

Configuration:

LS-95-01 ListenIR Advanced iDSP Level III System (North America)

Product Overview:

The LS-95 is a Level III Advanced iDSP system, offering additional equipment to meet the needs of venues with up to 100 seats.

The system includes our LT-84 Transmitter/Radiator Combo, four (4) LR-5200-IR Advanced iDSP Receivers, 12-unit charging tray, log book, cable management unit, and more—everything needed to immediately offer the highest quality assistive listening experience.

The LS-95 is an ideal solution for classrooms, boardrooms, meeting spaces, theaters, and countless other spaces where secure audio transmission and outstanding signal clarity are needed.

Highlights:

- Advanced iDSP IR assistive listening system with our LR-5200-IR receivers included
- Pre-configured system designed for simple and immediate installation
- 12-unit charging tray makes it easy to add and store additional receivers
- Ideal for small- to mid-size venues with up to 100 seats
- Provides outstanding coverage up to 2,787 m² (30,000 ft²)
- Designed for multi-channel applications where users need the ability to select audio source/channel themselves
