

PHILIPS

Philips Series 2300 Fully automatic espresso machine

EP2336/40

- 4 Beverages
- LatteGo
- Black Chrome

The easiest way to enjoy fresh bean coffees

LatteGo, the fastest-to-clean milk system ever*

- Enjoy 4 drinks in one touch
- LatteGo, the fastest milk system to clean: 2 parts, no tube
- Brew up to 5000 cups without descaling your espresso machine
- Easy instructions and inspiration with the HomeID App
- Easy coffee selection and customisation
- Brewing coffee is 40% quieter with SilentBrew technology
- Enriched flavour with our hard-wearing ceramic grinder
- Use any type of milk to create smooth froth with LatteGo.

*Based on consumer testing in Germany comparing global leading One Touch (Coffee + Milk) Full Automatic Espresso Machines (2023).

***Based on 8 filter replacements as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns.

Highlights

4 beverages with one touch

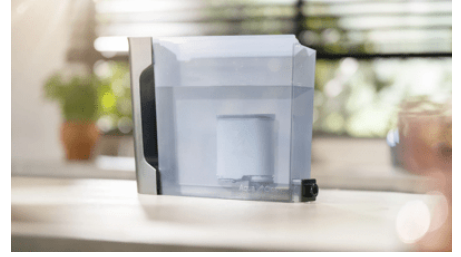

Enjoy 4 popular coffee recipes: from classic espresso and regular black coffee to cappuccino with the perfect crema, aroma and temperature. Hot water for tea is also available.

Fastest milk system to clean ever*

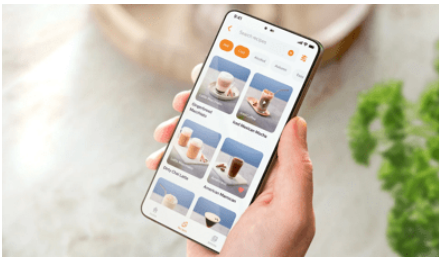

LatteGo is the fastest milk system to clean with only 2 parts, no tubes and can be cleaned in 10 seconds under the tap or in the dishwasher. Philips is not offering automatic cleaning as it requires complementary cleaning.

AquaClean filter

Brew your coffee with clear, purified water by simply changing the AquaClean filter when prompted by your coffee machine. The Philips 3300 can brew up to 5000 cups of coffee before it needs descaling.

Effortless, inspired coffee w/ HomeID

Discover all there is to know about your fully automatic espresso machine and unlock a world of unlimited inspiration of café-like recipes with the HomeID app.

Easy coffee selection and customisation

Easily select your favourite drinks thanks to the modern touch screen display with coloured icons. Adjust your coffee your way with the My Coffee Choice function: choose your preferred coffee strength, length and milk froth level, just to your taste.

Quiet coffee making with SilentBrew

Our patented SilentBrew technology reduces machine sounds so you can enjoy the experience of brewing aromatic coffee with significantly reduced noise. Using sound shielding and quiet grinding, our fully automatic espresso machines make 40% less noise than earlier models and come with a Quiet Mark certification.

100% ceramic grinders

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. The durable ceramic grinder of this Philips 3300 coffee machine can be adjusted in 12 steps, from fine to coarse grinding.

LatteGo milk system

At the touch of a button, LatteGo automatically creates silky-smooth milk froth for your cup of coffee, thanks to its powerful cyclonic frothing technology. Even with your favourite plant-based milk alternatives, you can enjoy coffee just the way you like it.

Specifications

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Technical Specifications

Energy Efficiency rating: Class A
Power: 1500 W
Voltage: 230 V
Frequency: 50 Hz
Number in pack: 1

Weight and Dimensions

Product Length: 433 mm
Product Width: 246 mm
Product Height: 371 mm
Product Weight: 8 kg
Package Length: 493 mm
Package Width: 289 mm
Package Height: 475 mm
Package Weight: 9.5 kg

Country of Origin

Produced In: Romania
