Clarity Max Pro 32" UHD 4K Monitor

Your Favourite Canvas Just Got Bigger

Clarity Max Pro offers the same bright, vivid and true-to-life colours as our widely-lauded 27" original – but with a new 32" screen that makes a much bigger impression. Max Pro's 8MP webcam ensures you're always looking your best while its USB hub helps declutter your studio, leaving your focus for what truly matters: your next masterpiece.

The Next Big Thing in Creativity

With HDR400 support and a 3000:1 contrast ratio, Clarity Max delivers crisp contrasts between its deep blacks and eye-catching brightness. Offering more than 16 million colours across their 4K Ultra High Resolution displays, Clarity Max monitors are the perfect place to realise your next masterpiece.

8MP Smart Webcam

With Clarity Max Pro, you'll look stunning, but only when you want to. Our smart webcam automatically sides up when you need it and disappears when you don't, keeping the lens clean and protecting your privacy.

Power, Data & Video in a Single Cable

Clarity Max's rear USB hub connects your computer to two USB-A accessories, 65W laptop charging and your 3.5mm speakers or headphone – all with the same USB-C cable you're using for video.

Pivot, Tilt, Swivel

Adjustable stand

Our aluminium stand makes it easy to position Clarity Max exactly where you need it, letting you raise, pivot, tilt and swivel the display to fit your desk setup and maximise ergonomic comfort.

8 Port Mini Hub

- | | | | | | |
