Floor-Mounted Installation

For the operation video, please refer to Floor-Mounted.

Package Contents

Floor Stand

Floor stand beam
*65-inch and 86-inch floor stand beam are different in size and cannot be mixed.

Ⓐ

Screw X 4
(M6 × 12 mm)
* For mounting floor stand beam

Ⓑ

Screw X 6
(M6 × 20 mm)
* For locking floor stand and endpoint

4mm Hex key
Rubber cap X 2

PC Patch X 2

Quick Start Guide
(Floor-Mounted)

Endpoint Installation

1. Lock the scroll wheels

2. Put down the floor stand and install the floor stand beam on the floor stand

A

X 4

(M6 × 12mm)

ℹ️ If the beam is reversed, the screws will not fit in.

Put down one leg and install the beam with screw A

Raise the stand and install the other leg

**3. Install Windows OPS (Optional)**

ⓘ 1. The endpoint has a built-in Android OS and supports installing OPS modules to use both Windows and Android OS.
2. Windows OPS is optional. If you have not purchased, skip this step.
3. When installing or uninstalling OPS, make sure that the endpoint is powered off. Otherwise, OPS may be abnormal.
Remove the OPS cover

Insert the OPS and tighten the screws
We recommend placing the OPS antenna as follows (this can maximize the signal strength):
**4. Install MB-CAM (Optional)**

ℹ️ MB-CAM is optional. If you have not purchased, skip this step.

Remove the top cover of the endpoint

Insert camera

Mount screws

5. Raise the endpoint, mount the endpoint into the floor stand, and tighten the screws on both sides of the legs of the floor stand

* We recommend 2 people working together to mount MeetingBoard Install 65, 4 people working together to mount MeetingBoard 86 (MeetingBoard 86 can be carried by the handles on both sides).

B

(M6×20mm) X 6

Rubber cap X 2

PC Patch X 2

* Match the colors of the stickers on the back of the endpoint and the floor stand respectively.

小心夹手 Warning Mind your hands

Do not put your hands in the gap between the beam and the Meetingboard to prevent your hands from being pinched.

Match with color on legs when installing floor stand.

BACK

1

2

Tighten the screws B to prevent the floor stand from detaching from the endpoint, and affix the PC patch

Unlock the scroll wheels to move after installing.

Power On

1. Insert the end of the power cable into the power port of the endpoint.
2. Insert the power cord plug into the outlet.
3. Turn the rocker switch button on the right rear of the endpoint to "I" to turn on the endpoint.

Upon first power-on of the endpoint, follow the on-screen setup wizard to configure language, time, network, etc., to initialize the configuration. The initialization operations vary with software versions.

ℹ️ After the endpoint is started for the first time or restored to factory settings, go to settings on the touchscreen to configure the admin password (default password:0000).

Power Outage
Turn the rocker switch button on the right rear of the endpoint to "O" to turn off the endpoint.

After installing the deployment, you can refer to Quick Setup to set up the MeetingBoard. After setup, please refer to Quick Usage to learn about general functions.
