Safety Information

Always follow basic safety precautions when using this product to reduce risk of injury from fire or electric shock.

- Read and understand all instructions in the documentation that comes with the printer.
- Observe all warnings and instructions marked on the product.
- Unplug this product from wall outlets before cleaning.
- Do not install or use this product near water, or when you are wet.
- Install the product securely on a stable surface.
- Install the product in a protected location where no one can step on or trip over the line cord, and the line cord cannot be damaged.
- If the product does not operate normally, see **Solve a problem** in this guide.
- There are no user-serviceable parts inside. Refer servicing to qualified service personnel.

2	Paper path cover
3	Cartridge access door
4	PIN label
5	Printhead
6	Cartridges

 **NOTE:** Cartridges must be kept in the printer to prevent possible print quality issues or printhead damage. Avoid removing supplies for extended periods of time. Do not turn the printer off when a cartridge is missing.

Rear view

Printer parts on the rear.

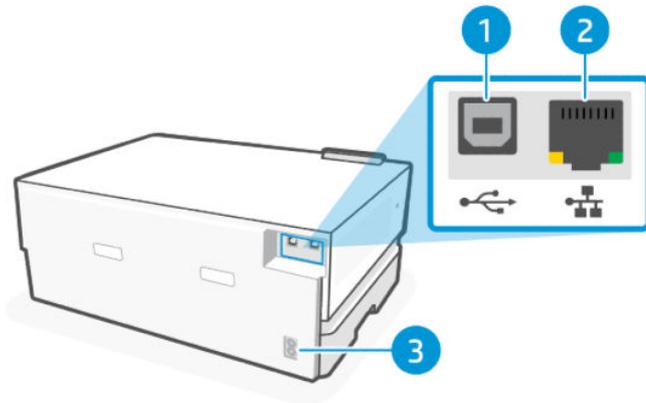

Table 1-3 Printer rear view

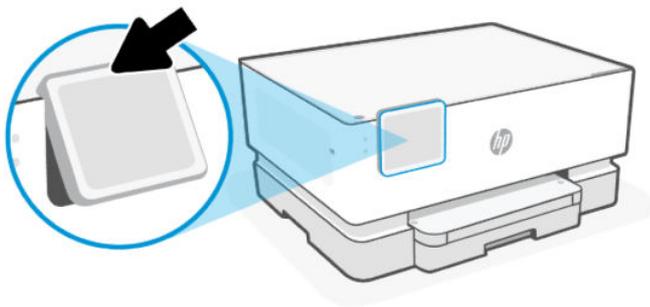

Feature	Description
1	Rear USB port
2	Ethernet network port
3	Power connection

Control panel features

The control panel provides direct interaction, including lights to indicate status, errors, and more.

Tilt the control panel

Tilt the control panel for easier viewing. Push the upper part of the control panel to tilt it upwards and push the lower part to tilt it downwards.

Control panel display

Check printer status, perform printer tasks, and change printer settings.

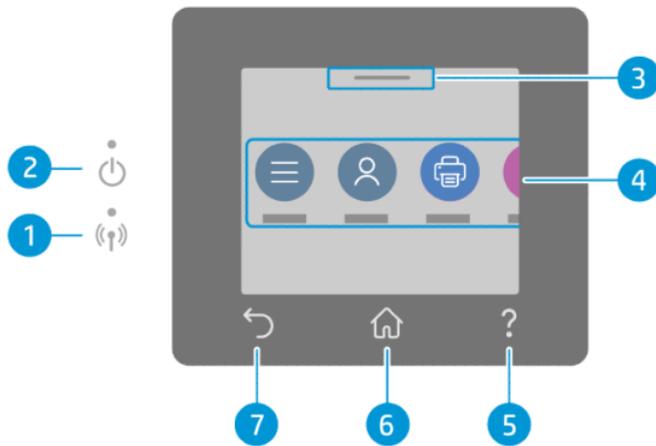

Table 1-4 Control panel display

Feature	Icon	Description
1	Wi-Fi light	<p>Indicates the printer Wi-Fi connection status.</p> <ul style="list-style-type: none"> • Solid blue light indicates that the Wi-Fi connection is established and you can print. • Slow blinking light with pause indicates that Wi-Fi is on, but not configured. See Connect to a Wi-Fi network. • Slow blinking light indicates that Wi-Fi is on, but the printer is not connected to a network. Make sure your printer is within the range of Wi-Fi signal. • Fast blinking light indicates Wi-Fi network connection error. See the message on the printer control panel display. • If the Wi-Fi light is off, Wi-Fi is turned off.
2	Power light	Indicates whether the printer is turned on.
3	Status Center	Touch to view the printer status.
4	Function buttons	Touch to perform common tasks.
5	Help button	Provides contextual help content if it is available for the current task.
6	Home button	Returns to the Home screen from any other screen.
7	Back button	Returns to the previous menu.

Function buttons

Perform printer tasks.

Table 1-5 Function buttons

Function Button	Description
	Access printer functions, view and change printer settings, print reports, and get help information.

Table 1-5 Function buttons (continued)

Function Button	Description
 (HP OfficeJet Pro 9110b series)	Authenticates users to modify printer features. Depending on permissions set by the admin, some users may not be able to modify or use certain features. The default PIN is on the PIN label inside the printer access door. You can change the PIN when you first set up the printer or in the embedded web server (EWS).
	Print from a USB device or stored jobs.
	Print from the USB device.
	Check loaded paper size and type, and change paper settings if needed.
	Check the estimated ink levels and cartridge information.
	Check the stored print jobs in the printer memory for printing at a later time.
	Check the contextual help content if it is available for the current operation.

Change printer settings

Use the control panel to view or change printer settings. You can also change printer settings using the HP software or the embedded web server (EWS).

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Touch the desired option to make the necessary changes.

 **TIP:** Touch **Home**  to return to the main screen.

Use HP software

HP software helps you perform printer tasks from a mobile device or computer.

- Set up and connect your printer.
- Print and scan documents and photos.
- Share documents through email and other applications.

- Manage printer settings, check printer status, print reports, and order supplies.

NOTE:

- You can download the HP software from the app store for your device.

If the printer is managed by your IT department, contact the system administrator to set up the HP software.

- HP software supports mobile devices and computers running on certain versions of iOS, Android, Windows, and macOS.

Visit hp.com/support for more information on systems requirements.

- HP software is only available in some languages and only supports some file formats. Some features are only available on certain printers or models.
-

Install the HP software and create an HP account:

1. Visit 123.hp.com to download and install the HP software on your device.
2. Open the HP software.
If prompted, create or sign in to an HP account and register the printer.
3. Connect the printer.
See [Connect your printer](#).

Turn printer off

Press the **Power** button to turn off the printer. Wait until the power light turns off before unplugging the power cord or turning off the power strip.

CAUTION: When turning off the printer, always make sure to follow this procedure to avoid possible problems.

2 Connect your printer

Learn about different ways to connect your printer.

If the printer is managed by your IT department, follow the system administrator instructions for connecting the printer.

Connect to a Wi-Fi network

Make sure your network is ready before connecting your printer to a Wi-Fi network.

- The printer is not connected to the network using an Ethernet cable.
- The printer Wi-Fi is turned on and the Wi-Fi network is set up and working properly. The blue Wi-Fi light on the printer control panel is lit when Wi-Fi is turned on.
- The printer and the devices that use the printer are on the same network (subnet). While connecting the printer, you might be prompted to enter the Wi-Fi network name (SSID) and a Wi-Fi password.

TIP:

- Visit hpsmart.com/wirelessprinting for more information about setting up and using the printer wirelessly.
 - If you run into any problem with Wi-Fi connect, see [Restore original network settings](#).
-

Check Wi-Fi status

You can view the status of the printer Wi-Fi connection from the printer control panel.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Touch **Network**, and then touch **Wi-Fi**.
4. Touch **View Details**.

Turn on Wi-Fi

You can turn on Wi-Fi from the printer control panel.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Touch **Network**, and then touch **Wi-Fi**.
4. Touch the toggle button next to **Wi-Fi** to enable the Wi-Fi mode.

NOTE:

- The blue Wi-Fi light on the printer control panel is lit when Wi-Fi is turned on.

- If the printer has never been configured to connect to a Wi-Fi network before, turning on Wi-Fi mode automatically starts the **Wi-Fi Setup Wizard**.
-

Connect to a Wi-Fi network using the HP software

Use the HP software on your computer or mobile device to set up or connect the printer to your Wi-Fi network.

See [Use HP software](#).

For HP OfficeJet Pro 9110b series, set up the printer using a computer; do not use mobile devices.

NOTE:

- HP software uses Bluetooth for printer setup. It does not support printing using Bluetooth.
 - Turn on Bluetooth and location services on your mobile device.
 - Make sure your printer Wi-Fi is turned on and the printer is in Wi-Fi setup mode.
 - Make sure your computer or mobile device is connected to the same Wi-Fi network as the printer.
-

1. Open the HP software on your device.

If prompted, create or sign in to an HP account and register the printer.

2. In the software, follow the on-screen instructions to add or connect the printer.

If prompted for a password, enter the default printer PIN available on the label inside the printer access door. If you have changed the password, enter your new password.

When the printer connects successfully, the Wi-Fi light  stops blinking and remains lit.

Connect to a Wi-Fi network using the control panel

Use the **Wi-Fi Setup Wizard** or **Wi-Fi Protected Setup** from the printer control panel to connect the printer wirelessly.

NOTE: If the printer has never been configured to connect to a Wi-Fi network before, turning on the Wi-Fi capability automatically starts the **Wi-Fi Setup Wizard**.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Touch **Network**, and then touch **Wi-Fi**.
4. Touch the toggle button next to **Wi-Fi** to enable the Wi-Fi mode.
5. Touch **Wi-Fi Setup Wizard** or **Wi-Fi Protected Setup**, and then follow the on-screen instructions to add the printer to your network.

The blue Wi-Fi light on the printer control panel is lit when Wi-Fi is turned on.

After connecting the printer wirelessly, visit 123.hp.com to download and install the HP software on your device.

Connect to an Ethernet network

You can connect your printer to an Ethernet network.

 **NOTE:** The Wi-Fi connection is automatically disabled when you connect the Ethernet cable.

1. Connect your computer to the router.
2. Connect your printer and router using an Ethernet cable.
3. Open the HP software on your computer.
If prompted, create or sign in to an HP account and register the printer.
4. In HP software, add the printer, and then follow the on-screen instructions to add or connect the printer.

Connect using a USB cable

You can connect your printer using a USB cable.

 **NOTE:** While you are setting up the printer for the first time and to use all the available features of this printer, complete setup using HP software and an Internet connection. After setup, you can print using a USB cable if needed.

1. Connect the printer and computer using a USB cable.
2. Open the HP software on your computer.
If prompted, create or sign in to an HP account and register the printer.
3. In HP software, add the printer, and then follow the on-screen instructions to add or connect the printer.

Change the connection type

If you have already connected your printer, you can change the connection from USB to Wi-Fi or from Wi-Fi to USB.

USB to Wi-Fi

Unplug the USB cable from the printer and connect the printer to your network.

See [Connect to a Wi-Fi network](#).

Wi-Fi to USB

Change the printer connection from Wi-Fi to USB.

1. Connect the printer and computer using a USB cable.
2. Open the HP software on your computer.
If prompted, create or sign in to an HP account and register the printer.
3. In HP software, add the printer, and then follow the on-screen instructions to add or connect the printer.

3 Load media

Learn how to load paper and change settings.

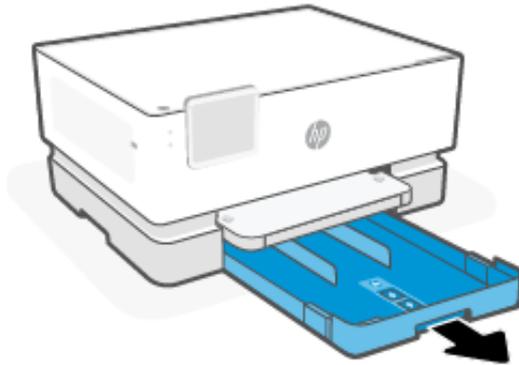

Load paper

Load a stack of paper into the tray.

 **NOTE:**

- Remove any paper before loading a different paper type or size.
- Do not load paper while the printer is printing.

1. Pull out the input tray.

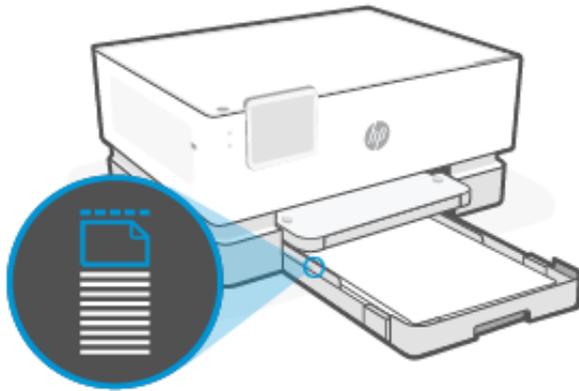

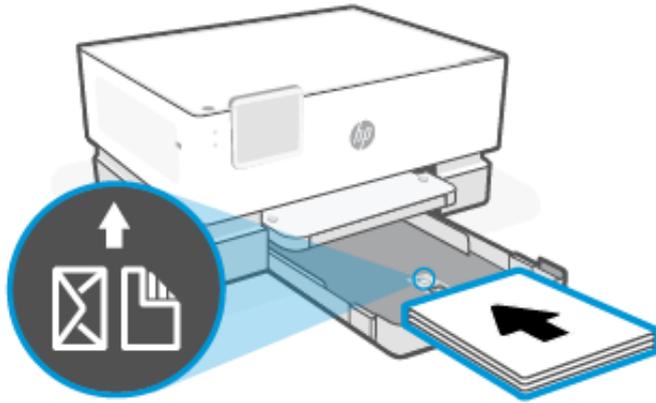

2. Slide the paper guides to the edges of the tray.

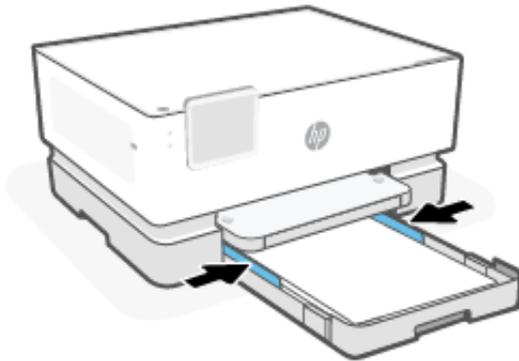

3. Insert paper with the side to be printed facing down.

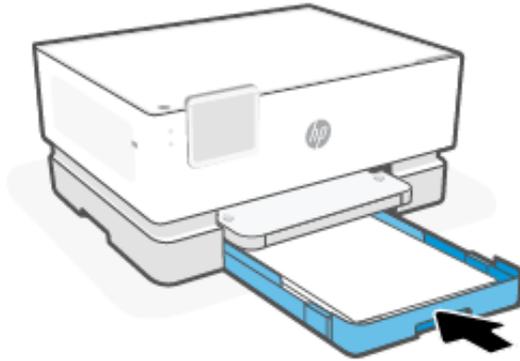

Make sure the stack of paper is aligned with the appropriate paper-size indicators and does not exceed the stack-height marking in the tray.

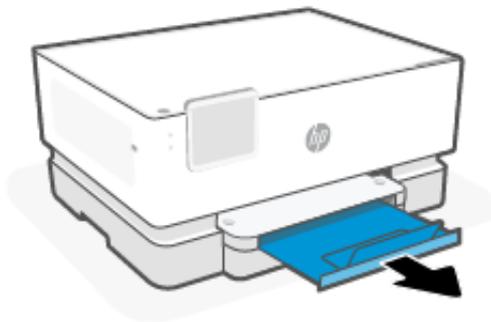

4. Adjust the paper guides until they touch the edges of the paper stack.

5. Gently close the input tray.

6. Change or retain the paper settings on the control panel. Make sure the settings match the paper type and size loaded.
7. Pull out the output tray extension.

Load envelopes

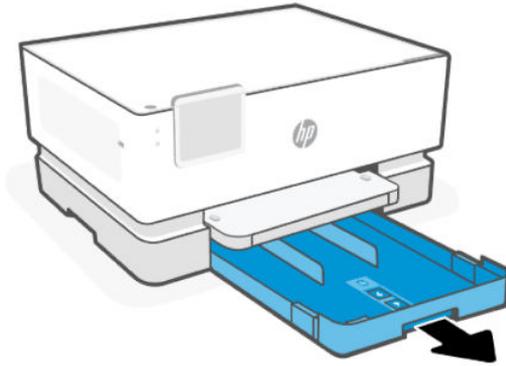

Load envelopes into the tray.

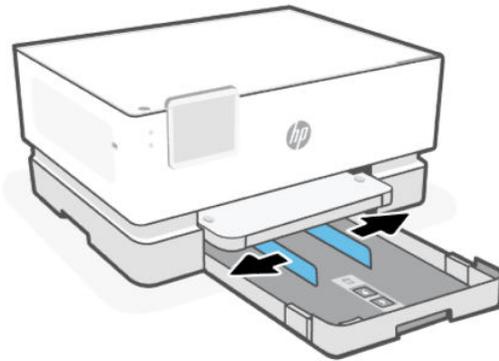

NOTE:

- Remove any paper before loading a different paper type or size.
- Do not load paper while the printer is printing.

1. Pull out the input tray.

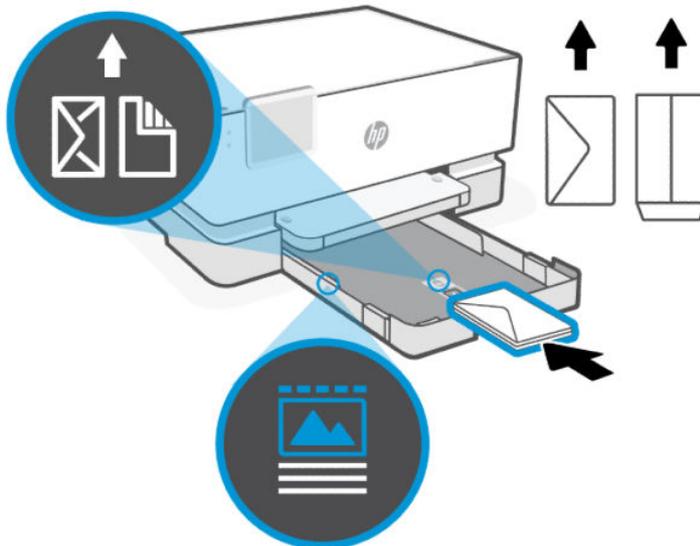

2. Slide the paper guides to the edges of the tray.

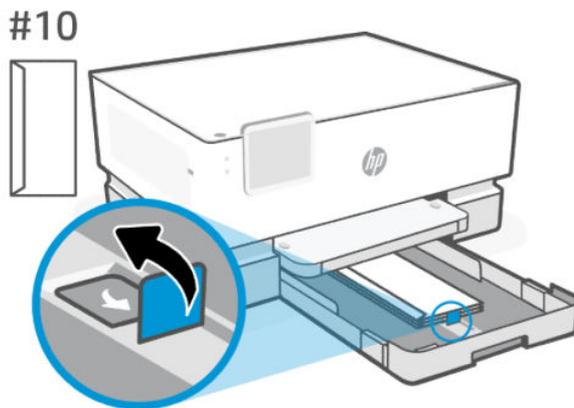

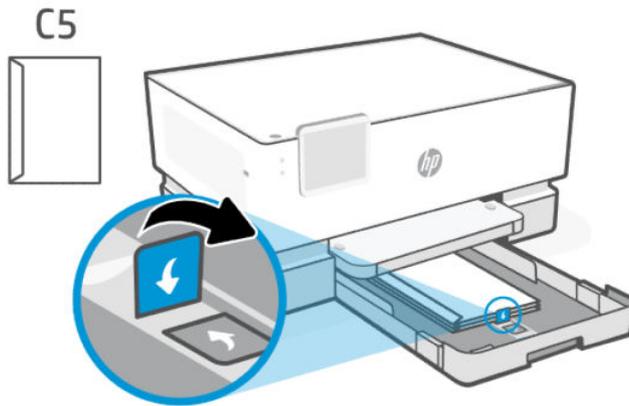

3. Insert envelopes in portrait orientation and with the side to be printed facing down.

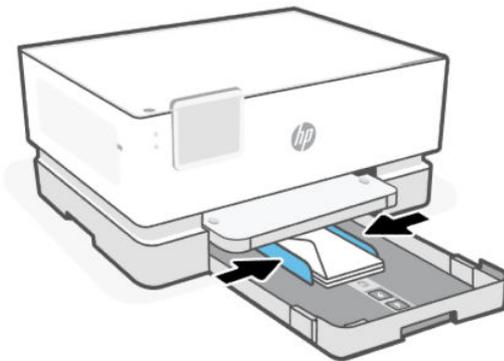

Make sure the stack of envelopes is aligned with the appropriate paper-size indicators and does not exceed the stack-height marking in the tray.

 **TIP:** Use the envelope guide to load C5 and #10 envelopes with long flaps. You do not need to use the guide for envelopes with short flaps.

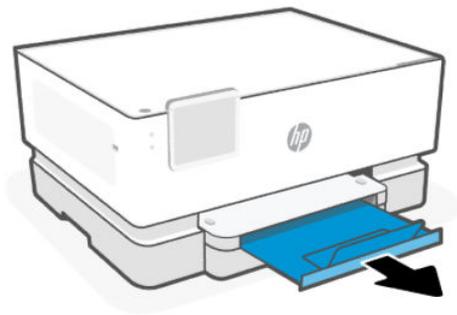

-
4. Adjust the paper guides until they touch the edges of the paper stack.

5. Gently close the input tray.

6. Change or retain the paper settings on the control panel. Make sure the settings match the paper type and size loaded.
7. Pull out the output tray extension.

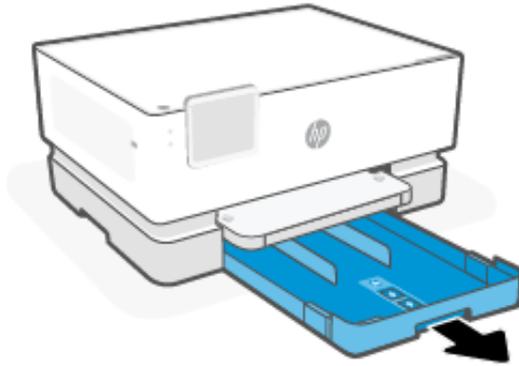

Load cards and photo paper

Load cards and photo paper into the tray.

 **NOTE:**

- Remove any paper before loading a different paper type or size.
 - Do not load paper while the printer is printing.
-

1. Pull out the input tray.

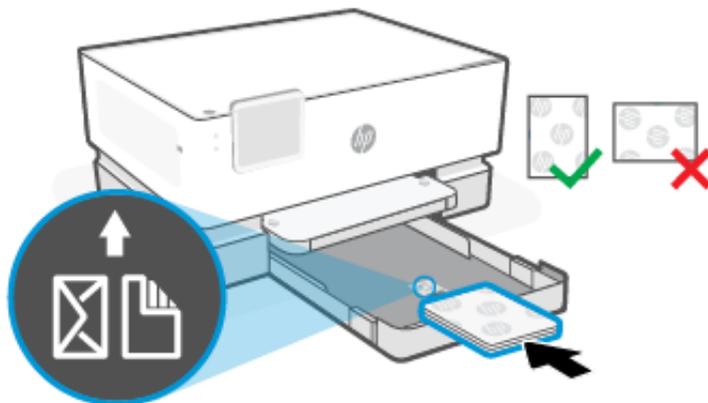

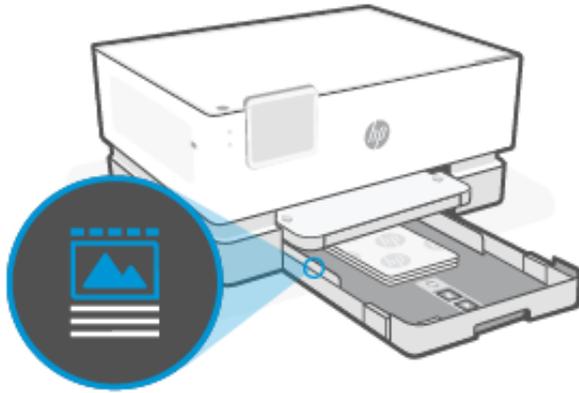

2. Slide the paper guides to the edges of the tray.

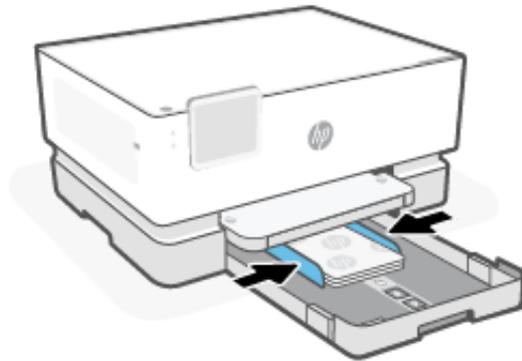

3. Insert paper with the side to be printed facing down.

Make sure the stack of paper is aligned with the appropriate paper-size indicators and does not exceed the stack-height marking in the tray.

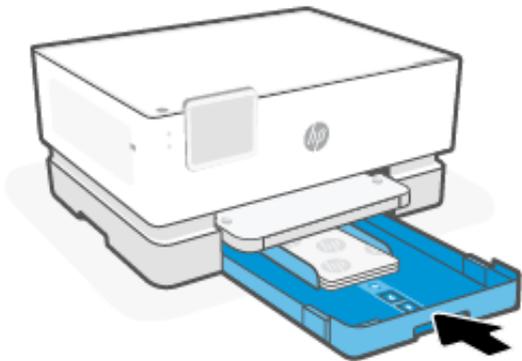

4. Adjust the paper guides until they touch the edges of the paper stack.

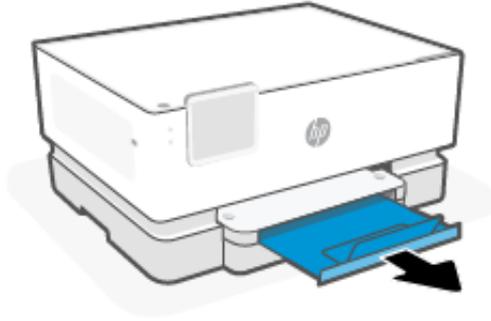

5. Gently close the input tray.

6. Change or retain the paper settings on the control panel. Make sure the settings match the paper type and size loaded.

7. Pull out the output tray extension.

Change the default paper settings

The printer can automatically detect whether the input tray has paper loaded and detect whether the loaded paper is large, small, or medium width. You can change the default large, medium, or small paper size detected by the printer.

1. On the control panel Home screen, swipe right and touch **Trays**.
2. Select the tray and touch **Modify** to make the desired changes.
3. Touch **Done**.

Paper basics

The printer is designed to work well with most types of office paper. It is best to test a variety of paper types before buying large quantities.

Use HP paper for optimum print quality. Visit hp.com for more information about HP paper.

HP recommends plain papers with the ColorLok logo for printing everyday documents. All papers with the ColorLok logo are independently tested to meet high standards of reliability and print quality, and produce documents with crisp, vivid color, bolder blacks, and that dry faster than ordinary plain papers. Look for papers with the ColorLok logo in a variety of weights and sizes from major paper manufacturers.

Tips for selecting and using paper

For best results, follow the guidelines when loading paper into a tray.

- Load only one type and one size of paper at a time.
- Make sure the paper is loaded correctly.
- Do not overload the tray.

- Avoid loading the following paper to prevent jams and poor print quality:
 - Multipart forms
 - Media that is damaged, curled, or wrinkled
 - Media with cutouts or perforations
 - Media that is heavily textured, embossed, or does not accept ink well
 - Media that is too lightweight or stretches easily
 - Media that contains staples or clips

4 Configure your printer

Learn how to configure your printer using the printer control panel and the embedded web server (EWS).

Configure using the control panel

You can change settings using the control panel:

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Select the feature and change the desired settings.

Configure using the embedded web server (EWS)

The EWS is the printer homepage accessed through a web browser. Use the EWS to manage printer functions and settings from your computer or mobile device.

- View the printer status information.
- Check the information and status of the printing supplies.
- Receive notification of printer and supplies events.
- View and change the network and the printer settings.

Things to note when accessing the EWS.

- If the web browser displays a message indicating that the website is unsafe, select the option to continue. Accessing the website does not harm your device.
- Depending on how the printer is connected, some features in the EWS might not be available.
- For your security, some settings in the EWS are password-protected.
If prompted for a password, enter the default printer PIN available on the label inside the printer access door. If you have changed the password, enter your new password.
- The EWS is not accessible beyond the network firewall.

Use the EWS to view or change IP configuration settings, and manually set an IPv4 address, subnet mask and default gateway.

Open the embedded web server (EWS)

Open a web browser and type the IP address or hostname of the printer.

See [Find printer IP address](#).

If prompted for a password, enter the default printer PIN available on the label inside the printer access door. If you have changed the password, enter your new password.

NOTE: You can also open the EWS using the HP software.

Find printer IP address

The IP address for your printer is a unique address on the network that is used to connect to other devices.

- For printer connected using the **Wi-Fi Direct** connection, use this IP address: 192.168.223.1
- For printer connected using the **Wi-Fi** connection, touch the **Status Center** on the printer control panel to view the IP address.

Alternatively, from the control panel Home screen, touch **Menu**, scroll to **Utilities** and touch **Settings**, touch **Network**, touch **Wi-Fi**, and then touch **View Details**.

View or change network settings

When troubleshooting or setting up your printer, it might be necessary to view or edit its network settings.

1. Open the EWS.
2. From the left menu, click **Network**:
 - To view network information, click **Network Summary**.
 - To change network settings, click **Network Settings**.

Manually change IPv4 and IPv6 TCP/IP parameters

It might be necessary to manually configure a printer IP address when the printer is not detected on your network.

1. Open the EWS.
2. From the left menu, click the **Network** tab, and then click the **Network Settings** tab.
3. Click **IP Settings**.
4. On the **IP Settings** page, click the **Protocols** drop-down menu, and then select one of the following:
 - **IPv4 Only**
 - **IPv6 Only**
 - **Both IPv4 and IPv6**

Assign or change the system password

Assign an administrator password using the embedded web server (EWS) to prevent unauthorized users from changing the printer settings.

1. Open the EWS.
2. From the left menu, click **Security**, and then click **Password Settings**.
3. On the **Admin Account Password** page, enter the password in the **New Password*** field.
4. Re-enter the password in the **Confirm Password** field.

5. Click **Apply**.

NOTE: Make note of the password and store it in a safe place.

Change energy-conservation settings

The printer includes several economy features to conserve energy and supplies.

See [Power management](#) for more information on printer energy-conservation settings.

Update printer

HP periodically releases firmware updates to enhance product functionality and fix issues. By default, if the printer is connected to the internet, the printer automatically checks for updates at regular intervals.

You can change the default setting for automatic updates or follow instructions from your IT administrator.

Update printer using the control panel

You can update your printer firmware manually using the control panel.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Touch **Firmware Update**, touch **Next**, and then select any of the desired option:
 - **Auto Update (Recommended):** The printer automatically checks for and installs new firmware updates.
 - **Notify:** The printer automatically checks for new firmware updates and displays a notification on the control panel when an update is available.
 - **Do Not Check:** The printer does not automatically check for any updates.

Update printer using the embedded web server (EWS)

You can update your printer firmware using the EWS.

1. Open the EWS.

See [Open the embedded web server \(EWS\)](#).

If prompted for a password, enter the default printer PIN available on the label inside the printer access door. If you have changed the password, enter your new password.

2. From the left menu, click **General**, and then click **Firmware Update**.
3. On the **Firmware Information** page, click **Check for Update**.

If a printer update is available, the printer installs the update and restarts.

NOTE: If prompted for proxy settings, follow the on-screen instructions to set up a proxy server. If you do not have the details, contact your network administrator or the person who set up the network.

5 Print

Learn how to print from your computer or mobile device.

Install HP software on smartphone, laptop, desktop computer, or other devices to print, scan, and manage your printer.

Visit 123.hp.com for more information.

Follow your IT administrator instructions to install the drivers.

Print from a Windows computer

You can print from the file menu of most apps.

Make sure you have installed the HP software. See [Use HP software](#).

1. Open the document you wish to print.
2. From the **File** menu in your software program, select the **Print** option.

NOTE: Make sure your printer is selected from the list of available printers.

3. Click the button that opens the **Properties** dialog box.

Depending on your software application, this button might be called **Properties**, **Options**, **Setup**, or **Preferences**.

4. Change any print settings if needed, and click **OK**.
5. Click **Print** or **OK** to print.

Print from a Mac computer

Use the Print command from any open file.

1. If you are printing for the first time, complete the following steps.
 - a. Open **System Preference**, and select **Printers & Scanners**.
 - b. Click the **Add** button/icon **+**, select the printer from the printer list, and then click **Add**.

2. Open the document you want to print and use the **Print** command.

Make sure your printer is selected from the list of available printers.

3. Change any print settings if needed.
4. Click **Print** to print.

Print from mobile devices

You can print documents and photos from your mobile devices using HP software, AirPrint, or the HP Print Service Plugin.

- **HP software:** Visit hp.com/mobileprinting for more information on mobile printing.
- **iOS:** Devices running iOS 4.2 or later have AirPrint preinstalled.
- **Android:** Download the HP Print Service Plugin (supported by most Android devices) from the Google Play Store and enable it on your device.

Print using Wi-Fi Direct

With Wi-Fi Direct, you can directly connect your computer or mobile device to the printer and print wirelessly without connecting to an existing wireless network.

NOTE:

- Up to 5 computers and mobile devices can connect to the printer using a Wi-Fi Direct connection.
- Make sure to turn on Wi-Fi Direct on your printer before printing from your device. You can turn on Wi-Fi Direct using the printer control panel or the embedded web server (EWS).

-
1. On the control panel Home screen, touch **Menu**.
 2. Scroll to **Utilities** and touch **Settings**.
 3. Touch **Network**, and then touch **Wi-Fi Direct**.
 4. Touch the toggle button next to **Wi-Fi Direct** to turn it on.

Visit hp.com/go/wifidirectprinting to learn how to use Wi-Fi Direct and for troubleshooting information.

Tips for successful printing

To print successfully, make sure you have appropriate printer settings, sufficient ink in the HP cartridges, and paper loaded correctly in the trays.

You can check the printer settings in the HP software, the embedded web server (EWS), and your software applications.

Ink tips

Following are the ink tips for successful printing:

- If the print quality is not acceptable, see [Printing issues](#).
- Use Original HP cartridges.

Original HP cartridges are designed and tested with HP printers and papers to help you easily produce great results, time after time.

NOTE:

- HP cannot guarantee the quality or reliability of non-Original HP supplies. Product service or repairs required as a result of using a non-Original HP supply will not be covered under warranty.

- To determine if you have purchased Original HP cartridges, visit hp.com/go/anticounterfeit for more information.
-

- Make sure all cartridges are installed correctly.

See [Replace cartridges](#).

- Check the estimated ink levels to make sure that there is sufficient ink.

See [Check estimated ink levels](#).

 **NOTE:** Ink level warnings and indicators provide estimates for planning purposes only. When an indicator shows low ink levels, consider having a replacement cartridge available to avoid possible printing delays. You do not need to replace cartridges until you are prompted to.

Paper loading tips

Following are the paper loading tips for successful printing:

- Make sure that the paper is loaded in the main tray properly, and set the correct media size and media type. Upon loading paper in main tray, you will be prompted to set the media size and media type from the control panel.

See [Load media](#).

- Load a stack of paper (not just one page). All the paper in the stack must be of the same size and type to avoid a paper jam.
- Load paper with the print-side down.
- Make sure paper is loaded in the main tray lays flat and the edges are not bent or torn.
- Adjust the paper-width guides in the main tray to fit snugly against all paper. Make sure that the guides do not bend the paper in the tray.

6 Manage cartridges

Manage and order print supplies.

Dynamic Security Enabled Printers

This printer is intended to work only with cartridges that have a new or reused HP chip. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges.

The printer uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates delivered over the internet will maintain the effectiveness of the dynamic security measures and block cartridges that previously worked.

Updates can improve, enhance, or extend the printer's functionality and features, protect against security threats, and serve other purposes, but these updates can also block cartridges using a non-HP chip from working in the printer, including cartridges that work today. Unless you are enrolled in certain HP programs such as Instant Ink or use other services that require automatic online firmware updates, most HP printers can be configured to receive updates either automatically or with a notification that allows you to choose whether to update or not. For more information on dynamic security and how to configure online firmware updates, please go to www.hp.com/learn/ds.

Tips for handling cartridges and printhead

The following tips help maintain HP cartridges and ensure consistent print quality.

Visit hp.com/supplies for more information.

- Cartridges can be left in the printer for extended periods of time. However, to assure optimal cartridge health, be sure to turn off the printer properly when the printer is not in use.
- Make sure you leave the cartridges installed.
- Make sure you turn off the printer properly to avoid damage to the cartridges.
- Keep all cartridges in the original sealed packages until they are needed.
- Store cartridges at room temperature (15-35° C or 59-95° F).
- Dropping, jarring, or rough handling during installation can cause temporary printing problems.
- If you have installed a refilled or re-manufactured cartridge or a cartridge that has been used in another printer, the ink level indicator might be inaccurate or unavailable.
- This printer is designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause your printer to fail. If this happens, insert a new cartridge (Original HP cartridges) to continue printing.
- Do not clean the printhead unnecessarily. This wastes ink and shortens the life of the cartridges.
- Some color ink is used even when printing with black cartridge only
 - Ink is used in a number of ways throughout the inkjet printing process.

- Ink from the cartridges is used in the printing process in a number of different ways, including in the initialization process, which prepares the printer and cartridges for printing, and in printhead servicing, which keeps print nozzles clear and ink flowing smoothly. In addition, some residual ink is left in the cartridge after it is used, and some ink evaporates.
- If you are transporting the printer, follow these tips to prevent ink leaks or printer damage.
 - Make sure you turn off the printer by pressing the **Power** button. Wait until all sounds of internal motion stop before unplugging the printer.
 - The printer must be transported sitting flat, it must not be placed on its side, back, front, or top.

Check estimated ink levels

You can check estimated ink levels using the printer control panel.

Alternatively, you can also check estimated ink levels using the HP software and the embedded web server (EWS).

1. On the control panel Home screen, swipe right and then touch **Supplies**.
2. Touch **Ink Cartridges**.

 **NOTE:** Ink level alerts and indicators provide estimates for planning purposes only. When you receive a low-ink alert, consider having a replacement cartridge available to avoid possible printing delays. You do not have to replace the cartridges until prompted to do so.

Order cartridges

Before ordering cartridges, visually check the labels on the ink to locate the ink numbers. Use only the replacement cartridges that have the same cartridge number as the cartridge you are replacing.

- Visit hp.com/supplies to order Original HP supplies for the printer.

If prompted, choose your country/region, and then follow the prompts to find the right ink for your printer.

 **NOTE:** Ordering ink online is not supported in all countries/regions. If it is not available in your country/region, you may still view supplies information and print a list for reference when shopping at a local HP reseller.

- In the embedded web server (EWS), click **Supplies**, click **Cartridges**, scroll down and then click **Order Supplies** under Notes.

You can find the cartridge number in the following places:

- On the label of the cartridge you are replacing.
- On a sticker inside the printer. Open the cartridge access door to locate the sticker.

 **NOTE:** The **Setup** cartridge that comes with the printer is not available for separate purchase.

Replace cartridges

Replace cartridges with new Original HP cartridges when ink levels are too low and the cartridges no longer yield good print quality.

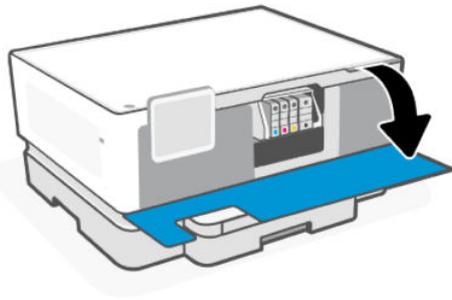

See [HP inkjet supplies recycling program](#).

⚠ CAUTION: HP recommends that you replace any missing or damaged cartridges as soon as possible to avoid print quality issues and possible extra ink usage or damage to the ink system. Never turn off the printer when cartridges are missing.

📝 NOTE:

- Not all cartridges are available in all countries/regions.
 - If ink gets on to your clothing, wipe it off with a dry cloth and wash the clothing in cold water. Hot water sets ink into the fabric.
 - Make sure that the printer is turned on.
-

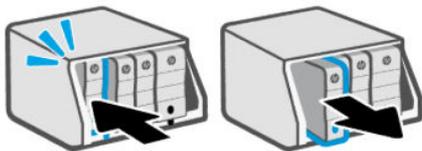

1. Open the front door.

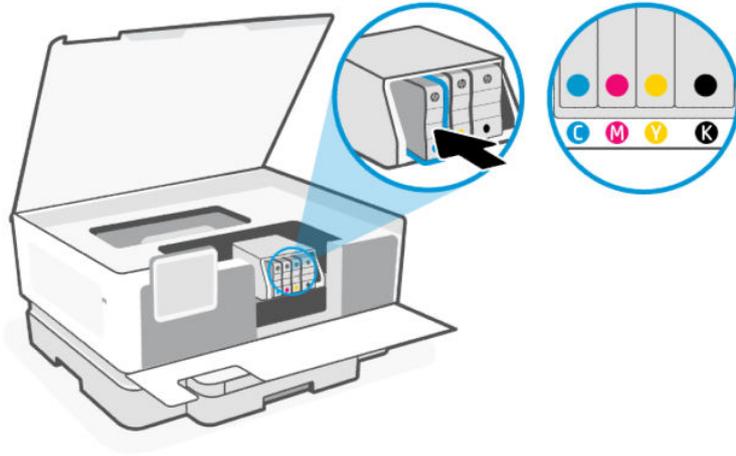

2. Open the cartridge access door, and then wait until the carriage stops moving.

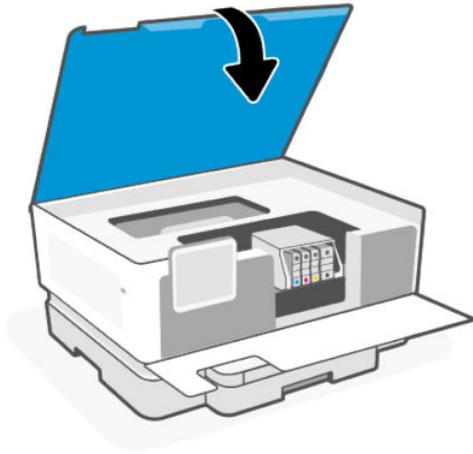

3. Press the front of the cartridge to release it, and then remove it from the slot.

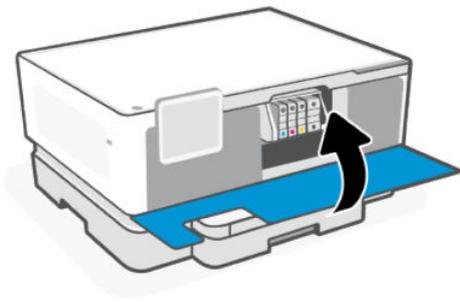

4. Remove the new cartridge from its packaging.
5. Recycle the used cartridge. Visit hp.com/recycle to recycle the used cartridge.
6. Insert each cartridge securely into the indicated slot. Make sure the color-coded letter on the cartridge matches that on the slot.

7. Repeat these steps to replace the other cartridges.
8. Close the cartridge access door.

9. Close the front door.

Store supply user data

The HP cartridges used with this printer contain a memory chip that assists in printer operation. This memory chip may store a limited set of supply and printer usage data, which may include: job size, types of job, media type, and printing frequency.

HP collects a sampling of the memory chips from cartridges returned to HP's free return and recycling program (HP Planet Partners: hp.com/recycle). HP partners who assist in recycling this cartridge might have access to this data, as well. Any third party possessing the cartridge might have access to information on the memory chip.

This information helps HP perform analytics for business operations, customer support, and product improvement.

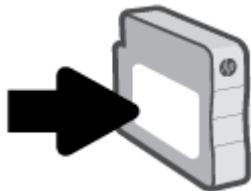

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Touch **Supplies**, and then touch the toggle button next to **Store Supply Usage Data** to turn it on or off.

Touch the toggle button next to **Turning on "Cartridge Protection" will permanently protect the cartridges** to turn it on or off.

Cartridge warranty information

The HP cartridge warranty is applicable when the cartridge is used in its designated HP printing device. This warranty does not cover HP ink cartridges that have been refilled, remanufactured, refurbished, misused, or tampered with.

During the warranty period the cartridge is covered as long as the HP ink is not depleted and the end of warranty date has not been reached. The end of warranty date, in YYYY/MM format, may be found on the cartridge as indicated:

Visit hp.com/supplies for more information about the supplies limited warranty, and then navigate to the warranty section of the site.

7 Solve a problem

Solve common printer problems.

You can get help from the HP software and the printer control panel.

- **HP software:** Provides alerts for printer issues (jams and other problems), links to help content, and options to contact support for additional assistance.

See [Use HP software](#) for more information.

- **Printer control panel:** Touch the **Help** button  to access the Help menu, contextual help, and also animations for some tasks.

If the suggestions do not solve the problems, try getting help using one of the support services, contact HP support.

Visit hp.com/support for more information.

Jams and paper-feed issues

Learn how to troubleshoot jams and paper-feed issues.

Possible jam locations

Paper jams can occur in the following areas of the printer.

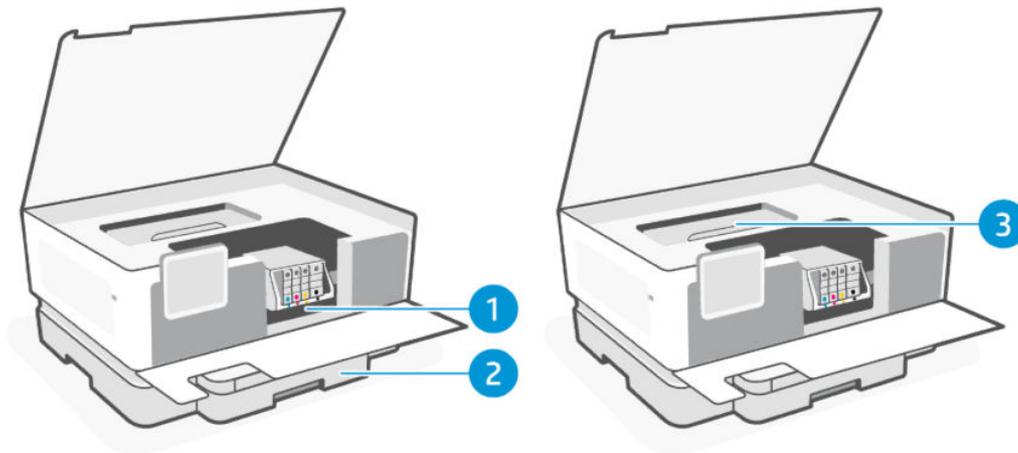

Table 7-1 Possible jam locations

Feature	Description
1	Print zone
2	Input tray
3	Paper path cover

Remove jammed paper

Look in all areas where jams can occur and remove any jammed paper or foreign objects found.

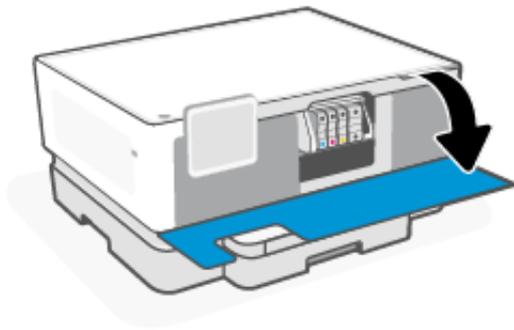

⚠ CAUTION:

- Do not use sharp objects, such as tweezers or needle-nose pliers, to remove jams.
 - When removing jammed paper, use both hands to pull the paper straight out from the printer.
 - To help avoid additional paper jams, make sure to remove all small pieces of paper and foreign objects found.
-

Clear a paper jam from print zone

Remove any objects, such as paper, blocking the print zone.

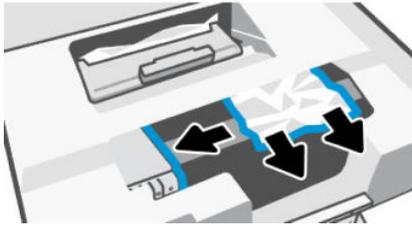

1. Open the front door.

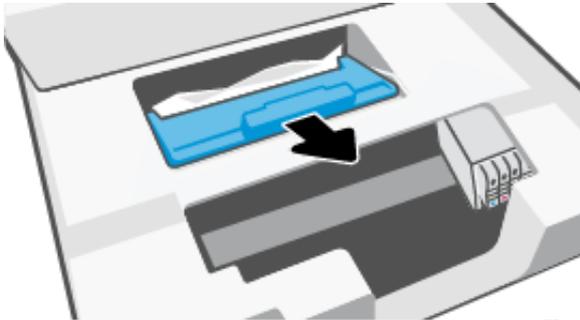

2. Open the cartridge access door.

3. Look inside the printer and remove any jammed paper found. Move the carriage to the left and right to fully inspect the print area for any jammed paper.

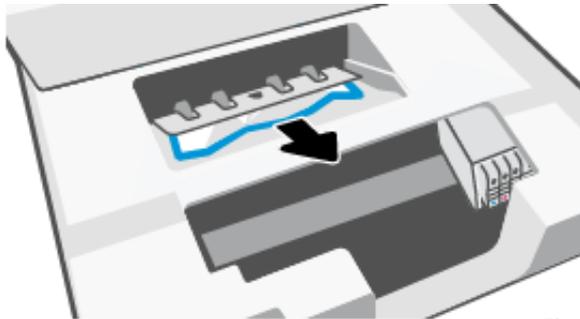

4. Lift the handle of the paper path cover and remove the cover.

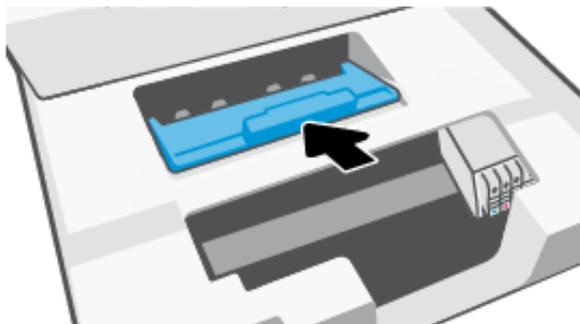

5. Locate any jammed paper inside the printer, grasp it with both hands and pull it towards you.

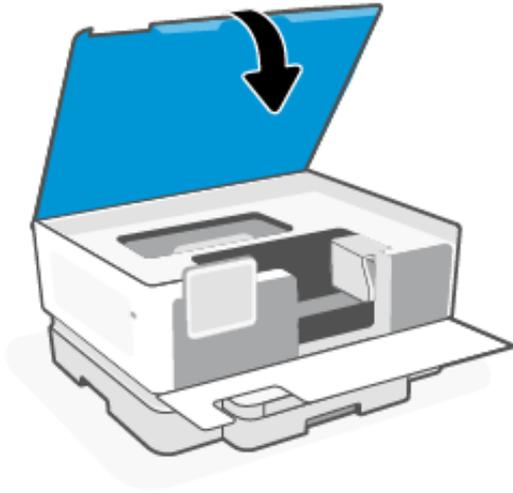

⚠ CAUTION: To avoid future paper jams, check the rollers and wheels for small pieces of paper. Be sure to remove all pieces of paper and foreign objects.

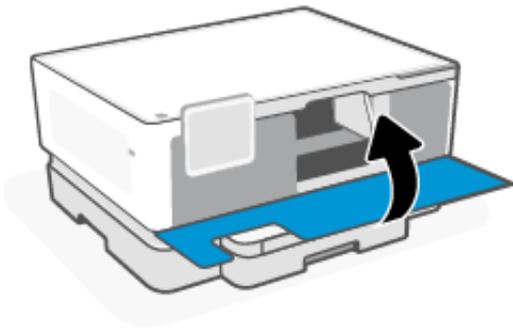

6. Reinsert the paper path cover until it snaps into place.

7. Close the cartridge access door.

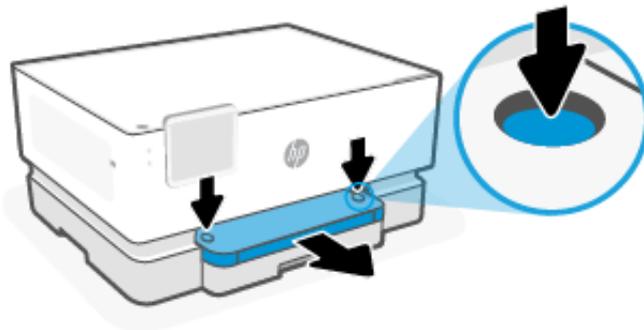

8. Close the front door.

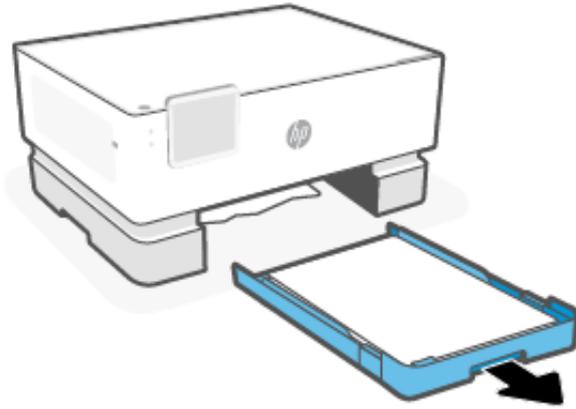

Clear a paper jam from the input tray

Follow these steps to clear a paper from the input tray.

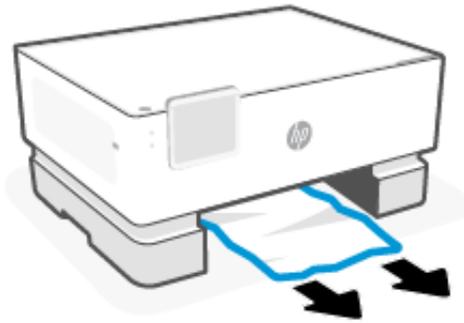

1. Press and hold the two buttons on both sides of the output tray to move out the output tray from the printer.

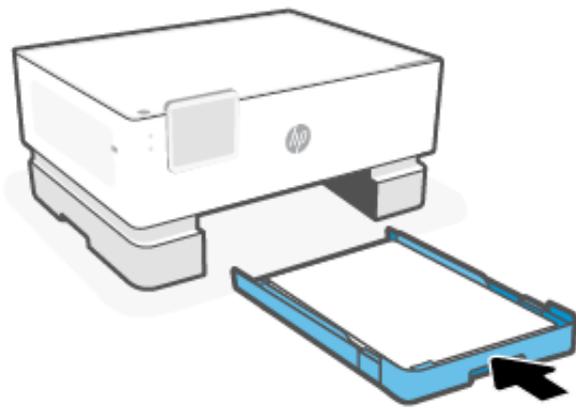

2. Remove the input tray by pulling it all the way out of the printer.

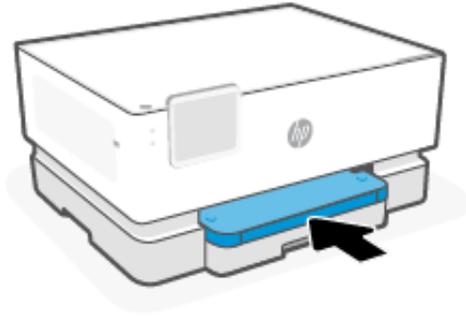

3. Check the input tray area underneath the printer. Remove any jammed paper.

4. Insert the input tray back until it snaps into place.

5. Insert the output tray back into the printer.

Clear a print carriage jam

Remove any objects, such as paper blocking the print carriage.

 **NOTE:** Do not use any tools or other devices to remove jammed paper. Always use caution when removing jammed paper from inside the printer.

Reset the printer

Reset the printer to recover from printer errors and failures.

 **NOTE:** See [Check power connection and restart printer](#).

Learn how to avoid paper jams

To help avoid paper jams, follow these guidelines.

- Always keep the printer on a flat surface.
- When paper jam occurs, try not to tilt the printer up-side down to remove any foreign materials as it might damage the printer.
- Remove printed papers from the output tray frequently.
- Make sure that you are printing with paper that is not wrinkled, folded, or damaged.
- Prevent curled or wrinkled paper by storing all unused paper flat in a resealable bag.
- Do not use paper that is too thick or too thin for the printer.
- Make sure that the trays are loaded correctly and are not too full.

See [Load media](#).

- Make sure that the paper loaded in the input tray lays flat and the edges are not bent or torn.
- Do not mix different paper types and paper sizes in the input tray; the entire stack of paper in the input tray must be the same size and type.
- Adjust the paper-width guides in the input tray to fit snugly against all paper. Make sure the paper-width guides do not bend the paper in the input tray.
- Do not force paper too far inside the input tray.

- If you are printing on both sides of a page, do not print highly saturated images on light weight paper.
- Use paper types that are recommended for the printer.
- Do not load paper while the printer is printing.
- When removing the input tray, it is recommended to remove the tray completely from the printer to make sure no paper is stuck at the rear of the tray. You might need to check the opening in the printer where the tray was, and reach into the gap to remove any paper.

Solve paper-feed problems

What kind of problem are you having?

- **Paper is not picked up from a tray**
 - Make sure paper is loaded in the tray.
See [Load media](#).
 - Make sure the paper-width guides are set to the correct markings in the tray for the paper size you are loading. Also make sure the paper guides are snug, but not tight, against the stack.
 - Make sure that the stack of paper is aligned with the appropriate paper size lines on the bottom of the input tray, and does not exceed the stack height indicated by one or more label on the side or paper-width guide of the input tray.
 - Make sure paper in the tray is not curled. Uncurl paper by bending it in the opposite direction of the curl.
 - Fan paper before loading
- **Pages are skewing**
 - Make sure the paper loaded in the input tray is aligned to the paper-width guides. If needed, pull out the input tray from the printer and reload the paper correctly, making sure that the paper guides are aligned correctly.
 - Load paper into the printer only when it is not printing.
 - Make sure the rear access door is securely shut.
- **Multiple pages are being picked up**
 - Make sure the paper-width guides are set to the correct markings in the tray for the paper size you are loading. Also make sure the paper-width guides are snug, but not tight, against the stack.
 - Make sure that the stack of paper is aligned with the appropriate paper size lines on the bottom of the input tray, and does not exceed the stack height indicated by one or more label on the side or paper-width guide of the input tray.
 - Make sure the tray is not overloaded with paper.
 - Use HP paper for optimum performance and efficiency.

Printer is unable to print

Learn how to troubleshoot when the printer is unable to print.

Check printer connection to the Internet

Your printer might be occasionally disconnected from the Internet (for example, power outage, network or router issues or turning off the printer when not in use). You might be able to print a limited number of pages while the printer is disconnected, but it is critical to reconnect the printer to continue printing.

Check printer settings and status

You can check printer settings and status.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Info**.
3. On the **Info** screen, touch **Printer** to check the printer settings and touch **Connectivity** to check the printer status.

NOTE: See [Connect to a Wi-Fi network using the control panel](#).

If you are still unable to print, visit hp.com/support

Printing issues

Learn how to troubleshoot printing issues.

Fix problems with page not printing (unable to print)

Learn how to troubleshoot printing issues.

Resolve print issues

Make sure that the printer is turned on and that there is paper in the tray. If you are still unable to print, try the following in order:

1. Check for error messages and resolve them by following the on-screen instructions.
2. If your computer is connected to the printer with a USB cable, disconnect and reconnect the USB cable. If your computer is connected to the printer with a Wi-Fi connection, confirm that the connection is working.
3. Download and run [HP Print and Scan Doctor](#) to help diagnose and fix issues automatically.

NOTE: This tool is for the Windows operating system, and is only available in some languages.

Check power connection and restart printer

Follow these steps to check power connection and restart printer.

1. Make sure the power cord is firmly connected to the printer.

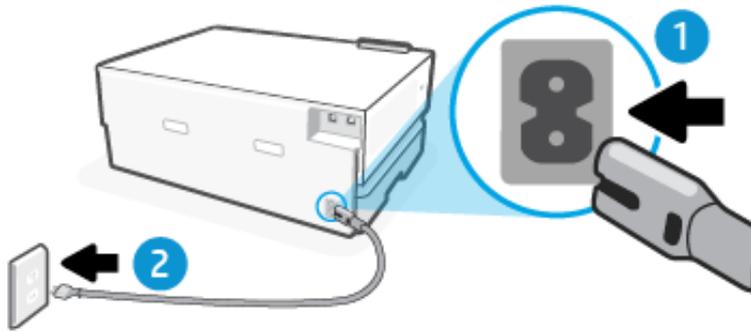

Table 7-2 Printer ports

Port	Description
1	Power connection to the printer
2	Connection to a power outlet

2. Look at the **Power** button located on the printer. If it is not lit, the printer is turned off. Press the **Power** button to turn on the printer.

 **NOTE:** If the printer is not receiving electrical power, connect it to another power outlet.

3. With the printer turned on, disconnect the power cord from the back of the printer.
4. Unplug the power cord from the wall outlet.
5. Wait at least 15 seconds.
6. Plug the power cord back into the wall outlet.
7. Reconnect the power cord to the back of the printer.
8. If the printer does not turn on by itself, press the **Power** button to turn on printer.
9. Try using the printer again.

Fix print quality issues

Learn how to troubleshoot print quality issues.

 **NOTE:** To avoid print quality problems, always turn the printer off using the **Power** button, and wait until the **Power** button light goes out before you pull the plug or turn off a power strip. This allows the printer to move the cartridges to a capped position, where they are protected from drying out.

Improve print quality using the control panel

Complete the following steps to improve print quality.

1. Make sure you are using original HP cartridges and the cartridges are not low on ink.
See [Check estimated ink levels](#). If cartridges are low on ink, consider replacing them.

2. Make sure you have selected the appropriate paper type and print quality.
3. Print a **Print Quality Diagnostic Report**.
See [Print a printer report](#).
4. Check the report.
 - If the lines are not straight and connected, align the printheads.
 - If you see thin white lines across any of the colored blocks, clean the printheads.
 - If there are smears or streaks of ink on the back of the printouts, clean the smear.
5. Fix the identified issues on the report.
 - a. Load Letter, A4, or Legal unused plain white paper into the main tray.
 - b. On the control panel Home screen, touch **Menu**.
 - c. Scroll to **Utilities** and touch **Tools**.
 - d. Touch **Troubleshooting**, and then touch **Print Quality**.
 - e. Select the desired option to resolve the identified issues.
6. If this does not solve the problem, then contact HP support.
Visit hp.com/support for more information.

Network and connection issues

Troubleshoot network and connection issues.

Fix Wi-Fi connection

Select one of the following troubleshooting options:

- Restore network settings and reconnect the printer.
See [Restore settings](#).
- Check the network configuration or print the Wi-Fi test report to assist in diagnosing network connection issues.
 1. On the control panel Home screen, touch **Menu**.
 2. Scroll to **Utilities** and touch **Tools**.
 3. Touch **Reports**, and then touch **Status Reports**.
 4. Touch **Network Configuration Report**, and then touch **Print**.

Check the Wi-Fi Network Test report to see if something failed during the test.

- See the **DIAGNOSTICS RESULTS** section for all tests that were performed, to determine whether or not your printer passed.

- From the **CURRENT CONFIGURATION** section, find out the Network Name (SSID) to which your printer is currently connected. Make sure that the printer is connected to the same network as your computer or mobile devices.
- Use an HP online troubleshooting tool to solve your printer issues.

Fix Wi-Fi Direct connection

Follow these steps to fix **Wi-Fi Direct** connection.

1. Check the printer to confirm that the **Wi-Fi Direct** is turned on:
 - a. On the control panel Home screen, touch **Menu**.
 - b. Scroll to **Utilities** and touch **Settings**.
 - c. Touch **Network**, and then touch **Network Settings**.
 - d. Touch **Wi-Fi Direct**, and then touch the toggle button next to **Wi-Fi Direct** to turn it on or off.
2. From your wireless computer or mobile device, turn on the Wi-Fi connection, and then search for and connect to the **Wi-Fi Direct** name of your printer.
3. Enter the **Wi-Fi Direct** password when prompted.

The **Wi-Fi Direct** name and password are listed on the Network Configuration Report.

See [Understand printer reports](#) for more information on printer reports and [Print a printer report](#) on how to print the Network Configuration Report.

4. If you are using a mobile device, make sure you have installed a compatible printing app.
Visit the hp.com/mobileprinting website for more information about mobile printing.

Fix Ethernet connection

Check the following:

- The network is operational and the network hub, switch, or router is turned on.
- The Ethernet cable is properly connected between the printer and the router. The Ethernet cable is plugged into the Ethernet port on the printer and the light near the connector lights up when connected.
- Antivirus programs, including spyware protection programs, are not impacting your network connection to the printer. If you know that antivirus or firewall software is preventing your computer from connecting to the printer, use [HP online firewall troubleshooter](#) to help solve the problem.
- HP Print and Scan Doctor: Download and run [HP Print and Scan Doctor](#) to help diagnose and fix issues automatically.

 **NOTE:** This tool is for the Windows operating system, and is only available in some languages.

Restore original network settings

If you want to restart **Wi-Fi setup mode** or troubleshoot network-related issues, you can restore the printer to its original network settings.

 **NOTE:**

- You must reconnect the printer to the network using the HP software after you restore network settings.
 - For network-related issues, try the following before restoring network settings.
 - Run [HP Print and Scan Doctor](#) to help diagnose and fix issues automatically.
 - Visit hp.com/support for information and utilities that can help you fix many common printer problems.
-

See [Restore settings](#).

Printer hardware issues

Complete the following to resolve printer hardware issues.

The printer shuts down unexpectedly

Complete the following steps if printer shuts down unexpectedly:

- Check the power and power connections.
- Make sure the printer power cord is connected firmly to a functioning power outlet.

Printhead alignment fails

Follow these steps to fix if the printhead alignment fails.

- If the alignment process fails, make sure you have loaded unused, plain white paper into the main tray. If you have colored paper loaded in the main tray when you align the printhead, the alignment fails.
- If the alignment process fails repeatedly, you may need to clean the printhead, or you might have a defective sensor. See [Maintain the printhead and cartridges](#) to clean the printhead.
- If cleaning the printhead does not solve the problem, contact HP support. Visit hp.com/support for more information.

Resolve printer failure

Complete the following steps to resolve printer failure problems.

1. Press the **Power** button to turn off the printer.
2. Unplug the power cord, and then plug in the power cord again.
3. Press the **Power** button to turn on the printer.

If this problem persists, write down the error code provided in the message, and then contact HP support. Visit hp.com/support for more information.

Understand printer reports

Learn more about how to print some useful printer reports.

- **Printer Status Report**

Provides a summary of printer information, current status, and settings, including connectivity settings, as well as print or scan settings and usage.

- **Network Configuration Report**

Provides important network settings such as network status and the printer IP address.

- **Print Quality Diagnostic Report**

Print a diagnostics page to determine if cleaning or aligning the printheads is recommended to improve print quality.

- **Wi-Fi Network Test Results**

Provides information about your printer network connection or to troubleshoot connection issues.

- **Web Access Test Report**

Provides information about the printer status, DNS setting, and the IP address. If the printer is connected to a Wi-Fi network, the test report displays details about the network settings. It also indicates any Wi-Fi connectivity issues.

Print a printer report

Follow these steps to print a printer report.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Tools**.
3. Touch **Reports**, and then touch **Status Reports**.
4. Select a printer report to print and touch **Print**.

Printer maintenance

Clean different printer parts.

Clean the exterior

Use a soft, damp, lint-free cloth to wipe dust, smudges, and stains off the case. Keep fluids away from the interior of the printer, as well as from the printer control panel.

 **WARNING!** Before cleaning the printer, turn the printer off by pressing the **Power** button and unplugging the power cord from the electrical socket.

Maintain the printhead and cartridges

If you are experiencing problems with printing, you might have a problem with the printhead. You must perform the procedures in the following sections only when directed to do so for resolving print quality issues.

Performing the aligning and cleaning procedures unnecessarily can waste ink and shorten the life of the cartridges.

- Clean the printhead if your printed output is streaked or has any incorrect or missing colors.

There are three stages of cleaning. Each stage lasts about two minutes, uses one sheet of paper, and uses an increasing amount of ink. After each stage, review the quality of the printed page. You must only initiate the next phase of cleaning if the print quality is poor.

If print quality still seems poor after you complete all stages of cleaning, try aligning the printhead. If print quality problems persist after cleaning and aligning, contact HP support. Visit hp.com/support for more information.

- Align the printhead when the printer status page shows streaking or white lines through any of the blocks of color, or if you are having print quality issues with your printouts.

The printer automatically aligns the printhead during the initial setup.

Cleaning uses ink, so clean the printhead only when necessary. The cleaning process takes a few minutes. Some noise might be generated in the process.

Always use the **Power** button to turn off the printer. Turning the printer off improperly can cause print quality problems.

To clean or align the printhead from the printer control panel.

1. Load Letter or A4 unused plain white paper into the main tray.
See [Load media](#).
2. On the control panel Home screen, touch **Menu**.
3. Scroll to **Utilities** and touch **Supplies**.
4. Touch **Troubleshooting**, and then touch **Print Quality**.
5. Select the desired option, and then follow the on-screen instructions.

You can also do the same from the HP software or the embedded web server (EWS).

See [Use HP software](#) or [Configure using the embedded web server \(EWS\)](#).

Restore settings

If you change some settings or disable some functions and want to change them back, you can restore or reset the settings.

- **Restore network settings**

If you want to discard the changes you have made to the printer network settings, you can restore them to the original network settings.

- **Reset user settings**

If you want to discard the changes you have made to the printer user settings, you can reset the printer to the default user settings.

- **Reset user data**

If you want to discard the changes you have made to the printer user data, you can reset the printer to the original default data.

- **Restore all factory defaults**

If you want to discard the changes you have made to the printer settings, you can restore all the printer settings to the original factory default settings.

Complete the following steps to restore settings.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Tools**.
3. Touch **Maintenance**, and then touch **Restore Settings**.
4. Select the feature and change the desired settings.

HP support

HP online support provides information and utilities that can help you solve common printer problems.

- **View video tutorials**

Learn how to set up printer and perform common tasks.

- **Get troubleshooting assistance**

Find information for resolving paper jams, network connection issues, print quality issues, printer errors, and more.

- **Get software and drivers**

Download software, drivers, and firmware you need for the printer.

- **Ask the community**

Join the community forums to find solutions, ask questions, and share tips.

- **HP diagnostics solutions**

Use HP online tools to detect your printer and find recommended solutions.

Download and run [HP Print and Scan Doctor](#) to help diagnose and fix issues automatically.

Contact HP

If you need help from an HP technical support representative to solve a problem.

Visit hp.com/support for more information.

The following contact options are available at no cost for in-warranty customers (HP agent-assisted support for out-of-warranty customers may require a fee).

- **Chat**

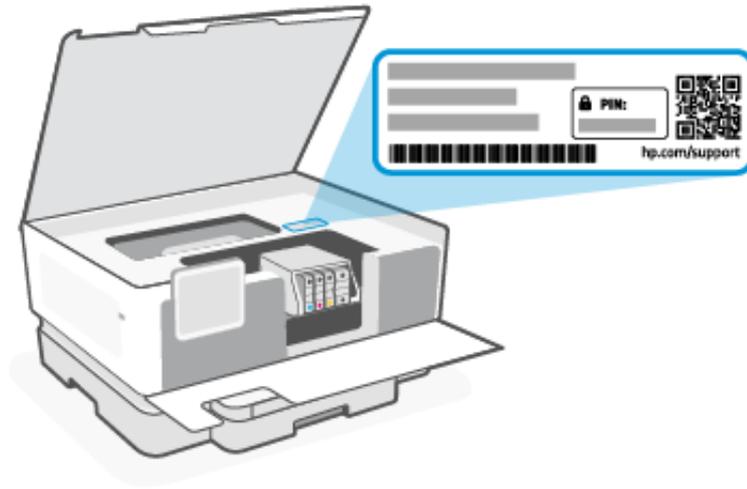

Chat with an HP support agent or the HP Virtual Assistant online.

- **Call**

Call an HP support agent.

When contacting HP support, provide the following information:

- Product name (Located on the printer)
- Product number and serial number (located near the cartridge access area)

Register printer

By taking just a few quick minutes to register, you can enjoy quicker service, more efficient support, and product support alerts.

If you did not register your printer while installing the printer software, you can register anytime on the register.hp.com website.

Additional warranty options

Extended service plans are available for the printer at additional costs.

Visit hp.com/support, select your country/region and language, then explore the service plan options available for your printer.

8 HP EcoSolutions (HP and the Environment)

HP is committed to helping you optimize your environmental footprint and empowering you to print responsibly—at home or in the office.

For more detailed information about environmental guidelines that HP follows during the manufacturing process, see [Environmental product stewardship program](#).

Power management

Use Sleep, Inactivity Shutdown, and Schedule Printer On/Off to conserve electricity.

- **Sleep**

After initial setup, the printer enters Sleep mode after 5 minutes of inactivity by default.

- **Inactivity Shutdown**

To conserve power, the printer turns off completely after a default period of inactivity. Press the **Power** button to turn on the printer again.

Inactivity Shutdown is disabled when a printer wireless or **Wi-Fi Direct** capability is turned on or when a printer with USB or Ethernet network capability establishes a USB or Ethernet network connection.

- **Schedule Printer On/Off**

Use this feature to automatically turn the printer on or off at the scheduled time.

For example, you can schedule the printer to turn on at 8 a.m. and turn off at 8 p.m. from Monday to Friday. In this way, you save energy during the night and weekends.

Follow these steps to change the settings:

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.
3. Touch **General**, and then touch **Energy**.
4. Select the feature and change the desired settings.

Quiet Mode

This feature slows down printing to reduce overall noise without affecting print quality. By default, this feature is off. It only works when printing on plain paper. Additionally, this feature is disabled if you are printing using the best or presentation print quality. To reduce printing noise, turn on this feature. To print at normal speed, turn this feature off.

NOTE: Quiet Mode is not supported when printing photos or envelopes.

1. On the control panel Home screen, touch **Menu**.
2. Scroll to **Utilities** and touch **Settings**.

3. Touch **General**, and then touch the toggle button next to **Quiet Mode** to turn it on or off.

NOTE:

- While the printer is printing or while making a copy, you can turn on or turn off this feature. The new settings will take effect after the current page has printed.
- You can also set this feature using the embedded web server (EWS).

See [Configure using the embedded web server \(EWS\)](#).

Optimize printing supplies

To optimize printing supplies such as ink and paper, try the following:

- Visit hp.com/recycle to recycle used Original HP ink cartridges through HP Planet Partners.
- Optimize paper usage by printing on both sides of the paper.
- Change the print quality in the printer driver to a draft setting. The draft setting uses less ink.
- Do not clean the printhead unnecessarily. Doing so wastes ink and shortens the life of the cartridges.

A Technical information

The information contained herein is subject to change without notice. Some statements might not be applicable for your printer or all countries/regions.

Specifications

HP support website provides information about the product specifications including acoustic information, print resolutions, and system requirements.

Visit hp.com/support for more information.

Environmental specifications

- Operating temperature: 5° to 40° C (41° to 104° F)
- Operating humidity: 15 to 80% RH non-condensing
- Recommended operating conditions: 15° to 32° C (59° to 90° F)
- Recommended relative humidity: 20 to 80% noncondensing

Input tray capacity

- Plain paper sheets (60 to 105 grams per square meter [16 to 28 lb]): Up to 250
- Envelopes: Up to 30
- Index cards: Up to 50
- Photo paper sheets: Up to 50

Output tray capacity

- Plain paper sheets (60 to 105 grams per square meter [16 to 28 lb]): Up to 60
- Envelopes: Up to 10
- Index cards: Up to 30
- Photo paper sheets: Up to 30

Paper size and weights

See HP software for the list of supported paper sizes.

- Plain paper: 60 to 105 grams per square meter (16 to 28 lb)
- Envelopes: 75 to 90 grams per square meter (20 to 24 lb)
- Cards: 163 to 200 grams per square meter (90 to 110 lb)

- Photo paper: 220 to 300 grams per square meter (60 to 80 lb)

Print specifications

- Print speeds vary according to the complexity of the document and printer model
- Method: drop-on-demand thermal inkjet
- Language: PCL 5, PCL 6, PostScript
- Print resolution:
Visit hp.com/support for a list of supported print resolutions.
- Print margins:
Visit hp.com/support for margin settings of different media.

Power specifications

- Input voltage: 100-240 Vac (+/- 10%)
- Input frequency: 50/60 Hz (+/- 3 Hz)

Cartridge yield

- Visit hp.com/support for more information on estimated cartridge yields.

Regulatory notices

The printer meets product requirements from regulatory agencies in your country/region that the product is shipping to.

Regulatory Model Number

For regulatory identification purposes, your product is assigned with a Regulatory Model Number. The regulatory model number should not be confused with the marketing names or product numbers.

FCC statement

The United States Federal Communications Commission (in 47 CFR 15.105) has specified that the following notice be brought to the attention of users of this product.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

 **NOTE:** If the product has an Ethernet / LAN port with metallic casing then use of a shielded interface cable is required to comply with the Class B limits of Part 15 of FCC rules.

Modifications (part 15.21)

Any changes or modifications made to this device that are not expressly approved by HP may void the user's authority to operate the equipment.

For further information, contact: Manager of Corporate Product Regulations, HP Inc. 1501 Page Mill Road, Palo Alto, CA 94304, U.S.A.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Products with wireless functionality

EMF

This product meets international guidelines (ICNIRP) for exposure to radio frequency radiation.

If it incorporates a radio transmitting and receiving device that in normal use, a separation distance of 20 cm ensures that radio frequency exposure levels comply with EU requirements.

Wireless functionality in Europe

For products with 802.11 b/g/n or Bluetooth radio:

- Radio frequency band: 2400-2483.5 MHz, with transmit power of 20 dBm (100 mW) or less.

For products with 802.11 a/b/g/n/ac radio:

- Radio frequency band: 2400-2483.5 MHz, with transmit power of 20 dBm (100 mW) or less.
- Radio frequency band: 5170-5330 MHz, with transmit power of 23 dBm (200 mW) or less.
- Radio frequency band: 5490-5730 MHz, with transmit power of 23 dBm (200 mW) or less.
- Radio frequency band: 5735-5835 MHz, with transmit power of 13.98 dBm (25 mW) or less.

IMPORTANT: IEEE 802.11x wireless LAN with 5.17–5.33 GHz frequency band is restricted for **indoor use only** in all countries reflected in the matrix. Using this WLAN application outdoor might lead to interference issues with existing radio services.

Visual display workplaces statement for Germany

GS-Erklärung (Deutschland)

Das Gerät ist nicht für die Benutzung im unmittelbaren Gesichtsfeld am Bildschirmarbeitsplatz vorgesehen. Um störende Reflexionen am Bildschirmarbeitsplatz zu vermeiden, darf dieses Produkt nicht im unmittelbaren Gesichtsfeld platziert werden.

Regulatory information for wireless products

This section contains the following regulatory information pertaining to wireless products:

Exposure to radio frequency radiation

CAUTION: The radiated output power of this device is far below the FCC radio frequency exposure limits. Nevertheless, the device shall be used in such a manner that the potential for human contact during normal operation is minimized. This product and any attached external antenna, if supported, shall be placed in such a manner to minimize the potential for human contact during normal operation. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 20 cm (8 inches) during normal operation.

Notice to users in Canada (5 GHz)

CAUTION: When using IEEE 802.11a wireless LAN, this product is restricted to indoor use, due to its operation in the 5.15- to 5.25-GHz frequency range. The Innovation, Science and Economic Development Canada requires this product to be used indoors for the frequency range of 5.15 GHz to 5.25 GHz to reduce the potential for harmful interference to co-channel mobile satellite systems. High-power radar is allocated as the primary user of the 5.25- to 5.35-GHz and 5.65- to 5.85-GHz bands. These radar stations can cause interference with and/or damage to this device.

ATTENTION: Lors de l'utilisation du réseau local sans fil IEEE 802.11a, ce produit se limite à une utilisation en intérieur à cause de son fonctionnement sur la plage de fréquences de 5,15 à 5,25 GHz. Innovation, Science et Développement Economique Canada stipule que ce produit doit être utilisé en intérieur dans la plage de fréquences de 5,15 à 5,25 GHz afin de réduire le risque d'interférences éventuellement dangereuses avec les systèmes mobiles par satellite via un canal adjacent. Le radar à haute puissance est alloué pour une utilisation principale dans une plage de fréquences de 5,25 à 5,35 GHz et de 5,65 à 5,85 GHz. Ces stations radar peuvent provoquer des interférences avec cet appareil et l'endommager.

Notice to users in Taiwan (5 GHz)

應避免影響附近雷達系統之操作。

高增益指向性天線只得應用於固定式點對點系統。

Notice to users in Serbia (5 GHz)

Upotreba ovog uredjaja je ogranicna na zatvorene prostore u slucajevima koriscenja na frekvencijama od 5150-5350 MHz.

Notice to users in Thailand (5 GHz)

เครื่องวิทยุคมนาคมนี้มีระดับการแผ่คลื่นแม่เหล็กไฟฟ้าสอดคล้องตามมาตรฐานความปลอดภัยต่อสุขภาพของมนุษย์จากการใช้เครื่องวิทยุคมนาคมที่คณะกรรมการกิจการโทรคมนาคมแห่งชาติประกาศกำหนด

This radio communication equipment has the electromagnetic field strength in compliance with the Safety Standard for the Use of Radio Communication Equipment on Human Health announced by the National Telecommunications Commission.

Notice to users in Brazil

Este equipamento opera em caráter secundário, isto é, não tem direito à proteção contra interferência prejudicial, mesmo de estações do mesmo tipo, e não pode causar interferência em sistemas operando em caráter primário. Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados.

Para obter mais informações, verifique o site da ANATEL anatel.gov.br.

Notice to users in Canada

Under Innovation, Science and Economic Development Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Innovation, Science and Economic Development Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

This device complies with Innovation, Science and Economic Development Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

WARNING! Exposure to Radio Frequency Radiation. The radiated output power of this device is below the Innovation, Science and Economic Development Canada radio frequency exposure limits. Nevertheless, the device should be used in such a manner that the potential for human contact is minimized during normal operation.

To avoid the possibility of exceeding the Innovation, Science and Economic Development Canada radio frequency exposure limits, human proximity to the antennas should not be less than 20 cm (8 inches).

Conformément au Règlement d'Innovation, Science et Développement Economique Canada, cet émetteur radioélectrique ne peut fonctionner qu'avec une antenne d'un type et d'un gain maximum (ou moindre) approuvé par Innovation, Science et Développement Economique Canada. Afin de réduire le brouillage radioélectrique potentiel pour d'autres utilisateurs, le type d'antenne et son gain doivent être choisis de manière à ce que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas celle nécessaire à une communication réussie.

Cet appareil est conforme aux normes RSS exemptes de licence d'Innovation, Science et Développement Economique Canada. Son fonctionnement dépend des deux conditions suivantes : (1) cet appareil ne doit

pas provoquer d'interférences nuisibles et (2) doit accepter toutes les interférences reçues, y compris des interférences pouvant provoquer un fonctionnement non souhaité de l'appareil.

AVERTISSEMENT relatif à l'exposition aux radiofréquences. La puissance de rayonnement de cet appareil se trouve sous les limites d'exposition de radiofréquences d'Innovation, Science et Développement Economique Canada. Néanmoins, cet appareil doit être utilisé de telle sorte qu'il doive être mis en contact le moins possible avec le corps humain.

Afin d'éviter le dépassement éventuel des limites d'exposition aux radiofréquences d'Innovation, Science et Développement Economique Canada, il est recommandé de maintenir une distance de plus de 20 cm entre les antennes et l'utilisateur.

Notice to users in Taiwan Region

取得審驗證明之低功率射頻器材，非經核准，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。低功率射頻器材之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前述合法通信，指依電信管理法規定作業之無線電通信。低功率射頻器材須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

Notice to users in Mexico

La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.

Para saber el modelo de la tarjeta inalámbrica utilizada, revise la etiqueta regulatoria de la impresora.

Notice to users in Japan

Dynamic Security Enabled Printers

This printer is intended to work only with cartridges that have a new or reused HP chip. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges.

The printer uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates delivered over the internet will maintain the effectiveness of the dynamic security measures and block cartridges that previously worked.

Updates can improve, enhance, or extend the printer's functionality and features, protect against security threats, and serve other purposes, but these updates can also block cartridges using a non-HP chip from working in the printer, including cartridges that work today. Unless you are enrolled in certain HP programs such as Instant Ink or use other services that require automatic online firmware updates, most HP printers can be configured to receive updates either automatically or with a notification that allows you to choose whether to update or not. For more information on dynamic security and how to configure online firmware updates, please go to www.hp.com/learn/ds.

Accessibility

For more information about the accessibility of your printer, please visit hp.com/support/inkjet/accessibility

Environmental product stewardship program

HP is committed to providing quality products in an environmentally sound manner. Design for recycling has been incorporated into this product. The number of materials has been kept to a minimum while ensuring proper functionality and reliability. Dissimilar materials have been designed to separate easily. Fasteners and other connections are easy to locate, access, and remove using common tools. High priority parts have been designed to access quickly for efficient disassembly and repair. For more information, visit HP's Commitment to the Environment website at:

hp.com/sustainableimpact

HP tips for reducing environmental impact

- Choose from a wide variety of HP papers with FSC® or PEFC™ certification, which indicates that the paper pulp came from a reputable and well-managed source.¹
- Conserve resources-look for paper made with recycled content.
- Recycle your Original HP cartridges-it's easy and free with the HP Planet Partners program, available in 47 countries and territories worldwide.²
- Save paper by printing on both sides of the page.
- Conserve energy by choosing ENERGY STAR® certified HP products.
- Lower your carbon footprint-all HP printers include power management settings that help you control energy use.
- Discover more ways HP and our customers are reducing environmental impact at [HP EcoSolutions](#).

¹ HP papers certified under FSC®C017543 or PEFC™TMPEFC/29-13-198.

² Program availability varies. Original HP cartridge return and recycling is currently available in more than 50 countries, territories, and regions in Asia, Europe, and North and South America through the HP Planet Partners program. For more information, visit: hp.com/recycle.

Eco-Tips

HP is committed to helping customers reduce their environmental footprint. Please visit the HP Eco Solutions website for more information on HP's environmental initiatives.

hp.com/sustainableimpact

Paper

This product is suited for the use of recycled paper according to DIN 19309 and EN 12281:2002.

Plastics

Plastic parts over 25 grams are marked according to international standards that enhance the ability to identify plastics for recycling purposes at the end of product life.

European Union Commission Regulation 1275/2008

For product power data, including the power consumption of the product in networked standby if all wired network ports are connected and all wireless network ports are activated, please refer to section P15 'Additional

Information' of the product IT ECO Declaration at hp.com/us-en/hp-information/sustainable-impact/document-reports.html.

Safety data sheets

Safety Data Sheets, product safety and environmental information are available at hp.com/go/ecodata or on request.

Chemical substances

HP is committed to providing our customers with information about the chemical substances in our products as needed to comply with legal requirements such as REACH (*Regulation EC No 1907/2006 of the European Parliament and the Council*). A chemical information report for this product can be found at: hp.com/go/reach.

EPEAT

Most HP products are designed to meet EPEAT. EPEAT is a comprehensive environmental rating that helps identify greener electronics equipment. For more information on EPEAT go to epeat.net.

China Energy Label for Printer, Fax and Copier

复印机、打印机和传真机能源效率标识实施规则

依据“复印机、打印机和传真机能源效率标识实施规则”，该打印机具有中国能效标识。标识上显示的能效等级和操作模式值根据“复印机、打印机和传真机能效限定值及能效等级”标准(“GB 21521”)来确定和计算。

1. 能效等级

产品能效等级分 3 级，其中 1 级能效最高。能效限定值根据产品类型和打印速度由标准确定。能效等级则根据基本功耗水平以及网络接口和内存等附加组件和功能的功率因子之和来计算。

2. 能效信息

喷墨打印机

- 操作模式功率

睡眠状态的能耗按照 GB 21521 的标准来衡量和计算。该数据以瓦特 (W) 表示。

- 待机功率

待机状态是产品连接到电网电源上功率最低的状态。该状态可以延续无限长时间，且使用者无法改变此状态下产品的功率。对于“成像设备”产品，“待机”状态通常相当于“关闭”状态，但也可能相当于“准备”状态或者“睡眠”状态。该数据以瓦特 (W) 表示。

- 睡眠状态预设延迟时间

出厂前由制造商设置的时间决定了该产品在完成主功能后进入低耗模式（例如睡眠、自动关机）的时间。该数据以分钟表示。

- 附加功能功率因子之和

网络接口和内存等附加功能的功率因子之和。该数据以瓦特 (W) 表示。

标识上显示的能耗数据是根据典型配置测量得出的数据，此类配置包含登记备案的打印机依据复印机、打印机和传真机能源效率标识实施规则所选的所有配置。因此，该特定产品型号的实际能耗可能与标识上显示的数据有所不同。

要了解规范的更多详情，请参考最新版的 GB 21521 标准。

Disposal of waste equipment by users

This symbol means do not dispose of your product with your other household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment. For more information, please contact your household waste disposal service, or go to hp.com/recycle.

Waste disposal for Brazil

Este produto eletrônico e seus componentes não devem ser descartados no lixo comum, pois embora estejam em conformidade com padrões mundiais de restrição a substâncias nocivas, podem conter, ainda que em quantidades mínimas, substâncias impactantes ao meio ambiente. Ao final da vida útil deste produto, o usuário deverá entregá-lo à HP. A não observância dessa orientação sujeitará o infrator às sanções previstas em lei.

Após o uso, as pilhas e/ou baterias dos produtos HP deverão ser entregues ao estabelecimento comercial ou rede de assistência técnica autorizada pela HP.
