

ASUS Marshmallow Mouse (MD100)

Portable, Wireless, Silent

- Magnetic top cover: Quick-switch aesthetics to match your mood or environment, with two case colors included.
- Lightweight design: Sleek design that weighs less than 57 g.
- Quick-release carry strap: Durable finger strap pops out for safe, easy transport
- ASUS BacGuard: Protective coating that's been scientifically shown to inhibit the growth of bacteria by over 99% over a 24-hour period.
- Near-silent operation: Quiet-click buttons produce less than 20 dB of noise for undisturbed work or study.
- Exceptional durability: 10-million-click buttons engineered to last more than 3X longer than those of traditional mice.
- Adjustable DPI: 800, 1000 and 1600 accuracy settings for seamless control across different different resolutions.
- Dual-mode connectivity: Wireless technology supports both 2.4 GHz and Bluetooth for a variety of usage scenarios.
- Battery-saving technology: Prolongs the battery life, allowing for up to a whole year.
- 100% PTFE feet: Gaming-grade materials ensures smooth, low-friction glides across any flat surface.
- Subtle colorways: Selection of attractive shades from dark to light pastels provide the perfect complement to ASUS VivoBook and ZenBook, or any other modern laptop.

Overview

ASUS MD100 Portable Silent Wireless Mouse is a symmetrical beauty that's ideal for everyday work or study. It features magnetic top cover that's easy to switch out to match your mood or surrounds, with two covers in complementary colors included to get you started.

MD100 offers dual-mode connectivity that supports both 2.4GHz and Bluetooth, so it's ideal for a variety of scenarios, while its built-in power-saving technology means that a single battery provides up to a year of pinpoint control. The feet are made from 100% PTFE, a gaming-grade material and ensures the mouse glides smoothly over any flat surface. It also offers adjustable DPI, for seamless control across different screen resolutions.

For easy portability, MD100 has a clever quick-release strap. Just hook your finger through the little loop and you're ready to go – no fuss, and no fears about drops. The new mouse is also engineered for everyday hygiene, with its ASUS BacGuard protection scientifically shown to inhibit

the growth of bacteria by over 99%* over a 24-hour period.

MD100 is also seriously durable, a near-silent switch mechanism that's engineered to last for at least 10-million clicks – that's well over 3X more than the expected lifespan of a traditional office mouse.

* ASUS BacGuard adheres to the ISO 22196:2011 standard, which specifies a method of evaluating the antibacterial activity of antibacterial-treated plastics, and other non-porous, surfaces of products (including intermediate products).

Colors

1. Quiet Blue: Ideal for professional environments, with Solar Blue cover also included.
2. LiLac Mist Purple: Ideal for modern lifestyles, with Brave Green cover also included.
