | Description |
|---|---|
| **Print PS Error**<br>Off*<br>On | Print a page that describes the PostScript® error.<br>**Note:** When an error occurs, processing of the job stops, the printer prints an error message, and the rest of the print job is flushed. |
| **Minimum Line Width**<br>1–30 (2*) | Set the minimum stroke width.<br>**Note:** Jobs printed in 1200 dpi use the value directly. |
| **Lock PS Startup Mode**<br>Off<br>On* | Disable the SysStart file. |
| **Image Smoothing**<br>Off*<br>On | Enhance the contrast and sharpness of low-resolution images.<br>**Note:** This setting has no effect on images with a resolution of 300 dpi or higher. |
| **Font Priority**<br>Resident*<br>Flash/Disk | Establish the font search order.<br>**Notes:**<br>• Resident sets the printer to search its memory for the requested font before searching the hard disk or intelligent storage drive (ISD).<br>• Flash/Disk sets the printer to search the hard disk or ISD for the requested font before searching the printer memory.<br>• This menu item appears only when a hard disk or an ISD is installed. |
| **Wait Timeout**<br>Off<br>On* (40 seconds) | Enable the printer to wait for more data before canceling a print job. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# PCL

| Menu item | Description |
|---|---|
| **Font Source**<br>Resident*<br>Disk<br>Download<br>Flash<br>Font Card<br>All | Select the source which contains the default font selection.<br>**Notes:**<br>• Disk and Flash appear only when a non-defective, non-protected hard disk or intelligent storage drive (ISD) that contains fonts is installed.<br>• Download appears only if downloaded fonts exist in the printer memory.<br>• Font Card appears only when an ISD is installed. |
| **Font Name**<br>[List of available fonts] (Courier*) | Select a font from the specified font source. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|-----------|-------------|
| **Symbol Set**<br>[List of available symbol set] (10U PC-8*) | Specify the symbol set for each font name.<br>**Note:** A symbol set is a set of alphabetic and numeric characters, punctuation, and special symbols. Symbol sets support the different languages or specific programs such as math symbols for scientific text. |
| **Pitch**<br>0.08–100.00 (10.00*) | Specify the pitch for fixed or monospaced fonts.<br>**Note:** Pitch refers to the number of fixed-space characters in a horizontal inch of type. |
| **Orientation**<br>Portrait*<br>Landscape<br>Reverse Portrait<br>Reverse Landscape | Specify the orientation of text and graphics on the page. |
| **Lines per Page**<br>1–255 | Specify the number of lines of text for each page printed through the PCL® data stream.<br>**Notes:**<br>• This menu item activates vertical escapement that causes the selected number of requested lines to print between the default margins of the page.<br>• 60 is the U.S. factory default setting. 64 is the international factory default setting. |
| **PCL5 Minimum Line Width**<br>1–30 (2*) | Set the initial minimum stroke width. |
| **PCLXL Minimum Line Width**<br>1–30 (2*) | |
| **A4 Width**<br>198 mm*<br>203 mm | Set the width of the logical page on A4-size paper.<br>**Note:** Logical page is the space on the physical page where data is printed. |
| **Auto CR after LF**<br>On<br>Off* | Set the printer to perform a carriage return after a line feed control command.<br>**Note:** Carriage return is a mechanism that commands the printer to move the position of the cursor to the first position on the same line. |
| **Auto LF after CR**<br>On<br>Off* | Set the printer to perform a line feed after a carriage return control command. |
| **Tray Renumber**<br>Assign Tray [x]<br>Assign Manual Paper<br>Assign Manual Envelope | Configure the printer to work with a different print driver or custom application that uses a different set of source assignments to request a given paper source. |
| **Tray Renumber**<br>View Factory Defaults | Show the factory default value assigned for each paper source. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Tray Renumber**<br>Restore Defaults | Restore the tray renumber values to their factory defaults. |
| **Print Timeout**<br>Off<br>On* (90 seconds) | Set the printer to end a print job after it has been idle for the specified amount of time. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Image

| Menu item | Description |
|---|---|
| **Auto Fit**<br>On<br>Off* | Select the best available paper size and orientation setting for an image.<br>**Note:** When set to On, this menu item overrides the scaling and orientation settings for the image. |
| **Invert**<br>Off*<br>On | Invert bitonal monochrome images.<br>**Note:** This menu item does not apply to GIF or JPEG image formats. |
| **Scaling**<br>Anchor Top Left<br>Best Fit*<br>Anchor Center<br>Fit Height/Width<br>Fit Height<br>Fit Width | Adjust the image to fit the printable area.<br>**Note:** When Auto Fit is set to On, Scaling is automatically set to Best Fit. |
| **Orientation**<br>Portrait*<br>Landscape<br>Reverse Portrait<br>Reverse Landscape | Specify the orientation of text and graphics on the page. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# Paper

## Tray Configuration

| Menu item | Description |
|---|---|
| **Default Source**<br>Tray [x] (1*)<br>Multipurpose Feeder<br>Manual Paper<br>Manual Envelope | Set the paper source for all print jobs. |
| **Paper Size/Type**<br>Tray [x]<br>Multipurpose Feeder<br>Manual Paper<br>Manual Envelope | Specify the paper size or paper type loaded in each paper source. |
| **Substitute Size**<br>Off<br>Letter/A4<br>All Listed* | Set the printer to substitute a specified paper size if the requested size is not loaded in any paper source.<br>**Notes:**<br>• Off prompts the user to load the required paper size.<br>• All Listed allows all available substitutions. |
| **Configure MP**<br>Cassette*<br>Manual<br>First | Determine the behavior of the multipurpose feeder.<br>**Notes:**<br>• Cassette configures the multipurpose feeder as the automatic paper source.<br>• Manual sets the multipurpose feeder only for manual-feed print jobs.<br>• First configures the multipurpose feeder as the primary paper source. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

## Media Configuration

### Universal Setup

| Menu item | Description |
|---|---|
| **Units of Measure**<br>Inches<br>Millimeters | Specify the unit of measurement for the universal paper.<br>**Note:** Inches is the U.S. factory default setting. Millimeters is the international factory default setting. |
| **Portrait Width**<br>3–52 inches (8.5*)<br>76–1321 mm (216*) | Set the portrait width of the universal paper. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Portrait Height**<br>3–52 inches (14*)<br>76.2–1321 mm (356*) | Set the portrait height of the universal paper. |
| **Feed Direction**<br>Short Edge*<br>Long Edge | Set the printer to pick paper from the short edge or long edge direction.<br>**Note:** Long Edge appears only when the longest edge is shorter than the maximum width supported. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Media Types

| Menu item | Description |
|---|---|
| Plain Paper<br>Card Stock<br>Recycled<br>Glossy<br>Labels<br>Vinyl Labels<br>Bond<br>Envelope<br>Letterhead<br>Preprinted<br>Colored Paper<br>Light Paper<br>Heavy Paper<br>Rough/Cotton<br>Custom Type [X] | Specify the texture, weight, and orientation of the paper. |

# USB Drive

## Flash Drive Print

| Menu item | Description |
|---|---|
| **Number of Copies**<br>1–9999 (1*) | Set the number of copies. |
| **Paper Source**<br>Tray [x] (1*)<br>Multipurpose Feeder<br>Manual Paper<br>Manual Envelope | Set the paper source for the print job. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Color**<br>Off<br>On* | Print a flash drive file in color. |
| **Collate**<br>(1,1,1) (2,2,2)<br>(1,2,3) (1,2,3)* | Keep the pages of a print job stacked in sequence, particularly when printing multiple copies of the job. |
| **Sides**<br>1-Sided*<br>2-Sided | Specify whether to print on one side or both sides of the paper. |
| **Flip Style**<br>Long Edge*<br>Short Edge | Determine which side of the paper is bound when performing two-sided printing. |
| **Pages per Side**<br>Off*<br>2 pages per side<br>3 pages per side<br>4 pages per side<br>6 pages per side<br>9 pages per side<br>12 pages per side<br>16 pages per side | Print multiple page images on one side of a sheet of paper. |
| **Pages per Side Ordering**<br>Horizontal*<br>Reverse Horizontal<br>Reverse Vertical<br>Vertical | Specify the positioning of multiple page images when using Pages per Side menu. |
| **Pages per Side Orientation**<br>Auto*<br>Landscape<br>Portrait | Specify the orientation of multiple page images when using Pages per Side menu. |
| **Pages per Side Border**<br>None*<br>Solid | Print a border around each page image when using Pages per Side menu. |
| **Separator Sheets**<br>Off*<br>Between Copies<br>Between Jobs<br>Between Pages | Insert blank separator sheets when printing. |
| **Separator Sheet Source**<br>Tray [x] (1*)<br>Multipurpose Feeder | Specify the paper source for the separator sheet. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Blank Pages**<br>Do Not Print*<br>Print | Print blank pages in a print job. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# Network/Ports

## Network Overview

| Menu item | Description |
|---|---|
| **Active Adapter**<br>Auto*<br>Standard Network<br>Wireless | Specify the type of the network connection.<br>**Note:** Wireless is available only in printers connected to a wireless network. |
| **Network Status** | Show the connectivity status of the printer network. |
| **Display Network Status on Printer**<br>Off<br>On* | Show the network status on the display. |
| **Speed, Duplex** | Show the speed of the currently active network card. |
| **IPv4** | Show the IPv4 address. |
| **All IPv6 Addresses** | Show all IPv6 addresses. |
| **Reset Print Server** | Reset all active network connections to the printer.<br>**Note:** This setting removes all network configuration settings. |
| **Network Job Timeout**<br>Off<br>On* (90 seconds) | Set the time before the printer cancels a network print job. |
| **Banner Page**<br>Off*<br>On | Print a banner page. |
| **Enable Network Connections**<br>Off<br>On* | Enable the printer to connect to a network. |
| **Enable LLDP**<br>Off*<br>On | Enable Link Layer Discovery Protocol (LLDP) in the printer. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# Wireless

**Note:** This menu is available only in printers connected to a Wi-Fi network or printers that have a wireless network adapter.

| Menu item | Description |
|---|---|
| **Setup Using Mobile App** | Configure the Wi-Fi connection using Lexmark Mobile Assistant. |
| **Setup On Printer Panel**<br>    Choose Network<br>    Add Wi-Fi Network<br>        Network Name<br>        Network Mode<br>            Infrastructure<br>        Wireless Security Mode<br>            Disabled*<br>            WEP<br>            WPA2/WPA - Personal<br>            WPA2 - Personal | Configure the Wi-Fi connection using the control panel. |
| **Wi-Fi Protected Setup**<br>    WPS Auto Detect<br>        Off<br>        On*<br>    Start Push Button Method<br>    Start PIN Method | Establish a Wi-Fi network and enable network security.<br>**Notes:**<br>• WPS Auto Detect appears only when the Wireless Security Mode is set to WEP.<br>• Start Push-Button Method connects the printer to a Wi-Fi network when buttons on both the printer and the access point (wireless router) are pressed within a given time.<br>• Start PIN Method connects the printer to a Wi-Fi network when a PIN on the printer is entered into the wireless settings of the access point. |
| **Network Mode**<br>    BSS Type<br>        Infrastructure* | Specify the network mode. |
| **Compatibility**<br>    802.11b/g/n (2.4GHz)*<br>    802.11a/b/g/n/ac (2.4GHz/5GHz)<br>    802.11a/n/ac (5GHz) | Specify the standard for the Wi-Fi network.<br>**Note:** 802.11a/b/g/n/ac (2.4GHz/5GHz) and 802.11a/n/ac (5GHz) only appear when a Wi-Fi option is installed. |
| **Wireless Security Mode**<br>    Disabled*<br>    WEP<br>    WPA2/WPA-Personal<br>    WPA2-Personal<br>    802.1x - RADIUS | Set the security mode for connecting the printer to Wi-Fi devices. |
| **WEP Authentication Mode**<br>    Auto*<br>    Open<br>    Shared | Set the type of Wireless Encryption Protocol (WEP) for the printer.<br>**Note:** This menu item appears only when the Wireless Security Mode is set to WEP. |

| Menu item | Description |
|---|---|
| **Set WEP Key** | Specify a WEP password for secure Wi-Fi connection. |
| **WPA2/WPA Personal**<br>    AES | Enable Wi-Fi security through Wi-Fi Protected Access (WPA).<br>**Note:** This menu item appears only when the Wireless Security Mode is set to WPA2/WPA-Personal. |
| **Set Pre-Shared Key** | Set the password for secure Wi-Fi connection. |
| **WPA2-Personal**<br>    AES | Enable Wi-Fi security through WPA2.<br>**Note:** This menu item appears only when the Wireless Security Mode is set to WPA2-Personal. |
| **802.1x Encryption Mode**<br>    WPA+<br>    WPA2* | Enable Wi-Fi security through 802.1x standard.<br>**Note:** This menu item appears only when the Wireless Security Mode is set to 802.1x - RADIUS. |
| **IPv4**<br>    Enable DHCP<br>        On*<br>        Off<br>    Set Static IP Address<br>        IP Address<br>        Netmask<br>        Gateway | Enable and configure IPv4 settings in the printer. |
| **IPv6**<br>    Enable IPv6<br>        On*<br>        Off<br>    Enable DHCPv6<br>        On<br>        Off*<br>    Stateless Address Autoconfiguration<br>        On*<br>        Off<br>    DNS Server Address<br>    Manually Assigned IPv6 Address<br>    Manually Assigned IPv6 Router<br>    Address Prefix<br>    All IPv6 Addresses<br>    All IPv6 Router Addresses | Enable and configure IPv6 settings in the printer. |
| **Network Address**<br>    UAA<br>    LAA | View the network addresses. |
| **PCL SmartSwitch**<br>    Off<br>    On* | Set the printer to switch automatically to PCL emulation when a print job requires it, regardless of the default printer language.<br>**Note:** If PCL SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu. |

| Menu item | Description |
|---|---|
| **PS SmartSwitch**<br>Off<br>On* | Set the printer to switch automatically to PS emulation when a print job requires it, regardless of the default printer language.<br>**Note:** If PS SmartSwitch is off, then the printer does not examine incoming data and uses the default printer language specified in the Setup menu. |
| **Job Buffering**<br>On<br>Off* | Temporarily store print jobs in the hard disk or intelligent storage drive (ISD) before printing.<br>**Note:** This menu item appears only when a hard disk or an ISD is installed. |
| **Mac Binary PS**<br>Auto*<br>On<br>Off | Set the printer to process Macintosh binary PostScript print jobs.<br>**Notes:**<br>• On processes raw binary PostScript print jobs.<br>• Off filters print jobs using the standard protocol. |

# Wi‑Fi Direct

| Menu item | Description |
|---|---|
| **Enable Wi‑Fi Direct**<br>On<br>Off* | Set the printer to connect directly to Wi‑Fi devices. |
| **Wi‑Fi Direct Name** | Specify the name of the Wi‑Fi Direct network. |
| **Wi‑Fi Direct Password** | Set the password to authenticate and validate users on a Wi‑Fi connection. |
| **Show Password on Setup Page**<br>Off<br>On* | Show the Wi‑Fi Direct Password on the Network Setup Page. |
| **Preferred Channel Number**<br>1–11<br>Auto* | Set the preferred channel of the Wi‑Fi network. |
| **Group Owner IP Address** | Specify the IP address of the group owner. |
| **Auto‑Accept Push Button Requests**<br>Off*<br>On | Accept requests to connect to the network automatically.<br>**Note:** Accepting clients automatically is not secured. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# AirPrint

**Note:** This menu appears only in the Embedded Web Server.

| Menu item | Description |
|---|---|
| **All AirPrint Functions** | Show the AirPrint status of the printer. |
| **Enable AirPrint**<br>On*<br>Off | Enable the AirPrint feature.<br>**Note:** This menu item appears only if Internet Printing Protocol (IPP) or mDNS is disabled. |
| **Enable iBeacon**<br>On<br>Off* | Enable the iBeacon feature. |
| **Bonjour Name** | Identify printer designation and location. |
| **Organization Name** | |
| **Organizational Unit** | |
| **Printer Location** | |
| **Printer's Latitude** | |
| **Printer's Longitude** | |
| **Printer's Altitude** | |
| **More Options** | |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Mobile Services Management

| Menu item | Description |
|---|---|
| **Enable IPP Print**<br>On*<br>Off | Allow printing from mobile devices using Internet Printing Protocol (IPP). |
| **Enable IPP Over USB**<br>On*<br>Off | Allow print or scan jobs using USB connection. |
| **Enable Mopria Print Discovery**<br>On*<br>Off | Allow Mopria-enabled devices to discover the printer. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Ethernet

| Menu item | Description |
|---|---|
| **Network Speed** | Show the speed of the active network adapter. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **IPv4**<br>Enable DHCP (On*)<br>Set Static IP Address | Configure the IPv4 settings. |
| **IPv6**<br>Enable IPv6 (On*)<br>Enable DHCPv6 (Off*)<br>Stateless Address Autoconfiguration (On*)<br>DNS Server Address<br>Manually Assigned IPv6 Address<br>Manually Assigned IPv6 Router<br>Address Prefix (64*)<br>All IPv6 Addresses<br>All IPv6 Router Addresses | Configure the IPv6 settings. |
| **Network Address**<br>UAA<br>LAA | Specify the network address. |
| **PCL SmartSwitch**<br>Off<br>On* | Set the printer to switch automatically to PCL emulation when a print job requires it, regardless of the default printer language.<br>**Note:** When this setting is disabled, the printer does not examine incoming data and uses the default printer language specified in the Setup menu. |
| **PS SmartSwitch**<br>Off<br>On* | Set the printer to switch automatically to PostScript emulation when a print job requires it, regardless of the default printer language.<br>**Note:** When this setting is disabled, the printer does not examine incoming data and uses the default printer language specified in the Setup menu. |
| **Job Buffering**<br>Off*<br>On | Temporarily store print jobs in the hard disk or intelligent storage drive (ISD) before printing.<br>**Note:** This menu item appears only when a hard disk or an ISD is installed. |
| **Mac Binary PS**<br>Auto*<br>On<br>Off | Set the printer to process Macintosh binary PostScript print jobs.<br>**Notes:**<br>• Auto processes print jobs from computers using either Windows or Macintosh operating systems.<br>• Off filters PostScript print jobs using the standard protocol. |
| **Energy Efficient Ethernet**<br>On<br>Off<br>Auto* | Reduce power consumption when the printer does not receive data from the Ethernet network. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# TCP/IP

**Note:** This menu appears only in network printers or printers attached to print servers.

| Menu item | Description |
|---|---|
| **Set Hostname** | Set the current TCP/IP host name. |
| **Domain Name** | Set the domain name. |
| **Allow DHCP/BOOTP to update NTP server**<br>On*<br>Off | Allow the DHCP and BOOTP clients to update the NTP settings of the printer. |
| **Zero Configuration Name** | Specify a service name for the zero configuration network. |
| **Enable Auto IP**<br>Off<br>On* | Assign an IP address automatically. |
| **DNS Server Address** | Specify the current Domain Name System (DNS) server address. |
| **Backup DNS Address** | Specify the backup DNS server addresses. |
| **Backup DNS Address 2** | |
| **Backup DNS Address 3** | |
| **Domain Search Order** | Specify a list of domain names to locate the printer and its resources that reside in different domains on the network. |
| **Enable DDNS**<br>Off*<br>On | Update the Dynamic DNS settings. |
| **DDNS TTL** | Specify the current DDNS settings. |
| **Default TTL** | |
| **DDNS Refresh Time** | |
| **Enable mDNS**<br>Off<br>On* | Update the multicast DNS settings. |
| **WINS Server Address** | Specify a server address for Windows Internet Name Service (WINS). |
| **Enable BOOTP**<br>Off*<br>On | Allow the BOOTP to assign a printer IP address. |
| **Restricted Server List** | Specify the IP addresses that are allowed to communicate with the printer over TCP/IP.<br><br>**Notes:**<br><br>• Use a comma to separate each IP address.<br>• You can add up to 50 IP addresses. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Restricted Server List Options**<br>    Block All Ports*<br>    Block Printing Only<br>    Block Printing and HTTP Only | Specify the access option for IP addresses that are not in the list. |
| **MTU**<br>    256–1500 Ethernet (1500*) | Specify a maximum transmission unit (MTU) parameter for the TCP connections. |
| **Raw Print Port**<br>    1–65535 (9100*) | Specify a raw port number for printers connected on a network. |
| **Outbound Traffic Maximum Speed**<br>    Off*<br>    On | Set the maximum transfer rate of the printer.<br><br>**Note:** When enabled, the option for this setting is 100–1000000 Kilobits/second. |
| **TLS Support**<br>    Enable TLSv1.0 (Off)<br>    Enable TLSv1.1 (Off*)<br>    Enable TLSv1.2 (On*) | Enable the Transport Layer Security protocol. |
| **SSL Cipher List** | Specify the cipher algorithms to use for the SSL or the TLS connections. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## SNMP

**Note:** This menu appears only in network printers or printers that are attached to print servers.

| Menu item | Description |
|---|---|
| **SNMP Versions 1 and 2c**<br>    Enabled<br>        Off<br>        On*<br>    Allow SNMP Set<br>        Off<br>        On*<br>    Enable PPM MIB<br>        Off<br>        On*<br>    SNMP Community | Configure Simple Network Management Protocol (SNMP) versions 1 and 2c to install print drivers and applications. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **SNMP Version 3**<br>  Enabled<br>      Off<br>      On*<br>  Context Name<br>  Set Read/Write Credentials<br>    User Name<br>    Authentication Password<br>    Privacy Password<br>  Set Read-only Credentials<br>    User Name<br>    Authentication Password<br>    Privacy Password<br>  Authentication Hash<br>    MD5<br>    SHA1*<br>  Minimum Authentication Level<br>    No Authentication, No Privacy<br>    Authentication, No Privacy<br>    Authentication, Privacy*<br>  Privacy Algorithm<br>    DES<br>    AES-128* | Configure SNMP version 3 to install and update the printer security. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

## IPSec

**Note:** This menu appears only in network printers or printers that are attached to print servers.

| Menu item | Description |
|---|---|
| **Enable IPSec**<br>  Off*<br>  On | Enable Internet Protocol Security (IPSec). |
| **Base Configuration**<br>  Default*<br>  Compatibility<br>  Secure | Set the IPSec base configuration.<br>**Note:** This menu item appears only when Enable IPSec is set to On. |
| **DH (Diffie-Hellman) Group Proposal**<br>  modp2048 (14)*<br>  modp3072 (15)<br>  modp4096 (16)<br>  modp6144 (17) | Set the IPSec base configuration.<br>**Note:** This menu item appears only when Base Configuration is set to Compatibility. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Proposed Encryption Method**<br>3DES<br>AES* | Set the encryption method.<br>**Note:** This menu item appears only when Base Configuration is set to Compatibility. |
| **Proposed Authentication Method**<br>SHA1<br>SHA256*<br>SHA512 | Set the authentication method.<br>**Note:** This menu item appears only when Base Configuration is set to Compatibility. |
| **IKE SA Lifetime (Hours)**<br>1<br>2<br>4<br>8<br>24* | Specify the IKE SA expiry period.<br>**Note:** This menu item appears only when Base Configuration is set to Secure. |
| **IPSec SA Lifetime (Hours)**<br>1<br>2<br>4<br>8*<br>24 | Specify the IPSec SA expiry period.<br>**Note:** This menu item appears only when Base Configuration is set to Secure. |
| **IPSec Device Certificate** | Specify an IPSec certificate.<br>**Note:** This menu item appears only when Enable IPSec is set to On. |
| **Pre-Shared Key Authenticated Connections**<br>Host [x] | Configure the authenticated connections of the printer.<br>**Note:** These menu items appear only when Enable IPSec is set to On. |
| **Certificate Authenticated Connections**<br>Host [x] Address[/subnet] | |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## 802.1x

**Note:** This menu appears only in network printers or printers that are attached to print servers.

| Menu item | Description |
|---|---|
| **Active**<br>Off*<br>On | Let the printer join networks that require authentication before allowing access. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **802.1x Authentication**<br>   Device Login Name<br>   Device Login Password<br>   Validate Serve Certificate (On*)<br>   Enable Event Logging (Off*)<br>   802.1x Device Certificate | Configure the settings for authenticating the 802.1x connection. |
| **Allowable Authentication Mechanisms**<br>   EAP - MD5 (On*)<br>   EAP - MSCHAPv2 (On*)<br>   LEAP (On*)<br>   PEAP (On*)<br>   EAP - TLS (On*)<br>   EAP - TTLS (On*)<br>   TTLS Authentication Method<br>   (MSCHAPv2*) | Configure the allowed authentication mechanisms for the 802.1x connection. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## LPD Configuration

**Note:** This menu appears only in network printers or printers that are attached to print servers.

| Menu item | Description |
|---|---|
| **LPD Timeout**<br>   0–65535 seconds (90*) | Set the time-out value to stop the Line Printer Daemon (LPD) server from waiting indefinitely for hung or invalid print jobs. |
| **LPD Banner Page**<br>   Off*<br>   On | Print a banner page for all LPD print jobs.<br>**Note:** A banner page is the first page of a print job used as a separator of print jobs and to identify the originator of the print job request. |
| **LPD Trailer Page**<br>   Off*<br>   On | Print a trailer page for all LPD print jobs.<br>**Note:** A trailer page is the last page of a print job. |
| **LPD Carriage Return Conversion**<br>   Off*<br>   On | Enable carriage return conversion.<br>**Note:** Carriage return is a mechanism that commands the printer to move the position of the cursor to the first position on the same line. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## HTTP/FTP Settings

| Menu item | Description |
|---|---|
| **Proxy**<br>HTPP Proxy IP Address<br>HTTP Default IP Port<br>FTP Proxy IP Address<br>FTP Default IP Port<br>Authentication<br>User Name<br>Password<br>Local Domains | Configure the HTTP and FTP server settings. |
| **Other Settings**<br>Enable HTTP Server (On*) | Access the Embedded Web Server to monitor and manage the printer. |
| **Other Settings**<br>Enable HTPPS (On*) | Enable Hypertext Transfer Protocol Secure (HTTPS) to encrypt data transferring to and from the print server. |
| **Other Settings**<br>Force HTTPS Connections (Off*) | Force the printer to use HTTPS connections. |
| **Other Settings**<br>Enable FTP/TFTP (On*) | Send files using FTP/TFTP. |
| **Other Settings**<br>HTTPS Device Certificate (default*) | View the HTTP device certificate used on the printer. |
| **Other Settings**<br>Timeout for HTTP/FTP Requests (30*) | Specify the amount of time before the server connection stops. |
| **Other Settings**<br>Retries for HTTP/FTP Requests (3*) | Set the number of retries to connect to the HTTP/FTP server. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

## ThinPrint

| Menu item | Description |
|---|---|
| **Enable ThinPrint**<br>Off*<br>On | Print using ThinPrint. |
| **Port Number**<br>4000–4999 (4000*) | Set the port number for the ThinPrint server. |
| **Bandwidth (bits/sec)**<br>100–1000000 (0*) | Set the speed to transmit data in a ThinPrint environment. |
| **Packet Size (kbytes)**<br>0–64000 (0*) | Set the packet size for data transmission. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

# USB

| Menu item | Description |
|---|---|
| **PCL SmartSwitch**<br>Off<br>On* | Set the printer to switch to PCL emulation when a print job received through a USB port requires it, regardless of the default printer language.<br>**Note:** When this setting is disabled, the printer does not examine incoming data and uses the default printer language specified in the Setup menu. |
| **PS SmartSwitch**<br>Off<br>On* | Set the printer to switch to PostScript emulation when a print job received through a USB port requires it, regardless of the default printer language.<br>**Note:** When this setting is disabled, the printer does not examine incoming data and uses the default printer language specified in the Setup menu. |
| **Job Buffering**<br>Off*<br>On | Temporarily store print jobs in the hard disk or intelligent storage drive (ISD) before printing.<br>**Note:** This menu item appears only when a hard disk or an ISD is installed. |
| **Mac Binary PS**<br>Auto*<br>On<br>Off | Set the printer to process Macintosh binary PostScript print jobs.<br>**Notes:**<br>• Auto processes print jobs from computers using either Windows or Macintosh operating systems.<br>• Off filters PostScript print jobs using the standard protocol. |
| **Enable USB Port**<br>Off<br>On* | Enable the front USB drive port. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

# Restrict external network access

| Menu item | Description |
|---|---|
| **Restrict external network access**<br>Off*<br>On | Restrict access to network sites. |
| **External network address** | Specify the network addresses with restricted access. |
| **E-mail address for notification** | Specify an e-mail address to send a notification of logged events. |
| **Ping frequency**<br>1–300 (10*) | Specify the network query interval in seconds. |
| **Subject** | Specify the subject and message of the notification e-mail. |
| **Message** | |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

# Cloud Services

## Cloud Connector

**Note:** This menu item is available only in some printer models.

| Menu item | Description |
|---|---|
| **Enable/Disable**<br>Box<br>    Off<br>    On* | Enable the Box cloud provider. |
| **Enable/Disable**<br>Dropbox<br>    Off<br>    On* | Enable the DropBox cloud provider. |
| **Enable/Disable**<br>Google Drive<br>    Off<br>    On* | Enable the Google Drive cloud provider. |
| **Enable/Disable**<br>OneDrive<br>    Off<br>    On* | Enable the OneDrive cloud provider. |

## Cloud Print Release

**Note:** This menu is available only in some printer models.

| Menu item | Description |
|---|---|
| **Server Address** | Specify the address of the cloud server. |
| **Client ID** | Specify the organization-specific client ID. |
| **Client Secret** | Specify the organization-specific client secret. |

## Cloud Services Enrollment

| Menu item | Description |
|---|---|
| **View More Information** | View additional information on the usage of Lexmark Cloud Services. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Enable communication with Lexmark Cloud Services**<br>    Off*<br>    On | Enable the printer to communicate with Lexmark Cloud Services. |
| **View Current Status** | View the connection status between the printer and Lexmark Cloud Services. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# Security

## Login Methods

### Manage Permissions

| Menu item | Description |
|---|---|
| **Function Access**<br>    Modify Address Book<br>    Manage Shortcuts<br>    Create Profiles<br>    Manage Bookmarks<br>    Flash Drive Print<br>    Flash Drive Color Printing<br>    Held Jobs Access<br>    Use Profiles<br>    Cancel Jobs at the Device<br>    Change Language<br>    Internet Printing Protocol (IPP)<br>    B/W Print<br>    Color Print | Control access to the printer functions. |
| **Administrative Menus**<br>    Security Menu<br>    Network/Ports Menu<br>    Paper Menu<br>    Reports Menu<br>    Function Configuration Menus<br>    Supplies Menu<br>    Option Card Menu<br>    SE Menu<br>    Device Menu | Control access to the printer menus. |

| Menu item | Description |
|---|---|
| **Device Management**<br>Remote Management<br>Firmware Updates<br>Apps Configuration<br>Embedded Web Server Access<br>Import / Export All Settings<br>Out of Service Erase<br>Cloud Services Enrollment | Control access to the printer management options. |
| **Apps**<br>New Apps<br>Slideshow<br>Change Wallpaper<br>Screen Saver | Control access to the printer applications. |

## Local Accounts

| Menu item | Description |
|---|---|
| **Manage Groups/Permissions** | Show a list of all saved groups in the printer. |
| **Add User**<br>User Name/Password<br>User Name<br>Password<br>PIN | Create local accounts and specify their access to the printer functions, administrative menus, printer management options, and applications. |

## Schedule USB Devices

| Menu item | Description |
|---|---|
| **Schedules**<br>Add New Schedule | Schedule access to the front USB port. |

## Security Audit Log

| Menu item | Description |
|---|---|
| **Enable Audit**<br>Off*<br>On | Record the events in the secure audit log and remote syslog. |
| **Enable Remote Syslog**<br>Off*<br>On | Send audit logs to a remote server. |
| **Remote Syslog Server** | Specify the remote syslog server. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Remote Syslog Port**<br>1–65535 (514*) | Specify the remote syslog port. |
| **Remote Syslog Method**<br>Normal UDP*<br>Stunnel | Specify a syslog method to transmit logged events to a remote server. |
| **Remote Syslog Facility**<br>0 - Kernel Messages<br>1 - User-Level Messages<br>2 - Mail System<br>3 - System Daemons<br>4 - Security/Authorization Messages*<br>5 - Messages Generated Internally by Syslogs<br>6 - Line Printer Subsystem<br>7 - Network News Subsystem<br>8 - UUCP Subsystem<br>9 - Clock Daemon<br>10 - Security/Authorization Messages<br>11 - FTP Daemon<br>12 - NTP Subsystem<br>13 - Log Audit<br>14 - Log Alert<br>15 - Clock Daemon<br>16 - Local Use 0 (local0)<br>17- Local Use 1 (local1)<br>18 - Local Use 2 (local2)<br>19 - Local Use 3 (local3)<br>20 - Local Use 4 (local4)<br>21 - Local Use 5 (local5)<br>22 - Local Use 6 (local6)<br>23 - Local Use 7 (local7) | Specify a facility code that the printer uses when sending log events to a remote server. |
| **Severity of Events to Log**<br>0 - Emergency<br>1 - Alert<br>2 - Critical<br>3 - Error<br>4 - Warning*<br>5 - Notice<br>6 - Informational<br>7 - Debug | Specify the priority level cutoff for logging messages and events. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Remote Syslog Non-Logged Events**<br>Off*<br>On | Send all events, regardless of severity level, to the remote server. |
| **Admin's E-mail Address** | Send e-mail notification of logged events to the administrator. |
| **E-mail Log Cleared Alert**<br>Off*<br>On | Send e-mail notification to the administrator when a log entry is deleted. |
| **E-mail Log Wrapped Alert**<br>Off*<br>On | Send e-mail notification to the administrator when the log becomes full and begins to overwrite the oldest entries. |
| **Log Full Behavior**<br>Wrap Over Oldest Entries*<br>E-mail Log Then Delete All Entries | Resolve log storage issues when the log fills its allotted memory. |
| **E-mail % Full Alert**<br>Off*<br>On | Send e-mail notification to the administrator when the log fills its allotted memory. |
| **% Full Alert Level**<br>1–99 (90*) | |
| **E-mail Log Exported Alert**<br>Off*<br>On | Send e-mail notification to the administrator when a log is exported. |
| **E-mail Log Settings Changed Alert**<br>Off*<br>On | Send e-mail notification to the administrator when Enable Audit is set. |
| **Log Line Endings**<br>LF (\n)*<br>CR (\r)<br>CRLF (\r\n) | Specify how the log file terminates the end of each line. |
| **Digitally Sign Exports**<br>Off*<br>On | Add a digital signature to each exported log file. |
| **Clear Log** | Delete all audit logs. |
| **Export Log**<br>Syslog (RFC 5424)<br>Syslog (RFC 3164)<br>CSV | Export a security log to a flash drive. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Certificate Management

| Menu item | Menu item |
|---|---|
| **Configure Certificate Defaults**<br>Common Name<br>Organization Name<br>Unit Name<br>Country/Region<br>Province Name<br>City Name<br>Subject Alternate Name | Set the default values for generated certificates. |
| Device Certificates | Generate, delete, or view device certificates. |
| Manage CA Certificates | Load, delete, or view Certificate Authority (CA) certificates. |

## Login Restrictions

| Menu item | Description |
|---|---|
| **Login failures**<br>1–10 (3*) | Specify the number of failed login attempts before the user gets locked out. |
| **Failure time frame**<br>1–60 minutes (5*) | Specify the time frame between failed login attempts before the user gets locked out. |
| **Lockout time**<br>1–60 minutes (5*) | Specify the lockout duration. |
| **Web Login Timeout**<br>1–120 minutes (10*) | Specify the delay for a remote login before the user is logged off automatically. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

## Confidential Print Setup

| Menu item | Description |
|---|---|
| **Max Invalid PIN**<br>2–10 | Set the limit for entering an invalid PIN.<br>**Note:** When the limit is reached, the print jobs for that user name are deleted. |
| **Confidential Job Expiration**<br>Off*<br>1 Hour<br>4 Hours<br>24 Hours<br>1 Week | Set an individual expiration time for each held job before it is automatically deleted from the hard disk or intelligent storage drive.<br>**Note:** A held job is either Confidential, Repeat, Reserve, or Verify. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Repeat Job Expiration**<br>Off*<br>1 Hour<br>4 Hours<br>24 Hours<br>1 Week | Set the expiration time for a print job that you want to repeat. |
| **Verify Job Expiration**<br>Off*<br>1 Hour<br>4 Hours<br>24 Hours<br>1 Week | Set the expiration time for printing a copy of a job for you to check its quality before printing the remaining copies. |
| **Reserve Job Expiration**<br>Off*<br>1 Hour<br>4 Hours<br>24 Hours<br>1 Week | Set the expiration time for jobs that you want to store in the printer for printing later. |
| **Require All Jobs to be Held**<br>Off*<br>On | Set the printer to hold all print jobs. |
| **Keep duplicate documents**<br>Off*<br>On | Set the printer to keep all documents with the same file name. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

## Disk Encryption

**Note:** This menu appears only when a hard disk or an intelligent storage drive is installed.

| Menu item | Description |
|---|---|
| **Status**<br>Enabled | Encryption happens automatically when a storage drive is installed. |

## Erase Temporary Data Files

| Menu item | Description |
|---|---|
| **Stored in onboard memory**<br>Off*<br>On | Delete all files stored on the printer memory. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

| Menu item | Description |
|---|---|
| **Stored on hard disk**<br>1 Pass Erase*<br>3 Pass Erase<br>7 Pass Erase | Delete all files stored on the printer hard disk.<br>**Note:** This menu item appears only when a printer hard disk is installed. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

## Solutions LDAP Settings

| Menu item | Description |
|---|---|
| **Follow LDAP Referrals**<br>Off*<br>On | Search the different servers in the domain for the logged-in user account. |
| **LDAP Certificate Verification**<br>Yes<br>No* | Enable verification of LDAP certificates. |

## Miscellaneous

| Menu item | Description |
|---|---|
| **Protected Features**<br>Show*<br>Hide | Show all the features that Function Access Control (FAC) protects regardless of the security permission that the user has.<br>**Note:** Hide displays only FAC-protected features that the user has access. |
| **Print Permission**<br>Off*<br>On | Let the user log in before printing. |
| **Default Print Permission Login**<br>User Name/Password*<br>User Name | Set the default login for Print Permission. |

| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

# Reports

## Menu Settings Page

| Menu item | Description |
|---|---|
| **Menu Settings Page** | Print a report that contains the printer menus. |

Device

## Device

| Menu item | Description |
|---|---|
| **Device Information** | Print a report that contains information about the printer. |
| **Device Statistics** | Print a report about printer usage and supply status. |
| **Profiles List** | Print a list of profiles that are stored in the printer. |
| **Asset Report** | Print a diagnostic tool for print problems.<br>**Note:** To avoid clipping the content, print the report on letter- or A4-size paper. |

## Print

| Menu item | Description |
|---|---|
| **Print Fonts**<br>PCL Fonts<br>PS Fonts | Print samples and information about the fonts that are available in each printer language. |
| **Print Demo**<br>Demo Page | Print a page that shows the printer capabilities and supported solutions. |
| **Print Directory** | Print the resources that are stored in the flash drive, hard disk, or intelligent storage drive (ISD).<br>**Note:** This menu item appears only when a flash drive, a hard disk, or an ISD is installed. |

## Network

| Menu item | Description |
|-----------|-------------|
| **Network Setup Page** | Print a page that shows the configured network and wireless settings on the printer.<br>**Note:** This menu item appears only in network printers or printers connected to print servers. |
| **Wi‑Fi Direct Connected Clients** | Print a page that shows the list of devices that are connected to the printer using Wi‑Fi Direct.<br>**Note:** This menu item appears only when Enable Wi‑Fi Direct is set to On. |

# Troubleshooting

| Menu item | Description |
|-----------|-------------|
| **Print Quality Test Pages** | Print sample pages to identify and correct print quality defects. |

# Forms Merge

**Note:** This menu appears only when a hard disk or an intelligent storage drive is installed.

| Menu item | Description |
|-----------|-------------|
| **Merge Mode**<br>Print*<br>Data Capture<br>Disabled | Specify the mode of operation for Forms Merge. |
| **Data Capture Target**<br>Flash* | Set the target destination where the captured data is forwarded.<br>**Note:** This menu item appears only when Merge Mode is set to Data Capture. |
| **Print Port and Filter Settings**<br>Network Port<br>　On*<br>　Off | Enable Forms Merge to process all data that are sent to the network port. |
| **Print Port and Filter Settings**<br>Network Filter<br>　Disabled*<br>　NULL<br>　OFIS<br>　OFIS+NULL<br>　OFIS+AS400<br>　AS400<br>　PCL<br>　ZPL<br>　ZPLF | Specify the network filter for all data sent to the printer. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. | |

| Menu item | Description |
|---|---|
| **Print Port and Filter Settings**<br>    USB Port<br>        On*<br>        Off | Enable Forms Merge to process all data that are sent to the USB port. |
| **Print Port and Filter Settings**<br>    USB Filter<br>        Disabled*<br>        NULL<br>        OFIS<br>        OFIS+NULL<br>        OFIS+AS400<br>        AS400<br>        PCL<br>        ZPL<br>        ZPLF | Specify the USB filter for all data sent to the printer. |
| **Print Port and Filter Settings**<br>    Local Port Timeout<br>    1–100 (10*) | Specify the time-out value for Forms Merge jobs that are sent to the local port. |
| **Miscellaneous**<br>    Print All Forms | Print all form sets stored in the intelligent storage drive or hard disk of the printer. |
| **Miscellaneous**<br>    Error Page Print<br>        On*<br>        Off | Enable printing of an error page when an error is encountered in a Forms Merge job. |
| **Note:** An asterisk (*) next to a value indicates the factory default setting. ||

# Printing the Menu Settings Page

From the home screen, touch **Settings** > **Reports** > **Menu Settings Page**.

# Maintain the printer

## Checking the status of parts and supplies

1 From the home screen, touch **Status/Supplies**.

2 Select the parts or supplies that you want to check.

**Note:** You can also access this setting by touching the top section of the home screen.

## Configuring supply notifications

1 Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

2 Click **Settings** > **Device** > **Notifications**.

3 From the Supplies menu, click **Custom Supply Notifications**.

4 Select a notification for each supply item.

5 Apply the changes.

## Setting up e‑mail alerts

Configure the printer to send e‑mail alerts when supplies are low, when paper must be changed or added, or when there is a paper jam.

1 Open a web browser, and then type the printer IP address in the address field.

**Notes:**

- View the printer IP address on the printer home screen. The IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.
- If you are using a proxy server, then temporarily disable it to load the web page correctly.

2 Click **Settings** > **Device** > **Notifications** > **E-mail Alert Setup**, and then configure the settings.

**Note:** For more information on SMTP settings, contact your e‑mail provider.

3 Apply the changes.

4 Click **Setup E-mail Lists and Alerts**, and then configure the settings.

5 Apply the changes.

# Viewing reports

**1** From the home screen, touch **Settings** > **Reports**.

**2** Select the report that you want to view.

# Ordering parts and supplies

To order supplies in the U.S., contact Lexmark at 1-800-539-6275 for information about Lexmark authorized supplies dealers in your area. In other countries or regions, go to **www.lexmark.com** or contact the place where you purchased the printer.

**Note:** All life estimates for printer supplies assume printing on letter- or A4-size plain paper.

**Warning—Potential Damage:** Failure to maintain optimum printer performance, or to replace parts and supplies, may cause damage to your printer.

## Using genuine Lexmark parts and supplies

Your Lexmark printer is designed to function best with genuine Lexmark parts and supplies. Use of third-party supplies or parts may affect the performance, reliability, or life of the printer and its imaging components. It can also affect warranty coverage. Damage caused by the use of third-party parts and supplies is not covered by the warranty. All life indicators are designed to function with Lexmark parts and supplies, and may deliver unpredictable results if third-party parts and supplies are used. Imaging component usage beyond the intended life may damage your Lexmark printer or its associated components.

**Warning—Potential Damage:** Supplies and parts without Return Program agreement terms may be reset and remanufactured. However, the manufacturer's warranty does not cover any damage caused by non-genuine supplies or parts. Resetting counters on the supply or part without proper remanufacturing can cause damage to your printer. After resetting the supply or part counter, your printer may display an error indicating the presence of the reset item.

## Ordering a toner cartridge

**Notes:**

- The estimated cartridge yield is based on the ISO/IEC 19798 standard.
- Extremely low print coverage for extended periods of time may negatively affect actual yield.

### Lexmark CS531 and CS632 Return Program toner cartridges

| Item | North America, Australia, and New Zealand | European Economic Area, Iceland, Liechtenstein, and Norway | Rest of Asia Pacific | Latin America | Rest of Europe, Middle East, and Africa |

## Ordering a maintenance kit

Match the maintenance kit to the printer voltage.

**Notes:**

- Using certain types of paper may require more frequent replacement of the maintenance kit.
- The maintenance kit includes a fuser and pick tires. These parts may be individually ordered and replaced if necessary.

| Item | Part number |
| --- | --- |
| 100 V fuser maintenance kit | 41X4999 |
| 110 V fuser maintenance kit | 41X5000 |
| 220 V fuser maintenance kit | 41X5001 |
| **Note:** Only an authorized service technician can replace the maintenance kit. Contact your service provider. | |

# Replacing parts and supplies

## Replacing a toner cartridge

**1** Open door B.
**2** Remove the used toner cartridge.
**3** Unpack the new toner cartridge.

**4** Insert the new toner cartridge until it *clicks* into place.
**5** Close the door.

## Replacing an imaging kit

**1** Open door B.
**2** Open door A.

⚠️ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.
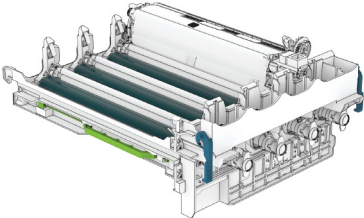

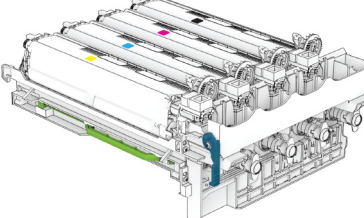

**3** Remove the right cover.
**4** Remove the waste toner bottle.

**5** Remove the toner cartridges.
**6** Remove the used imaging kit.

**7** Unpack the new imaging kit.

| Black imaging kit | Black and color imaging kit |
|---|---|
|  |  |

**Notes:**

- The black imaging kit includes the imaging kit and the black developer unit.
- The black and color imaging kit includes the imaging kit and the black, cyan, magenta, and yellow developer units.
- When replacing the black imaging kit, save the cyan, magenta, and yellow developer units from the used imaging kit.

**8** Remove the packing material.

**Note:** If you are replacing the black imaging kit, then insert the magenta, cyan, and yellow developer units into the new imaging kit.

**Warning—Potential Damage:** Do not expose the imaging kit to direct light. Extended exposure to light may cause print quality problems.

**Warning—Potential Damage:** Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.
**9** Insert the new imaging kit until it is fully seated.
**10** Insert the toner cartridges until they *click* into place.
**11** Insert the waste toner bottle until it *clicks* into place.
**12** Attach the right cover until it *clicks* into place.
**13** Close door A, and then close door B.

## Replacing the waste toner bottle

**1** Open door B.
**2** Open door A.

> ⚠️ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.
**3** Remove the right cover.

**4** Remove the used waste toner bottle.

**Note:** To avoid spilling the toner, place the bottle in an upright position.

**5** Unpack the new waste toner bottle.

**6** Insert the new waste toner bottle until it *clicks* into place.
**7** Attach the right cover until it *clicks* into place.
**8** Close door A, and then close door B.

# Replacing a developer unit

**1** Open door B.
**2** Open door A.

> ⚠️ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.
**3** Remove the right cover.

**4** Remove the waste toner bottle.
**5** Remove the toner cartridges.
**6** Remove the imaging kit.

**7** Remove the used developer unit.

**Warning—Potential Damage:** Do not expose the imaging kit to direct light. Extended exposure to light may cause print quality problems.

**Warning—Potential Damage:** Do not touch the photoconductor drum. Doing so may affect the quality of future print jobs.
**8** Remove the packing material.

**9** Insert the new developer unit.
**10** Insert the imaging kit until it is fully seated.
**11** Insert the toner cartridges until they *click* into place.
**12** Insert the waste toner bottle until it *clicks* into place.
**13** Attach the right cover until it *clicks* into place.
**14** Close door A, and then close door B.

## Replacing the pick tires

**1** Turn off the printer.

**2** Unplug the power cord from the electrical outlet, and then from the printer.

**3** Remove the tray.
**4** Remove the used pick tires.
**5** Unpack the new pick tires.

**6** Insert the new pick tires.

**Note:** Make sure that the edges of the pick tire treads are facing downward.

**7** Insert the tray.

**8** Connect the power cord to the printer, and then to the electrical outlet.

⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**9** Turn on the printer.

# Replacing the right cover

**1** Open door B.
**2** Open door A.

> ⚠ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.
**3** Remove the used right cover.
**4** Remove door B from the used right cover.
**5** Unpack the new right cover.

**6** Attach door B to the new right cover.
**7** Attach the new right cover until it *clicks* into place.
**8** Close door A, and then close door B.

## Replacing MarkNet N8450 Wireless Print Server

⚠️ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock, if you are accessing the controller board or installing optional hardware or memory devices sometime after setting up the printer, then turn the printer off, and unplug the power cord from the electrical outlet before continuing. If you have any other devices attached to the printer, then turn them off as well, and unplug any cables going into the printer.

**1** Turn off the printer.

**2** Unplug the power cord from the electrical outlet, and then from the printer.

**3** Using a flat-head screwdriver, remove the controller board shield.

**Warning—Potential Damage:** Controller board electronic components are easily damaged by static electricity. Touch a metal surface on the printer before touching any controller board components or connectors.

**4** Open door B.
**5** Remove the used wireless print server.
**6** Unpack the new wireless print server.

**7** Insert the new wireless print server until it *clicks* into place.
**8** Close door B.

**9** Attach the controller board shield, and then install the screws.

**10** Connect the power cord to the printer, and then to the electrical outlet.

⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

**11** Turn on the printer.

## Resetting the supply usage counters

**1** From the home screen, touch **Settings** > **Device** > **Maintenance** > **Configuration Menu** > **Supply Usage And Counters**.

**2** Select the counter that you want to reset.

**Warning—Potential Damage:** Supplies and parts without Return Program agreement terms may be reset and remanufactured. However, the manufacturer's warranty does not cover any damage caused by non-genuine supplies or parts. Resetting counters on the supply or part without proper remanufacturing can cause damage to your printer. After resetting the supply or part counter, your printer may display an error indicating the presence of the reset item.

# Cleaning printer parts

## Cleaning the printer

⚠ **CAUTION—SHOCK HAZARD:** To avoid the risk of electrical shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

**Notes:**

- Perform this task after every few months.
- Damage to the printer caused by improper handling is not covered by the printer warranty.

**1** Turn off the printer, and then unplug the power cord from the electrical outlet.

**2** Remove paper from the standard bin and multipurpose feeder.

**3** Remove any dust, lint, and pieces of paper around the printer using a soft brush or vacuum.

**4** Wipe the outside of the printer with a damp, soft, lint-free cloth.

   **Notes:**

   - Do not use household cleaners or detergents, as they may damage the finish of the printer.
   - Make sure that all areas of the printer are dry after cleaning.

**5** Connect the power cord to the electrical outlet, and then turn on the printer.

   ⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

## Cleaning the touch screen

⚠ **CAUTION—SHOCK HAZARD:** To avoid the risk of electric shock when cleaning the exterior of the printer, unplug the power cord from the electrical outlet and disconnect all cables from the printer before proceeding.

**1** Turn off the printer, and then unplug the power cord from the electrical outlet.

**2** Using a damp, soft, lint-free cloth, wipe the touch screen.

   **Notes:**

   - Do not use household cleaners or detergents, as they may damage the touch screen.
   - Make sure that the touch screen is dry after cleaning.

**3** Connect the power cord to the electrical outlet, and then turn on the printer.

   ⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.

# Saving energy and paper

## Configuring the power save mode settings

**Sleep mode**

**1** From the home screen, touch **Settings** > **Device** > **Power Management** > **Timeouts** > **Sleep Mode**.

**2** Specify the amount of time that the printer stays idle before it enters Sleep Mode.

**Hibernate mode**

**1** From the home screen, touch **Settings** > **Device** > **Power Management** > **Timeouts** > **Hibernate Timeout**.

**2** Select the amount of time that the printer stays idle before it enters Hibernate mode.

**Notes:**

- For Hibernate Timeout to work, set Hibernate Timeout on Connection to Hibernate.
- The Embedded Web Server is disabled when the printer is in Hibernate mode.

## Adjusting the brightness of the display

**1** From the home screen, touch **Settings** > **Device** > **Preferences**.

**2** In the Screen Brightness menu, adjust the setting.

## Conserving supplies

- Print on both sides of the paper.

  **Note:** Two-sided printing is the default setting in the print driver.
- Print multiple pages on a single sheet of paper.
- Use the preview feature to see how the document looks like before printing it.
- Print one copy of the document to check its content and format for accuracy.

Moving the printer to another location

# Moving the printer to another location

⚠️ **CAUTION—POTENTIAL INJURY:** If the printer weight is greater than 20 kg (44 lb), then it may require two or more people to lift it safely.

⚠️ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, use only the power cord provided with this product or the manufacturer's authorized replacement.

**CAUTION—POTENTIAL INJURY:** When moving the printer, follow these guidelines to avoid personal injury or printer damage:

- Make sure that all doors and trays are closed.
- Turn off the printer, and then unplug the power cord from the electrical outlet.
- Disconnect all cords and cables from the printer.
- If the printer has separate floor-standing optional trays or output options attached to it, then disconnect them before moving the printer.
- If the printer has a caster base, then carefully roll it to the new location. Use caution when passing over thresholds and breaks in flooring.
- If the printer does not have a caster base but is configured with optional trays or output options, then remove the output options and lift the printer off the trays. Do not try to lift the printer and any options at the same time.
- Always use the handholds on the printer to lift it.
- Any cart used to move the printer must have a surface able to support the full footprint of the printer.
- Any cart used to move the hardware options must have a surface able to support the dimensions of the options.
- Keep the printer in an upright position.
- Avoid severe jarring movements.
- Make sure that your fingers are not under the printer when you set it down.
- Make sure that there is adequate clearance around the printer.

**Note:** Damage to the printer caused by improper moving is not covered by the printer warranty.

# Shipping the printer

For shipping instructions, go to **https://support.lexmark.com** or contact customer support.

# Printing problems

## Print quality is poor

### Blank or white pages

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Check if the printer is using a genuine and supported Lexmark toner cartridge.<br>    **Note:** If the cartridge is not supported, then install a supported one.<br>**b** Print the document.<br><br>Is the printer printing blank or white pages? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br>    **Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br>    **Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Is the printer printing blank or white pages? | Contact **customer support**. | The problem is solved. |

## Dark print

**Note:** Before solving the problem, print the quality sample pages to determine the missing color. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Perform Color Adjust.<br>From the home screen, touch **Settings** > **Print** > **Quality** > **Advanced Imaging** > **Color Adjust**.<br>**b** Print the document.<br><br>Is the print too dark? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Depending on your operating system, reduce the toner darkness from the Printing Preferences or Print dialog.<br>**Note:** You can also change the settings on the printer control panel. From the home screen, touch **Settings** > **Print** > **Quality** > **Toner Darkness**.<br>**b** Print the document.<br><br>Is the print too dark? | Go to step 3. | The problem is solved. |
| **Step 3**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br>**Notes:**<br>  • Make sure that the settings match the paper loaded in the tray.<br>  • You can also change the settings on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Is the print too dark? | Go to step 4. | Go to step 6. |
| **Step 4**<br>Make sure that the paper has no texture or rough finishes.<br><br>Are you printing on textured or rough paper? | Go to step 5. | Go to step 6. |

| Action | Yes | No |
|---|---|---|
| **Step 5**<br>**a** Replace textured or rough paper with plain paper.<br>**b** Print the document.<br><br>Is the print too dark? | Go to step 6. | The problem is solved. |
| **Step 6**<br>**a** Load paper from a fresh package.<br><br>    **Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.<br>**b** Print the document.<br><br>Is the print too dark? | Contact **customer support**. | The problem is solved. |

## Ghost images

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Load the tray with the correct paper type and weight.<br>**b** Print the document.<br><br>Do ghost images appear on prints? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br><br>    **Notes:**<br><br>    • Make sure that the setting matches the paper loaded in the tray.<br>    • You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Do ghost images appear on prints? | Go to step 3. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 3**<br>**a** Perform Color Adjust.<br><br>From the home screen, touch **Settings** > **Print** > **Quality** > **Advanced Imaging** > **Color Adjust**.<br>**b** Print the document.<br><br>Do ghost images appear on prints? | Contact **customer support**. | The problem is solved. |

## Gray or colored background

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Depending on your operating system, increase toner darkness from the Printing Preferences or Print dialog.<br><br>**Note:** You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Print** > **Quality** > **Toner Darkness**.<br>**b** Print the document.<br><br>Does gray or colored background appear on prints? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Perform Color Adjust.<br><br>From the home screen, touch **Settings** > **Print** > **Quality** > **Advanced Imaging** > **Color Adjust**.<br>**b** Print the document.<br><br>Does gray or colored background appear on prints? | Go to step 3. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 3**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br><br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br><br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Does gray or colored background appear on prints? | Contact **customer support**. | The problem is solved. |

## Incorrect margins

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Adjust the paper guides in the tray to the correct position for the paper loaded.<br>**b** Print the document.<br><br>Are the margins correct? | The problem is solved. | Go to step 2. |

| Action | Yes | No |
|---|---|---|
| **Step 2**<br>**a** Depending on your operating system, specify the paper size from the Printing Preferences or Print dialog.<br>    **Notes:**<br>      • Make sure that the setting matches the paper loaded.<br>      • You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>    **Note:**<br>**b** Print the document.<br><br>Are the margins correct? | The problem is solved. | Contact **customer support**. |

## Light print

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Perform Color Adjust.<br>    From the home screen, touch **Settings** > **Print** > **Quality** > **Advanced Imaging** > **Color Adjust**.<br>**b** Print the document.<br><br>Is the print light? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Depending on your operating system, increase toner darkness from the Printing Preferences or Print dialog.<br>    **Note:** You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Print** > **Quality** > **Toner Darkness**.<br>**b** Print the document.<br><br>Is the print light? | Go to step 3. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 3**<br>**a** Turn off Color Saver.<br>From the home screen, touch **Settings** > **Print** > **Quality** > **Color Saver**.<br>**b** Print the document.<br><br>Is the print light? | Go to step 4. | The problem is solved. |
| **Step 4**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br>**Notes:**<br>• Make sure that the setting matches the paper loaded.<br>• You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Is the print light? | Go to step 5. | The problem is solved. |
| **Step 5**<br>Check if paper has texture or rough finishes.<br><br>Are you printing on textured or rough paper? | Go to step 6. | Go to step 7. |
| **Step 6**<br>**a** Replace textured or rough paper with plain paper.<br>**b** Print the document.<br><br>Is the print light? | Go to step 7. | The problem is solved. |
| **Step 7**<br>**a** Load paper from a fresh package.<br>**Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.<br>**b** Print the document.<br><br>Is the print light? | Go to step 8. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 8**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Is the print too light? | Contact **customer support**. | The problem is solved. |

## Missing colors

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **a** Remove the color imaging kit.<br>**Warning—Potential Damage:** Do not expose the color imaging kit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit. Doing so may affect the quality of future print jobs.<br>**b** Remove the toner cartridge of the missing color.<br>**c** Remove, and then insert the developer unit of the missing color.<br>**d** Insert the toner cartridge of the missing color.<br>**e** Insert the color imaging kit.<br>**f** Print the document.<br><br>Are some colors missing on print? | Contact **customer support**. | The problem is solved. |

## Mottled print and dots

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br><br>Check the printer for leaked toner contamination.<br><br>Is the printer free of leaked toner? | Go to step 2. | Contact **customer support**. |
| **Step 2**<br><br>**a** From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Check if the paper size and paper type settings match the paper loaded.<br><br>**Note:** Make sure that the paper does not have texture or rough finishes.<br><br>Do the settings match? | Go to step 4. | Go to step 3. |
| **Step 3**<br><br>**a** Depending on your operating system, specify the paper size and paper type from the Printing Preferences or Print dialog.<br><br>**Notes:**<br><br>• Make sure that the settings match the paper loaded in the tray.<br>• You can also change the settings on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br><br>**b** Print the document.<br><br>Is the print mottled? | Go to step 4. | The problem is solved. |
| **Step 4**<br><br>**a** Load paper from a fresh package.<br><br>**Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.<br>**b** Print the document.<br><br>Is the print mottled? | Go to step 5. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 5**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br><br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br><br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Is the print mottled? | Contact **customer support**. | The problem is solved. |

## Paper curl

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Adjust the guides in the tray to the correct position for the paper loaded.<br>**b** Print the document.<br><br>Is the paper curled? | Go to step 2. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 2**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br>**Notes:**<br>• Make sure that the setting matches the paper loaded.<br>• You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Is the paper curled? | Go to step 3. | The problem is solved. |
| **Step 3**<br>Print on the other side of the paper.<br>**a** Remove paper, flip it over, and then reload paper.<br>**b** Print the document.<br><br>Is the paper curled? | Go to step 4. | The problem is solved. |
| **Step 4**<br>**a** Load paper from a fresh package.<br>**Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.<br>**b** Print the document.<br><br>Is the paper curled? | Contact **customer support**. | The problem is solved. |

## Print crooked or skewed

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1** <br> **a** Pull out the tray. <br> **b** Remove the paper, and then load paper from a fresh package. <br>     **Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it. <br> **c** Squeeze and slide the paper guides to the correct position for the size of the paper you are loading. <br> **d** Insert the tray. <br> **e** Print the document. <br><br> Is the print crooked or skewed? | Go to step 2. | The problem is solved. |
| **Step 2** <br> **a** Check if you are printing on a supported paper. <br> **b** Print the document. <br><br> Is the print crooked or skewed? | Contact **customer support**. | The problem is solved. |

## Solid color or black images

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **a** Remove the color imaging kit, and then remove the black imaging unit.<br><br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br><br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Is the printer printing solid color or black images? | Contact **customer support**. | The problem is solved. |

## Text or images cut off

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Adjust the paper guides in the tray to the correct position for the paper loaded.<br>**b** Print the document.<br><br>Is the text or image clipped? | Go to step 2. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 2**<br>**a** Depending on your operating system, specify the paper size from the Printing Preferences or Print dialog.<br>**Notes:**<br>    • Make sure that the setting matches the paper loaded in the tray.<br>    • You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Is the text or image clipped? | Go to step 3. | The problem is solved. |
| **Step 3**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Is the text or image clipped? | Contact **customer support**. | The problem is solved. |

## Toner easily rubs off

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **1** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br><br>**Notes:**<br><br>• Make sure that the setting matches the paper loaded.<br>• You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br><br>**2** Print the document.<br><br>Does the toner rub off? | Contact **customer support**. | The problem is solved. |

## Uneven print density

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **a** Remove the color imaging kit, and then remove the black imaging unit.<br><br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br><br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br><br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br><br>**c** Print the document.<br><br>Is the print density uneven? | Contact **customer support**. | The problem is solved. |

## Horizontal dark lines

**Notes:**

- Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.
- If horizontal dark lines keep appearing on the prints, then see the "Repeating defects" topic.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br><br>**Notes:**<br><br>    • Make sure that the setting matches the paper loaded.<br>    • You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Do horizontal dark lines appear on prints? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Load paper from a fresh package.<br><br>**Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you use it.<br>**b** Print the document.<br><br>Do horizontal dark lines appear on prints? | Go to step 3. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 3**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br><br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br><br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Do horizontal dark lines appear on prints? | Contact **customer support**. | The problem is solved. |

## Vertical dark lines

**Note:** Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br><br>**Notes:**<br><br>• Make sure that the setting matches the paper loaded in the tray.<br>• You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Do vertical dark lines appear on prints? | Go to step 2. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 2**<br>**a** Load paper from a fresh package.<br><br>　**Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you use it.<br>**b** Print the document.<br><br>Do vertical dark lines appear on prints? | Go to step 3. | The problem is solved. |
| **Step 3**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br><br>　**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br><br>　**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. Doing so may affect the quality of future print jobs.<br>**b** Insert the black imaging unit, and then insert the color imaging kit.<br>**c** Print the document.<br><br>Do vertical dark lines appear on prints? | Contact **customer support**. | The problem is solved. |

## Horizontal white lines

**Notes:**

- Before solving the problem, print the Print Quality Test Pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.
- If horizontal white lines keep appearing on the prints, then see the "Repeating defects" topic.

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br><br>**Notes:**<br><br>• Make sure that the setting matches the paper loaded in the tray.<br>• You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Print the document.<br><br>Do horizontal white lines appear on prints? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Load the specified paper source with the recommended paper type.<br>**b** Print the document.<br><br>Do horizontal white lines appear on prints? | Go to step 3. | The problem is solved. |
| **Step 3**<br>**a** Remove the color imaging kit, and then remove the black imaging unit.<br><br>**Warning—Potential Damage:** Do not expose the color imaging kit and black imaging unit to direct light for more than 10 minutes. Extended exposure to light may cause print quality problems.<br><br>**Warning—Potential Damage:** Do not touch the photoconductor drum under the color imaging kit and black imaging unit. ## Repeating defects

**Note:** Before solving the problem, print the quality sample pages to determine the cause of the repeating defects. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

| Action | Yes | No |
|---|---|---|
| **a** Using the Maintenance Defect Ruler, measure the distance between the repeating defects on the affected color page.<br>**b** Replace the supply item that matches the measurement on the affected color page.<br><br>**Imaging kit**<br>• 94.5 mm (3.72 in.)<br>• 29.9 mm (1.18 in.)<br>• 23.2 mm (0.91 in.)<br><br>**Developer unit**<br>• 43.6 mm (1.72 in.)<br>• 45 mm (1.77 in.)<br><br>**Transfer module**<br>• 37.7 mm (1.48 in.)<br>• 78.5 mm (3.09 in.)<br>• 55 mm (2.17 in.)<br>• 28.3 mm (1.11 in.)<br><br>**Fuser**<br>• 79.8 mm (3.14 in.)<br>• 94.3 mm (3.71 in.)<br>**c** Print the Print Quality Test Pages.<br><br>Do the defects still appear? | Take note of the distance, and then contact **customer support** or your service representative. | The problem is solved. |

# Print jobs do not print

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** From the document you are trying to print, open the Print dialog, and then check if you have selected the correct printer.<br>**b** Print the document.<br><br>Is the document printed? | The problem is solved. | Go to step 2. |
| **Step 2**<br>**a** Check if the printer is on.<br>**b** Resolve any error messages that appear on the display.<br>**c** Print the document.<br><br>Is the document printed? | The problem is solved. | Go to step 3. |
| **Step 3**<br>**a** Check if the ports are working and if the cables are securely connected to the computer and the printer.<br><br>For more information, see the setup documentation that came with the printer.<br>**b** Print the document.<br><br>Is the document printed? | The problem is solved. | Go to step 4. |
| **Step 4**<br>**a** Turn off the printer, wait for about 10 seconds, and then turn on the printer.<br>**b** Print the document.<br><br>Is the document printed? | The problem is solved. | Go to step 5. |
| **Step 5**<br>**a** Remove, and then reinstall the print driver.<br>**b** Print the document.<br><br>Is the document printed? | The problem is solved. | Contact **customer support**. |

# Confidential and other held documents do not print

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** From the control panel, check if the documents appear in the Held Jobs list.<br>**Note:** If the documents are not listed, then print the documents using the Print and Hold options.<br>**b** Print the documents.<br><br>Are the documents printed? | The problem is solved. | Go to step 2. |
| **Step 2**<br>The print job may contain a formatting error or invalid data.<br>• Delete the print job, and then send it again.<br>• For PDF files, generate a new file, and then print the documents.<br><br>Are the documents printed? | The problem is solved. | Go to step 3. |
| **Step 3**<br>If you are printing from the Internet, then the printer may be reading the multiple job titles as duplicates.<br>**For Windows users**<br>**a** Open the Printing Preferences dialog.<br>**b** From the Print and Hold tab, click **Use Print and Hold**, and then click **Keep duplicate documents**.<br>**c** Enter a PIN, and then save the changes.<br>**d** Send the print job.<br>**For Macintosh users**<br>**a** Save and name each job differently.<br>**b** Send the job individually.<br><br>Are the documents printed? | The problem is solved. | Go to step 4. |
| **Step 4**<br>**a** Delete some held jobs to free up printer memory.<br>**b** Print the documents.<br><br>Are the documents printed? | The problem is solved. | Go to step 5. |
| **Step 5**<br>**a** Add printer memory.<br>**b** Print the documents.<br><br>Are the documents printed? | The problem is solved. | Contact **customer support**. |

## Job prints from the wrong tray or on the wrong paper

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Check if you are printing on the correct paper.<br>**b** Print the document.<br><br>Is the document printed on the correct paper? | Go to step 2. | Load the correct paper size and paper type. |
| **Step 2**<br>**a** Depending on your operating system, specify the paper size and paper type from the Printing Preferences or Print dialog.<br>**Note:** You can also change the settings on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Make sure that the settings match the paper loaded.<br>**c** Print the document.<br><br>Is the document printed on the correct paper? | The problem is solved. | Go to step 3. |
| **Step 3**<br>**a** Check if the trays are linked.<br>For more information, see "Linking trays" on page 33.<br>**b** Print the document.<br><br>Is the document printed from the correct tray? | The problem is solved. | Contact **customer support**. |

## Slow printing

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>Make sure that the printer cable is securely connected to the printer and to the computer, print server, option, or other network device.<br><br>Is the printer printing slow? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** Make sure that the printer is not in Quiet Mode.<br>From the home screen, touch **Settings** > **Device** > **Maintenance** > **Configuration Menu** > **Device Operations** > **Quiet Mode**.<br>**b** Print the document.<br><br>Is the printer printing slow? | Go to step 3. | The problem is solved. |

| Action | Yes | No |
|--------|-----|-----|
| **Step 3**<br>**a** Depending on your operating system, specify the print resolution from the Printing Preferences or Print dialog.<br>**b** Set the resolution to 4800 CQ.<br>**c** Print the document.<br><br>Is the printer printing slow? | Go to step 4. | The problem is solved. |
| **Step 4**<br>**a** From the home screen, touch **Settings** > **Print** > **Quality** > **Print Resolution**.<br>**b** Set the resolution to 4800 CQ.<br>**c** Print the document.<br><br>Is the printer printing slow? | Go to step 5. | The problem is solved. |
| **Step 5**<br>**a** Depending on your operating system, specify the paper type from the Printing Preferences or Print dialog.<br>**Notes:**<br>• Make sure that the setting matches the paper loaded.<br>• You can also change the setting on the printer control panel. From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>• Heavier paper prints more slowly.<br>• Paper narrower than letter, A4, and legal may print more slowly.<br>**b** Print the document.<br><br>Is the printer printing slow? | Go to step 6. | The problem is solved. |
| **Step 6**<br>**a** Make sure that the printer settings for texture and weight match the paper being loaded.<br>From the home screen, touch **Settings** > **Paper** > **Media Configuration** > **Media Types**.<br>**Note:** Rough paper texture and heavy paper weight may print more slowly.<br>**b** Print the document.<br><br>Is the printer printing slow? | Go to step 7. | The problem is solved. |
| **Step 7**<br>Remove held jobs.<br><br>Is the printer printing slow? | Go to step 8. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 8**<br>**a** Make sure that the printer is not overheating.<br>    **Notes:**<br><br>      • Allow the printer to cool down after a long print job.<br>      • Observe the recommended ambient temperature for the printer. For more information, see "Selecting a location for the printer" on page 19.<br>**b** Print the document.<br><br>Is the printer printing slow? | Contact **customer support**. | The problem is solved. |

# The printer is not responding

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>Check if the power cord is connected to the electrical outlet.<br><br>⚠️ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.<br><br>Is the printer responding? | The problem is solved. | Go to step 2. |
| **Step 2**<br>Check if the electrical outlet is turned off by a switch or breaker.<br><br>Is the electrical outlet turned off by a switch or breaker? | Turn on the switch or reset the breaker. | Go to step 3. |
| **Step 3**<br>Check if the printer is on.<br><br>Is the printer on? | Go to step 4. | Turn on the printer. |
| **Step 4**<br>Check if the printer is in Sleep or Hibernate mode.<br><br>Is the printer in Sleep or Hibernate mode? | Press the power button to wake the printer. | Go to step 5. |
| **Step 5**<br>Check if the cables connecting the printer and the computer are inserted to the correct ports.<br><br>Are the cables inserted to the correct ports? | Go to step 6. | Insert the cables to the correct ports. |

| Action | Yes | No |
|---|---|---|
| **Step 6**<br>Turn off the printer, install the hardware options, and then turn on the printer.<br>For more information, see the documentation that came with the option.<br><br>Is the printer responding? | The problem is solved. | Go to step 7. |
| **Step 7**<br>Install the correct print driver.<br><br>Is the printer responding? | The problem is solved. | Go to step 8. |
| **Step 8**<br>Turn off the printer, wait for about 10 seconds, and then turn on the printer.<br><br>Is the printer responding? | The problem is solved. | Contact **customer support**. |

# Unable to read flash drive

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>Check if the printer is not busy processing another print job.<br><br>Is the printer ready? | Go to step 3. | Go to step 2. |
| **Step 2**<br>• Wait for the printer to finish processing the other job.<br>• Remove, and then insert the flash drive.<br><br>Does the printer recognize the flash drive? | The problem is solved. | Go to step 3. |
| **Step 3**<br>Check if the flash drive is inserted into the front USB port.<br>**Note:** The flash drive does not work when it is inserted into the rear USB port.<br><br>Is the flash drive inserted into the correct port? | Go to step 5. | Go to step 4. |
| **Step 4**<br>Insert the flash drive into the correct port.<br><br>Does the printer recognize the flash drive? | The problem is solved. | Go to step 5. |

| Action | Yes | No |
|---|---|---|
| **Step 5**<br><br>Check if the flash drive is supported. For more information, see "Supported flash drives and file types" on page 55.<br><br>Is the flash drive supported? | Go to step 7. | Go to step 6. |
| **Step 6**<br><br>Insert a supported flash drive.<br><br>Does the printer recognize the flash drive? | The problem is solved. | Go to step 7. |
| **Step 7**<br><br>Remove, and then insert the flash drive.<br><br>Does the printer recognize the flash drive? | The problem is solved. | Contact **customer support**. |

# Enabling the USB port

From the home screen, touch **Settings** > **Network/Ports** > **USB** > **Enable USB Port**.

# Clearing jams

## Avoiding jams

**Load paper properly**

- Make sure that the paper lies flat in the tray.

- Do not load or remove a tray while the printer is printing.
- Do not load too much paper. Make sure that the stack height is below the maximum paper fill indicator.

- Do not slide paper into the tray. Load paper as shown in the illustration.

- Make sure that the paper guides are positioned correctly and are not pressing tightly against the paper or envelopes.
- Push the tray firmly into the printer after loading paper.

**Use recommended paper**

- Use only recommended paper or specialty media.
- Do not load paper that is wrinkled, creased, damp, bent, or curled.
- Flex, fan, and align the paper edges before loading.

- Do not use paper that has been cut or trimmed by hand.
- Do not mix paper sizes, weights, or types in the same tray.
- Make sure that the paper size and type are set correctly on the computer or printer control panel.
- Store paper according to manufacturer recommendations.

## Identifying jam locations

**Notes:**

- When Jam Assist is set to On, the printer flushes blank pages or pages with partial prints after a jammed page has been cleared. Check your printed output for blank pages.
- When Jam Recovery is set to On or Auto, the printer reprints jammed pages.
| | Jam locations |
|---|---|
| 1 | Door A |
| 2 | Trays |
| 3 | Multipurpose feeder |
| 4 | Manual feeder |

# Paper jam in door A

**Paper jam below the fuser**

1 Open door A.

⚠ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

**Warning—Potential Damage:** To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.
**2** Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.
**3** Close door A.

**Paper jam in the fuser**

**1** Open door A.

⚠ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

**Warning—Potential Damage:** To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.
**2** Open the fuser access door, and then remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.

**3** Close door A.

**Paper jam in the duplex unit**

**1** Open door A.

⚠️ **CAUTION—HOT SURFACE:** The inside of the printer might be hot. To reduce the risk of injury from a hot component, allow the surface to cool before touching it.

**Warning—Potential Damage:** To prevent damage from electrostatic discharge, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer.
**2** Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.
**3** Close door A.

## Paper jam in trays

**1** Remove the tray.

**Warning—Potential Damage:** A sensor inside the optional tray is easily damaged by static electricity. Touch a metal surface before removing the jammed paper in the tray.

**2** Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.

**3** Insert the tray.

## Paper jam in the manual feeder

Remove the jammed paper.
**Note:** Make sure that all paper fragments are removed.

## Paper jam in the multipurpose feeder

**Note:** The multipurpose feeder is available only if the optional 650-sheet duo tray is installed.

**1** Remove paper from the multipurpose feeder, and then close it.

**2** Remove the tray.

**3** Remove the jammed paper.

**Note:** Make sure that all paper fragments are removed.

**4** Insert the tray.

**5** Open the multipurpose feeder, and then reload paper.

# Network connection problems

## Cannot open Embedded Web Server

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Check if the printer is on.<br>**b** Access the printer Embedded Web Server (EWS).<br><br>Can you open the EWS? | The problem is solved. | Go to step 2. |

| Action | Yes | No |
|---|---|---|
| **Step 2**<br>**a** Make sure that the printer IP address is correct.<br>    **Notes:**<br>      • View the IP address on the home screen.<br>      • An IP address appears as four sets of numbers separated by periods, such as 123.123.123.123.<br>**b** Access the EWS.<br><br>Can you open the EWS? | The problem is solved. | Go to step 3. |
| **Step 3**<br>**a** Make sure that you installed a supported browser:<br>    • Internet Explorer version 11 or later<br>    • Microsoft Edge<br>    • Safari version 6 or later<br>    • Google Chrome™ version 32 or later<br>    • Mozilla Firefox version 24 or later<br>**b** Access the EWS.<br><br>Can you open the EWS? | The problem is solved. | Go to step 4. |
| **Step 4**<br>**a** Check if the network connection is working.<br>    **Note:** If the connection is not working, then contact your administrator.<br>**b** Access the EWS.<br><br>Can you open the EWS? | The problem is solved. | Go to step 5. |
| **Step 5**<br>**a** Make sure that the cable connections to the printer and print server are secure. For more information, see the documentation that came with the print server.<br>**b** Access the EWS.<br><br>Can you open the EWS? | The problem is solved. | Go to step 6. |
| **Step 6**<br>**a** Check if the web proxy servers are disabled.<br>    **Note:** If the servers are disabled, then contact your administrator.<br>**b** Access the EWS.<br><br>Can you open the EWS? | The problem is solved. | Contact **customer support**. |

## Cannot connect the printer to the Wi-Fi network

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>Make sure that Active Adapter is set to Auto.<br>From the home screen, touch **Settings** > **Network/Ports** > **Network Overview** > **Active Adapter** > **Auto**.<br><br>Can the printer connect to the Wi-Fi network? | The problem is solved. | Go to step 2. |
| **Step 2**<br>Check if the correct Wi-Fi network is selected.<br>**Note:** Some routers may share the default SSID.<br><br>Are you connecting to the correct Wi-Fi network? | Go to step 4. | Go to step 3. |
| **Step 3**<br>Connect to the correct Wi-Fi network. For more information, see "Connecting the printer to a Wi-Fi network" on page 45.<br><br>Can the printer connect to the Wi-Fi network? | The problem is solved. | Go to step 4. |
| **Step 4**<br>Check the wireless security mode.<br>From the home screen, touch **Settings** > **Network/Ports** > **Wireless** > **Wireless Security Mode**.<br><br>Is the correct wireless security mode selected? | Go to step 6. | Go to step 5. |
| **Step 5**<br>Select the correct wireless security mode.<br><br>Can the printer connect to the Wi-Fi network? | The problem is solved. | Go to step 6. |
| **Step 6**<br>Make sure that you entered the correct network password.<br>**Note:** Take note of the spaces, numbers, and capitalization in the password.<br><br>Can the printer connect to the Wi-Fi network? | The problem is solved. | Contact **customer support**. |

# Hardware options problems

## Cannot detect internal option

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>Turn off the printer, wait for about 10 seconds, and then turn on the printer.<br><br>Does the printer detect the internal option? | The problem is solved. | Go to step 2. |
| **Step 2**<br>Print the Menu Settings Page, and then check if the internal option appears in the Installed Features list.<br><br>Is the internal option listed? | Go to step 4. | Go to step 3. |
| **Step 3**<br>Check if the internal option is installed properly into the controller board.<br>**a** Turn off the printer, and then unplug the power cord from the electrical outlet.<br>**b** Make sure that the internal option is installed into the appropriate connector on the controller board.<br>**c** Connect the power cord to the electrical outlet, and then turn on the printer.<br><br>⚠ **CAUTION—POTENTIAL INJURY:** To avoid the risk of fire or electrical shock, connect the power cord to an appropriately rated and properly grounded electrical outlet that is near the product and easily accessible.<br><br>Does the printer detect the internal option? | The problem is solved. | Go to step 4. |
| **Step 4**<br>**a** Check if the internal option is available in the print driver.<br>**Note:** If necessary, manually add the internal option in the print driver to make it available for print jobs. For more information, see "Adding available options in the print driver" on page 35.<br>**b** Print the document.<br><br>Does the printer detect the internal option? | The problem is solved. | Contact **customer support**. |

## Defective flash detected

Try one or more of the following:
- Replace the defective intelligent storage drive.
- From the home screen, touch **Continue** to ignore the message and continue printing.

- Cancel the current print job.

## Not enough free space in flash memory for resources

Try one or more of the following:

- Touch **Continue** to clear the message and continue printing.
- Delete fonts, macros, and other data stored in the flash memory.
- Install a hard disk.

**Note:** Downloaded fonts and macros that are not previously stored in the flash memory are deleted.

# Issues with supplies

## Replace cartridge, printer region mismatch

To correct this problem, purchase a cartridge with the correct region that matches the printer region, or purchase a worldwide cartridge.

- The first number in the message after 42 indicates the region of the printer.
- The second number in the message after 42 indicates the region of the cartridge.

**Printer and toner cartridge regions**

| Region | Numeric code |
|---|---|
| Worldwide or Undefined region | 0 |
| North America (United States, Canada), Australia, New Zealand | 1 |
| European Economic Area, Iceland, Liechtenstein, and Norway | 2 |

**Note:** To find the region settings of the printer and toner cartridge, print the print quality test pages. From the home screen, touch **Settings** > **Troubleshooting** > **Print Quality Test Pages**.

## Refilled regular [color] cartridge

The printer has detected a Lexmark Regular cartridge that has been refilled with non-genuine toner by a party other than Lexmark.

Select **OK** to continue.

All printer component life indicators are designed to function with Lexmark supplies and parts and may deliver unpredictable results when using supplies or parts in your Lexmark printer that are remanufactured by parties other than Lexmark.

For more information, see the printer statement of limited warranty.

# Non-Lexmark supply

The printer has detected a non-Lexmark supply or part installed in the printer.

Your Lexmark printer is designed to function best with genuine Lexmark supplies and parts. Use of third-party supplies or parts may affect the performance, reliability, or life of the printer and its imaging components.

All life indicators are designed to function with Lexmark supplies and parts and may deliver unpredictable results if third-party supplies or parts are used. Imaging component usage beyond the intended life may damage your Lexmark printer or associated components.

**Warning—Potential Damage:**  Use of third-party supplies or parts can affect warranty coverage. Damage caused by the use of third-party supplies or parts may not be covered by the warranty.

To accept any and all of these risks and to proceed with the use of non-genuine supplies or parts in your printer, touch and hold the error message on the display using two fingers for 15 seconds. When a confirmation dialog box appears, touch **Continue**.

If you do not want to accept these risks, then remove the third-party supply or part from your printer and install a genuine Lexmark supply or part. For more information, see "Using genuine Lexmark parts and supplies" on page 107.

If the printer does not print after clearing the error message, then reset the supply usage counter.

1 From the home screen, touch **Settings** > **Device** > **Maintenance** > **Configuration Menu** > **Supply Usage And Counters**.

2 Select the part or supply that you want to reset, and then touch **Start**.

3 Read the warning message, and then touch **Continue**.

4 Using two fingers, touch the display for 15 seconds to clear the message.

**Note:** If you are unable to reset the supply usage counters, then return the supply item to the place of purchase.

# Paper feed problems

## Envelope seals when printing

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Use an envelope that has been stored in a dry environment.<br>    **Note:** Printing on envelopes with high moisture content can seal the flaps.<br>**b** Send the print job.<br><br>Does the envelope seal when printing? | Go to step 2. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 2**<br>**a** Make sure that paper type is set to Envelope.<br>    From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Send the print job.<br><br>Does the envelope seal when printing? | Contact **customer support**. | The problem is solved. |

## Collated printing does not work

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** From the home screen, touch **Settings** > **Print** > **Layout** > **Collate**.<br>**b** Touch **On [1,2,1,2,1,2]**.<br>**c** Print the document.<br><br>Is the document collated correctly? | The problem is solved. | Go to step 2. |
| **Step 2**<br>**a** From the document that you are trying to print, open the Print dialog, and then select **Collate**.<br>**b** Print the document.<br><br>Is the document collated correctly? | The problem is solved. | Go to step 3. |
| **Step 3**<br>**a** Reduce the number of pages to print.<br>**b** Print the document.<br><br>Are the pages collated correctly? | The problem is solved. | Contact **customer support**. |

## Tray linking does not work

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Check if the trays contain the same paper size and paper type.<br>**b** Check if the paper guides are positioned correctly.<br>**c** Print the document.<br><br>Do the trays link correctly? | The problem is solved. | Go to step 2. |

| Action | Yes | No |
|---|---|---|
| **Step 2**<br>**a** From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Set the paper size and paper type to match the paper loaded in the linked trays.<br>**c** Print the document.<br><br>Do the trays link correctly? | The problem is solved. | Go to step 3. |
| **Step 3**<br>**a** Make sure that Tray Linking is set to Automatic. For more information, see "Linking trays" on page 33.<br>**b** Print the document.<br><br>Do the trays link correctly? | The problem is solved. | Contact **customer support**. |

## Paper frequently jams

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>**a** Remove the tray.<br>**b** Check if paper is loaded correctly.<br>**Notes:**<br><br>  • Make sure that the paper guides are positioned correctly.<br>  • Make sure that the stack height is below the maximum paper fill indicator.<br>  • Make sure to print on recommended paper size and type.<br>**c** Insert the tray.<br>**d** Print the document.<br><br>Do paper jams occur frequently? | Go to step 2. | The problem is solved. |
| **Step 2**<br>**a** From the home screen, touch **Settings** > **Paper** > **Tray Configuration** > **Paper Size/Type**.<br>**b** Set the correct paper size and type.<br>**c** Print the document.<br><br>Do paper jams occur frequently? | Go to step 3. | The problem is solved. |

| Action | Yes | No |
|---|---|---|
| **Step 3**<br>**a** Load paper from a fresh package.<br><br>**Note:** Paper absorbs moisture due to high humidity. Store paper in its original wrapper until you are ready to use it.<br>**b** Print the document.<br><br>Do paper jams occur frequently? | Contact **customer support**. | The problem is solved. |

## Jammed pages are not reprinted

| Action | Yes | No |
|---|---|---|
| **a** From the home screen, touch **Settings** > **Device** > **Notifications** > **Jam Content Recovery**.<br>**b** In the Jam Recovery menu, touch **On** or **Auto**.<br>**c** Print the document.<br><br>Are the jammed pages reprinted? | The problem is solved. | Contact **customer support**. |

# Color quality problems

## Modifying the colors in printed output

**1** From the home screen, touch **Settings** > **Print** > **Quality** > **Advanced Imaging** > **Color Correction**.

**2** In the Color Correction menu, touch **Manual** > **Color Correction Content**.

**3** Choose the appropriate color conversion setting.

| Object type | Color conversion tables |
|---|---|
| RGB Image<br>RGB Text<br>RGB Graphics | • Vivid—Produces brighter, more saturated colors and may be applied to all incoming color formats.<br>• sRGB Display—Produces an output that approximates the colors shown on a computer monitor. Black toner usage is optimized for printing photographs.<br>• Display-True Black—Produces an output that approximates the colors shown on a computer monitor. This setting uses only black toner to create all levels of neutral gray.<br>• sRGB Vivid—Provides an increased color saturation for the sRGB Display color correction. Black toner usage is optimized for printing business graphics.<br>• Off |

| Object type | Color conversion tables |
|---|---|
| CMYK Image<br>CMYK Text<br>CMYK Graphics | • US CMYK—Applies color correction to approximate the Specifications for Web Offset Publishing (SWOP) color output.<br>• Euro CMYK—Applies color correction to approximate Euroscale color output.<br>• Vivid CMYK—Increases the color saturation of the US CMYK color correction setting.<br>• Off |

# FAQ about color printing

**What is RGB color?**

RGB color is a method of describing colors by indicating the amount of red, green, or blue used to produce a certain color. Red, green, and blue light can be added in various amounts to produce a large range of colors observed in nature. Computer screens, scanners, and digital cameras use this method to display colors.

**What is CMYK color?**

CMYK color is a method of describing colors by indicating the amount of cyan, magenta, yellow, and black used to reproduce a particular color. Cyan, magenta, yellow, and black inks or toners can be printed in various amounts to produce a large range of colors observed in nature. Printing presses, inkjet printers, and color laser printers create colors in this manner.

**How is color specified in a document to be printed?**

Software programs are used to specify and modify the document color using RGB or CMYK color combinations. For more information, see the software program Help topics.

**How does the printer know what color to print?**

When printing a document, information describing the type and color of each object is sent to the printer and is passed through color conversion tables. Color is translated into the appropriate amounts of cyan, magenta, yellow, and black toner used to produce the color you want. The object information determines the application of color conversion tables. For example, it is possible to apply one type of color conversion table to text while applying a different color conversion table to photographic images.

**What is manual color correction?**

When manual color correction is enabled, the printer employs user-selected color conversion tables to process objects. Manual color correction settings are specific to the type of object being printed (text, graphics, or images). It is also specific to how the color of the object is specified in the software program (RGB or CMYK combinations). To apply a different color conversion table manually, see .

If the software program does not specify colors with RGB or CMYK combinations, then manual color correction is not useful. It is also not effective if the software program or the computer operating system controls the adjustment of colors. In most situations, setting the Color Correction to Auto generates preferred colors for the documents.

**How can I match a particular color (such as a corporate logo)?**

From the printer Quality menu, nine types of Color Samples sets are available. These sets are also available from the Color Samples page of the Embedded Web Server. Selecting any sample set generates multiple-page prints consisting of hundreds of colored boxes. Each box contains a CMYK or RGB combination, depending on the table selected. The observed color of each box is obtained by passing the CMYK or RGB combination labeled on the box through the selected color conversion table.

By examining Color Samples sets, you can identify the box with color closest to the color being matched. The color combination labeled on the box can then be used for modifying the color of the object in a software program. For more information, see the software program Help topics. Manual color correction may be necessary to use the selected color conversion table for the particular object.

Selecting which Color Samples set to use for a particular color-matching problem depends on:
- The Color Correction setting being used (Auto, Off, or Manual)
- The type of object being printed (text, graphics, or images)
- How the color of the object is specified in the software program (RGB or CMYK combinations)

If the software program does not specify colors with RGB or CMYK combinations, then the Color Samples pages are not useful. Additionally, some software programs adjust the RGB or CMYK combinations specified in the program through color management. In these situations, the printed color may not be an exact match of the Color Samples pages.

## The print appears tinted

| Action | Yes | No |
|---|---|---|
| **Step 1**<br>Perform Color Adjust.<br>**a** From the home screen, touch **Settings** > **Print** > **Quality** > **Advanced Imaging** > **Color Adjust**.<br>**b** Print the document.<br><br>Does the print appear tinted? | Go to step 2. | The problem is solved. |
| **Step 2**<br>Perform Color Balance.<br>**a** From the home screen, touch **Settings** > **Print** > **Quality** > **Advanced Imaging** > **Color Balance**.<br>**b** Adjust the settings.<br>**c** Print the document.<br><br>Does the print appear tinted? | Contact **customer support**. | The problem is solved. |

# Contacting customer support

Before contacting customer support, make sure to have the following information:
- Printer problem
- Error message
- Printer model type and serial number

Go to **http://support.lexmark.com** to receive e‑mail or chat support, or browse through the library of manuals, support documentation, drivers, and other downloads.

Technical support via telephone is also available. In the U.S. or Canada, call 1‑800‑539‑6275. For other countries or regions, go to **http://support.lexmark.com**.

# Recycle and dispose

## Recycling Lexmark products

To return Lexmark products for recycling:

**1** Go to **www.lexmark.com/recycle**.

**2** Select the product you want to recycle.

**Note:** Printer supplies and hardware not listed in the Lexmark Collection and Recycling Program may be recycled through your local recycling center.

## Recycling Lexmark packaging

Lexmark continually strives to minimize packaging. Less packaging helps to ensure that Lexmark printers are transported in the most efficient and environmentally sensitive manner and that there is less packaging to dispose of. These efficiencies result in fewer greenhouse emissions, energy savings, and natural resource savings. Lexmark also offers recycling of packaging components in some countries or regions. For more information, go to **www.lexmark.com/recycle**, and then choose your country or region. Information on available packaging recycling programs is included with the information on product recycling.

Lexmark cartons are 100% recyclable where corrugated recycling facilities exist. Facilities may not exist in your area.

The foam used in Lexmark packaging is recyclable where foam recycling facilities exist. Facilities may not exist in your area.

When you return a cartridge to Lexmark, you can reuse the box that the cartridge came in. Lexmark recycles the box.

# Notices

## Product information

Product name:

Lexmark C2335, Lexmark CS531dw, Lexmark CS632dwe, Lexmark CS639 Printers

Machine type:

5031

Models:

270, 280, 290, 635, 675, 685

## Edition notice

July 2024

**The following paragraph does not apply to any country where such provisions are inconsistent with local law:** LEXMARK INTERNATIONAL, INC., PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. For information on supplies and downloads, go to **www.lexmark.com**.

## GOVERNMENT END USERS

The Software Program and any related documentation are "Commercial Items," as that term is defined in 48 C.F.R. 2.101, "Computer Software" and "Commercial Computer Software Documentation," as such terms are used in 48 C.F.R. 12.212 or 48 C.F.R. 227.7202, as applicable. Consistent with 48 C.F.R. 12.212 or 48 C.F.R. 227.7202-1 through 227.7207-4, as applicable, the Commercial Computer Software and Commercial Software

Documentation are licensed to the U.S. Government end users (a) only as Commercial Items and (b) with only those rights as are granted to all other end users pursuant to the terms and conditions herein.

## Trademarks

Lexmark, the Lexmark logo, and MarkNet are trademarks or registered trademarks of Lexmark International, Inc. in the United States and/or other countries.

Android, Google Play, and Google Chrome are trademarks of Google LLC.

Macintosh, macOS, Safari, and AirPrint are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc., registered in the U.S. and other countries. Use of the Works with Apple badge means that an accessory has been designed to work specifically with the technology identified in the badge and has been certified by the developer to meet Apple performance standards.

Microsoft, Internet Explorer, Microsoft Edge, and Windows are trademarks of the Microsoft group of companies.

The Mopria® word mark is a registered and/or unregistered trademark of Mopria Alliance, Inc. in the United States and other countries. Unauthorized use is strictly prohibited.

PCL® is a registered trademark of the Hewlett-Packard Company. PCL is Hewlett-Packard Company's designation of a set of printer commands (language) and functions included in its printer products. This printer is intended to be compatible with the PCL language. This means the printer recognizes PCL commands used in various application programs, and that the printer emulates the functions corresponding to the commands.

PostScript is a registered trademark of Adobe Systems Incorporated in the United States and/or other countries.

Wi-Fi® and Wi-Fi Direct® are registered trademarks of Wi-Fi Alliance®.

All other trademarks are the property of their respective owners.

## Licensing notices

All licensing notices associated with this product can be viewed from the CD:\NOTICES directory of the installation software CD.

## Noise emission levels

The following measurements were made in accordance with ISO 7779 and reported in conformance with ISO 9296.

**Note:** Some modes may not apply to your product.

| 1-meter average sound pressure, dBA | |
| --- | --- |
| Printing | One-sided: 51 (CS531, C2335); 52 (CS632, CS639)<br>Two-sided: 51 (CS531, C2335); 54 (CS632, CS639) |
| Ready | 14 |

Values are subject to change. See **www.lexmark.com** for current values.

# Waste from Electrical and Electronic Equipment (WEEE) directive
The WEEE logo signifies specific recycling programs and procedures for electronic products in countries of the European Union. We encourage the recycling of our products.

If you have further questions about recycling options, visit the Lexmark Web site at **www.lexmark.com** for your local sales office phone number.

# India E-Waste notice

This product including components, consumables, parts and spares complies with the "India E-Waste Rules" and prohibits use of lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers in concentrations exceeding 0.1% by weight and 0.01% by weight for cadmium, except for the exemption set in the Rule.

# Lithium-ion rechargeable battery
This product may contain a coin-cell, lithium-ion rechargeable battery, which should only be removed by a trained technician. Crossed-out wheelie bin means the product should not be discarded as unsorted waste but must be sent to separate collection facilities for recovery and recycling. In the event the battery is removed, do not dispose of the battery in your household waste. There may be separate collection systems for batteries in your local community, such as a battery-recycling drop-off location. The separate collection of waste batteries

assures appropriate treatment of waste including reuse and recycling and prevents any potential negative effects on human health and environment. Please responsibly dispose of the batteries.

Regulation (EU) 2023/1542

## Regulation (EU) 2023/1542

This product may contain a coin-cell lithium rechargeable battery. This battery complies with Regulation (EU) 2023/1542. Compliance is indicated by the CE marking:

This product may contain one of the following coin-cell batteries:

- Battery identification: Seiko Model Number MS621FE
  Manufacturer: Seiko Instruments Inc.
  Manufacturer address: 8, Nakase 1-chome, Mihama-ku, Chiba-shi, Chiba 261-8507, Japan
- Battery identification: Panasonic Model Number ML621
  Manufacturer: Panasonic Energy Co., Ltd.
  Manufacturer address: 1-1 Matsushita-cho, Moriguchi City, Osaka 570-8511, Japan
- Battery identification: FDK Model Number ML621
  Manufacturer: FDK Corporation
  Manufacturer address: Shibaura Crystal Shinagawa, 1-6-41 Konan, Minato-ku, Tokyo 108-8212 Japan

## Environmental labeling for packaging

Per Commission Regulation Decision 97/129/EC Legislative Decree 152/2006, the product packaging may contain one or more of the following symbols.

| | |
|---|---|
|  | This symbol indicates that the packaging may contain corrugated fiberboard. |
|  | This symbol indicates that the packaging may contain non-corrugated fiberboard. |

|  | This symbol indicates that the packaging may contain paper. |

For more information, go to **www.lexmark.com/recycle**, and then choose your country or region. Information on available packaging recycling programs is included with the information on product recycling.

## Product disposal

Do not dispose of the printer or supplies in the same manner as normal household waste. Consult your local authorities for disposal and recycling options.

## Returning Lexmark cartridges for reuse or recycling

The Lexmark Cartridge Collection Program allows you to return used cartridges for free to Lexmark for reuse or recycling. One hundred percent of the empty cartridges returned to Lexmark are either reused or demanufactured for recycling. The boxes used to return the cartridges are also recycled.

To return Lexmark cartridges for reuse or recycling, do the following:

1 Go to **www.lexmark.com/recycle**.

2 Select your country or region.

3 Select **Lexmark Cartridge Collection Program**.

4 Follow the instructions on the screen.

Static sensitivity notice

## Static sensitivity notice

This symbol identifies static-sensitive parts. Do not touch the areas near these symbols without first touching a metal surface in an area away from the symbol.

To prevent damage from electrostatic discharge when performing maintenance tasks such as clearing paper jams or replacing supplies, touch any exposed metal frame of the printer before accessing or touching interior areas of the printer even if the symbol is not present.

## ENERGY STAR

Any Lexmark product bearing the ENERGY STAR® emblem on the product or on a start-up screen is certified to comply with Environmental Protection Agency (EPA) ENERGY STAR requirements as of the date of manufacture.

## Temperature information

| Operating temperature and relative humidity | 10 to 32.2°C (50 to 90°F) and 15 to 80% RH |
| --- | --- |
| | 15.6 to 32.2°C (60 to 90°F) and 8 to 80% RH |
| | Maximum wet-bulb temperature[2]: 22.8°C (73°F) |
| | Non-condensing environment |
| Printer / cartridge / imaging unit long-term storage[1] | 15.6 to 32.2°C (60 to 90°F) and 8 to 80% RH |
| | Maximum wet-bulb temperature[2]: 22.8°C (73°F) |
| Printer / cartridge / imaging unit short-term shipping | -40 to 40°C (-40 to 104°F) |

[1] Supplies shelf life is approximately 2 years. This is based on storage in a standard office environment at 22°C (72°F) and 45% humidity.

[2] Wet-bulb temperature is determined by the air temperature and the relative humidity.

## Laser notice

The printer is certified in the U.S. to conform to the requirements of DHHS 21 CFR, Chapter I, Subchapter J for Class I (1) laser products, and elsewhere is certified as a Class 1 consumer laser product conforming to the requirements of IEC 60825-1:2014, EN 60825-1:2014+A11:2021, and EN 50689:2021.

Class I laser products are not considered to be hazardous. The laser system and printer are designed so there is never any human access to laser radiation above a Class I level during normal operation, user maintenance, or prescribed service conditions. The printer has a non-serviceable printhead assembly that contains a laser with the following specifications:

Class: IIIb (3b) AlGaAs

Nominal output power (milliwatts): 12

Wavelength (nanometers): 770–800

# Power consumption

## Product power consumption

The following table documents the power consumption characteristics of the product.

**Note:** Some modes may not apply to your product.

| Mode | Description | Power consumption (Watts) |
|---|---|---|
| Printing | The product is generating hard-copy output from electronic inputs. | One-sided: 514 (C2335, CS531); 574 (CS632, CS639)<br>Two-sided: 362 (C2335, CS531); 383 (CS632, CS639) |
| Copy | The product is generating hard-copy output from hard-copy original documents. | N/A |
| Scan | The product is scanning hard-copy documents. | N/A |
| Ready | The product is waiting for a print job. | 20.8 (C2335, CS531); 21.3 (CS632, CS639) |
| Sleep Mode | The product is in a high-level energy-saving mode. | 1 |
| Hibernate | The product is in a low-level energy-saving mode. | 0.2 |
| Off | The product is plugged into an electrical outlet, but the power switch is turned off. | 0.2 |

The power consumption levels listed in the previous table represent time-averaged measurements. Instantaneous power draws may be substantially higher than the average.

Values are subject to change. See **www.lexmark.com** for current values.

## Sleep Mode

This product is designed with an energy-saving mode called *Sleep Mode*. The Sleep Mode saves energy by lowering power consumption during extended periods of inactivity. The Sleep Mode is automatically engaged after this product is not used for a specified period of time, called the *Sleep Mode Timeout*.

| Factory default Sleep Mode Timeout for this product (in minutes): | 15<br>CS639: N/A |
|---|---|

By using the configuration menus, the Sleep Mode Timeout can be modified between 1 minute and 120 minutes, or between 1 minute and 114 minutes, depending on the printer model. If the printer speed is less than or equal to 30 pages per minute, then you can set the timeout only up to 60 minutes or 54 minutes, depending on the printer model. Setting the Sleep Mode Timeout to a low value reduces energy consumption, but may increase the response time of the product. Setting the Sleep Mode Timeout to a high value maintains a fast response, but uses more energy.

Some models support a *Deep Sleep Mode*, which further reduces power consumption after longer periods of inactivity.

**Hibernate Mode**

This product is designed with an ultra-low power operating mode called *Hibernate mode*. When operating in Hibernate Mode, all other systems and devices are powered down safely.

The Hibernate mode can be entered in any of the following methods:

- Using the Hibernate Timeout
- Using the Schedule Power modes

| Factory default Hibernate Timeout for this product in all countries or regions | 3 days<br>CS639: N/A |
|---|---|

The amount of time the printer waits after a job is printed before it enters Hibernate mode can be modified between one hour and one month.

**Notes on EPEAT-registered imaging equipment products:**

- Standby power level occurs in Hibernate or Off mode.
- The product shall automatically power down to a standby power level of ≤ 1 W. The auto standby function (Hibernate or Off) shall be enabled at product shipment.

**Off mode**

If this product has an off mode which still consumes a small amount of power, then to completely stop product power consumption, disconnect the power supply cord from the electrical outlet.

Total energy usage

**Total energy usage**

It is sometimes helpful to estimate the total product energy usage. Since power consumption claims are provided in power units of Watts, the power consumption should be multiplied by the time the product spends in each mode in order to calculate energy usage. The total product energy usage is the sum of each mode's energy usage.

# Applicability of Regulation (EU) 2019/2015 and (EU) 2019/2020

Per Commission Regulation (EU) 2019/2015 and (EU) 2019/2020, the light source contained within this product or its component is intended to be used for Image Capture or Image Projection only, and is not intended for use in other applications.

# The UK Product Security and Telecommunications Infrastructure Act 2022 (PSTI Act)—Summary Statement of Compliance

Lexmark International Inc., 740 West New Circle Road, Lexington, KY 40550 USA, declares that this product complies with the applicable security requirements in Schedule 1 of The Product Security and Telecommunications Infrastructure (Security Requirements for Relevant Connectable Products) Regulations 2023. The defined support period for this product can be found at the following web page: **https://www.lexmark.com/firmware-eos**.

A copy of the Statement of Compliance is available for download at the following web page: **https://www.lexmark.com/en_us/about/regulatory-compliance/all-regulatory-docs.html**.

## Thailand NBTC technical standards conformity statement

คำประกาศเรื่องการเป็นไปตามมาตรฐานทางเทคนิคของ กสทช. ประเทศไทย

This telecommunication equipment conforms to the technical standards or requirements of NBTC.

เครื่องโทรคมนาคมและอุปกรณ์นี้มีความสอดคล้องตามมาตรฐานหรือข้อกำหนดทางเทคนิคของ กสทช.

## Regulatory notices for wireless products

This section contains regulatory information that applies only to wireless models.

If in doubt as to whether your model is a wireless model, then see "Wireless support" on page 45.

## Modular component notice

Wireless models contain the following modular component:

Lexmark MarkNet N8450 / AzureWave AW-CM467-SUR; FCC ID:TLZ-CM467; IC:6100A-CM467

To determine which modular components are installed in your particular product, refer to the labeling on your actual product.

## Exposure to radio frequency radiation

The radiated output power of this device is far below the radio frequency exposure limits of the FCC and other regulatory agencies. A minimum separation of 20 cm (8 inches) must be maintained between the antenna and any persons for this device to satisfy the RF exposure requirements of the FCC and other regulatory agencies.

## Innovation, Science and Economic Development Canada

This device complies with Innovation, Science and Economic Development Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

### Innovation, Sciences et Développement économique Canada

Cet appareil est conforme aux normes RSS exemptes de licence d'Innovation, Sciences et Développement économique Canada. Son fonctionnement est soumis aux deux conditions suivantes : (1) cet appareil ne doit pas causer d'interférences et (2) il doit accepter toutes les interférences, y compris les celles qui peuvent entraîner un fonctionnement indésirable.

# European Community (EC) directives conformity

This product is in conformity with the protection requirements of EC Council directive 2014/53/EU on the approximation and harmonization of the laws of the Member States relating to radio equipment.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The EEA/EU authorized representative is: Lexmark International Technology Hungária Kft., 8 Lechner Ödön fasor, Millennium Tower III, 1095 Budapest HUNGARY. The EEA/EU Importer is: Lexmark International Technology S.à.r.l. 20, Route de Pré-Bois, ICC Building, Bloc A, CH-1215 Genève, Switzerland. A declaration of conformity to the requirements of the Directives is available upon request from the Authorized Representative or may be obtained at
**www.lexmark.com/en_us/about/regulatory-compliance/european-union-declaration-of-conformity.html**.

Compliance is indicated by the CE marking:

$$C\boldsymbol{\epsilon}$$

## Restrictions

This radio equipment is restricted to indoor use only. Outdoor use is prohibited. This restriction applies to all the countries listed in the table below:

| AT | BE | BG | CH | CY | CZ | DE | DK | EE |
|----|----|----|----|----|----|----|----|----|
| EL | ES | FI | FR | HR | HU | IE | IS | IT |
| LI | LT | LU | LV | MT | NL | NO | PL | PT |
| RO | SE | SI | SK | TR | UK (NI) | | | |

## EU and other countries statement of radio transmitter operational frequency bands and maximum RF power

This radio product transmits in either the 2.4GHz (2.412–2.472 GHz in the EU) or 5GHz (5.15–5.35, 5.47–5.725 in the EU) bands. The maximum transmitter EIRP power output, including antenna gain, is ≤ 20dBm for both bands.

United Kingdom (UK) conformity

# United Kingdom (UK) conformity

This product is in conformity with the protection requirements of the Radio Equipment Regulations 2017.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The UK Importer is: Lexmark International Ltd, Quantum House, 60 Norden Road, Maidenhead SL6 4AY, United Kingdom. A declaration of conformity is available upon request from the UK Importer or may be obtained at **www.lexmark.com/en_us/about/regulatory-compliance/uk-declaration-of-conformity.html**.

Compliance is indicated by the UKCA marking:

<p align="center">UK<br>CA</p>

### Restrictions or requirements in the UK

This radio equipment is restricted to indoor use only. Outdoor use is prohibited.

### UK statement of radio transmitter operational frequency bands and maximum RF power

This radio product transmits in either the 2.4GHz (2.412–2.472 GHz in the UK) or 5GHz (5.15–5.35, 5.47–5.725 in the UK) bands. The maximum transmitter EIRP power output, including antenna gain, is ≤ 20dBm for both bands.

## Model-specific information

The following information applies only to the CS632 (5031-675, 5031-685) and CS639 (5031-635) printer
models.

## Federal Communications Commission (FCC) compliance information

## statement

This product has been tested and found to comply with the limits for a Class A digital device, pursuant to Part
15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful
interference, and (2) this device must accept any interference received, including interference that may cause
undesired operation.

The FCC Class A limits are designed to provide reasonable protection against harmful interference when the
equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio
frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful
interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful
interference, in which case the user will be required to correct the interference at his own expense.

The manufacturer is not responsible for any radio or television interference caused by using other than
recommended cables or by unauthorized changes or modifications to this equipment. Unauthorized changes
or modifications could void the user's authority to operate this equipment.

**Note:** To assure compliance with FCC regulations on electromagnetic interference for a Class A computing device, use a properly shielded and grounded cable such as Lexmark part number 1021231 for parallel attach or 1021294 for USB attach. Use of a substitute cable not properly shielded and grounded may result in a violation of FCC regulations.

Any questions regarding this compliance information statement should be directed to:

Director of Lexmark Technology & Services

Lexington, KY 40550
Telephone: (859) 232–2000
E-mail: regulatory@lexmark.com

## Innovation, Science and Economic Development Canada compliance statement

This Class A digital apparatus meets all requirements of the Canadian Interference-Causing Equipment Standard ICES-003.

## Avis de conformité aux normes de l'Innovation, Sciences et Développement économique Canada

Cet appareil numérique de classe A est conforme aux exigences de la norme canadienne relative aux équipements pouvant causer des interférences NMB-003.

## European Community (EC) directives conformity

This product is in conformity with the protection requirements of EC Council directives 2014/30/EU, 2014/35/EU, and 2011/65/EU as amended by (EU) 2015/863 on the approximation and harmonization of the laws of the Member States relating to electromagnetic compatibility, safety of electrical equipment designed for use within certain voltage limits, and on the restrictions of use of certain hazardous substances in electrical and electronic equipment.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The EEA/EU authorized representative is: Lexmark International Technology Hungária Kft., 8 Lechner Ödön fasor, Millennium Tower III, 1095 Budapest HUNGARY. The EEA/EU Importer is: Lexmark International Technology S.à.r.l. 20, Route de Pré-Bois, ICC Building, Bloc A, CH-1215 Genève, Switzerland. A declaration of conformity to the requirements of the Directives is available upon request from the Authorized Representative or may be obtained at **www.lexmark.com/en_us/about/regulatory-compliance/european-union-declaration-of-conformity.html**.

This product satisfies the Class A limits of EN 55032 and safety requirements of EN 62368-1.

United Kingdom (UK) conformity

# United Kingdom (UK) conformity

This product is in conformity with the protection requirements of the Electromagnetic Compatibility Regulations 2016, the Electrical Equipment (Safety) Regulations 2016, and the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012.

The manufacturer of this product is: Lexmark International, Inc., 740 West New Circle Road, Lexington, KY, 40550 USA. The UK Importer is: Lexmark International Ltd, Quantum House, 60 Norden Road, Maidenhead SL6 4AY, United Kingdom. A declaration of conformity is available upon request from the UK Importer or may be obtained at **www.lexmark.com/en_us/about/regulatory-compliance/uk-declaration-of-conformity.html**.

This product satisfies the Class A limits of BS EN 55032 and safety requirements of BS EN 62368-1.

# Radio interference notice

**Warning**

This is a product that complies with the emission requirements of EN 55032 Class A limits and immunity requirements of EN 55035. This product is not intended to be used in residential/domestic environments.

This is a Class A product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

# Multiple model information

The following information applies to the CS531 (5031-270, 5031-280) and C2335 (5031-290) printer models.

# Federal Communications Commission (FCC) compliance information statement

This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The FCC Class B limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your point of purchase or service representative for additional suggestions.

The manufacturer is not responsible for radio or television interference caused by using other than recommended cables or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate this equipment.

**Note:** To assure compliance with FCC regulations on electromagnetic interference for a Class B computing device, use a properly shielded and grounded cable such as Lexmark part number 1021231 for parallel attach or 1021294 for USB attach. Use of a substitute cable not properly shielded and grounded may result in a violation of FCC regulations.

This product satisfies the Class B limits of BS EN 55032 and safety requirements of BS EN 62368-1.

STATEMENT OF LIMITED WARRANTY FOR LEXMARK LASER PRINTERS, LEXMARK LED PRINTERS, AND LEXMARK MULTIFUNCTION LASER PRINTERS

## STATEMENT OF LIMITED WARRANTY FOR LEXMARK LASER PRINTERS, LEXMARK LED PRINTERS, AND LEXMARK MULTIFUNCTION LASER PRINTERS

### Lexmark International, Inc., Lexington, KY

This limited warranty applies to the United States and Canada. For customers outside the U.S., refer to the country-specific warranty information that came with your product.

This limited warranty applies to this product only if it was originally purchased for your use, and not for resale, from Lexmark or a Lexmark Remarketer, referred to in this statement as "Remarketer."

### Limited warranty

Lexmark warrants that this product:

—Is manufactured from new parts, or new and serviceable used parts, which perform like new parts

—Is, during normal use, free from defects in material and workmanship

If this product does not function as warranted during the warranty period, contact a Remarketer or Lexmark for repair or replacement (at Lexmark's option).

If this product is a feature or option, this statement applies only when that feature or option is used with the product for which it was intended. To obtain warranty service, you may be required to present the feature or option with the product.

If you transfer this product to another user, warranty service under the terms of this statement is available to that user for the remainder of the warranty period. You should transfer proof of original purchase and this statement to that user.

## Limited warranty service

The warranty period starts on the date of original purchase as shown on the purchase receipt and ends 12 months later provided that the warranty period for any supplies and for any maintenance items included with the printer shall end earlier if it, or its original contents, are substantially used up, depleted, or consumed. Fuser Units, Transfer/Transport Units, Paper Feed items, if any, and any other items for which a Maintenance Kit is available are substantially consumed when the printer displays a "Life Warning" or "Scheduled Maintenance" message for such item.

To obtain warranty service you may be required to present proof of original purchase. You may be required to deliver your product to the Remarketer or Lexmark, or ship it prepaid and suitably packaged to a Lexmark designated location. You are responsible for loss of, or damage to, a product in transit to the Remarketer or the Lexmark designated location.

When warranty service involves the exchange of a product or part, the item replaced becomes the property of the Remarketer or Lexmark. The replacement may be a new or repaired item.

The replacement item assumes the remaining warranty period of the original product.

Replacement is not available to you if the product you present for exchange is defaced, altered, in need of a repair not included in warranty service, damaged beyond repair, or if the product is not free of all legal obligations, restrictions, liens, and encumbrances.

As part of your warranty service and/or replacement, Lexmark may update the firmware in your printer to the latest version. Firmware updates may modify printer settings and cause counterfeit and/or unauthorized products, supplies, parts, materials (such as toners and inks), software, or interfaces to stop working. Authorized use of genuine Lexmark products will not be impacted.

Before you present this product for warranty service, remove all print cartridges, programs, data, and removable storage media (unless directed otherwise by Lexmark).

For further explanation of your warranty alternatives and the nearest Lexmark authorized servicer in your area contact Lexmark on the World Wide Web.

Remote technical support is provided for this product throughout its warranty period. For products no longer covered by a Lexmark warranty, technical support may not be available or only be available for a fee.

## Extent of limited warranty

Lexmark does not warrant uninterrupted or error-free operation of any product or the durability or longevity of prints produced by any product.

Warranty service does not include repair of failures caused by:

—Modification or unauthorized attachments

—Accidents, misuse, abuse or use inconsistent with Lexmark user's guides, manuals, instructions or guidance

—Unsuitable physical or operating environment

—Maintenance by anyone other than Lexmark or a Lexmark authorized servicer

—Operation of a product beyond the limit of its duty cycle

—Use of printing media outside of Lexmark specifications

—Refurbishment, repair, refilling or remanufacture by a third party of products, supplies or parts

—Products, supplies, parts, materials (such as toners and inks), software, or interfaces not furnished by Lexmark

**TO THE EXTENT PERMITTED BY APPLICABLE LAW, NEITHER LEXMARK NOR ITS THIRD PARTY SUPPLIERS OR REMARKETERS MAKE ANY OTHER WARRANTY OR CONDITION OF ANY KIND, WHETHER EXPRESS OR IMPLIED, WITH RESPECT TO THIS PRODUCT, AND SPECIFICALLY DISCLAIM THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND SATISFACTORY QUALITY. ANY WARRANTIES THAT MAY NOT BE DISCLAIMED UNDER APPLICABLE LAW ARE LIMITED IN DURATION TO THE WARRANTY PERIOD. NO WARRANTIES, EXPRESS OR IMPLIED, WILL APPLY AFTER THIS PERIOD. ALL INFORMATION, SPECIFICATIONS, PRICES, AND SERVICES ARE SUBJECT TO CHANGE AT ANY TIME WITHOUT NOTICE.**

## Limitation of liability

Your sole remedy under this limited warranty is set forth in this document. For any claim concerning performance or nonperformance of Lexmark or a Remarketer for this product under this limited warranty, you may recover actual damages up to the limit set forth in the following paragraph.

Lexmark's liability for actual damages from any cause whatsoever will be limited to the amount you paid for the product that caused the damages. This limitation of liability will not apply to claims by you for bodily injury or damage to real property or tangible personal property for which Lexmark is legally liable. **IN NO EVENT WILL LEXMARK BE LIABLE FOR ANY LOST PROFITS, LOST SAVINGS, INCIDENTAL DAMAGE, OR OTHER ECONOMIC OR CONSEQUENTIAL DAMAGES.** This is true even if you advise Lexmark or a Remarketer of the possibility of such damages. Lexmark is not liable for any claim by you based on a third party claim.

This limitation of remedies also applies to claims against any Suppliers and Remarketers of Lexmark. Lexmark's and its Suppliers' and Remarketers' limitations of remedies are not cumulative. Such Suppliers and Remarketers are intended beneficiaries of this limitation.

## Additional rights

Some states do not allow limitations on how long an implied warranty lasts, or do not allow the exclusion or limitation of incidental or consequential damages, so the limitations or exclusions contained above may not apply to you.

This limited warranty gives you specific legal rights. You may also have other rights that vary from state to state.
