

About us

A close-up of a human eye with a digital overlay. The overlay consists of a network of white lines and dots, resembling a circuit or data flow, surrounding the eye. A black circular target with a crosshair is centered on the iris. The background is a warm, reddish-brown color.

| What is it: AVaaS

AVaaS “Artificial Vision as a Service” this is the **imotion Analytics** business model.

This model consists of distributing as a service, Artificial Vision solutions that our team has been developing and optimizing since 2015.

So our customer can use all the advantages and have full control of our solutions, **"assuming only a yearly fee for each camera that is being analyzed in real time."**

AVaaS
