

The Patented (US 11,444,419 B2) Universal 4K HDMI Dongle Adapter Rings with Antimicrobial Technology are the perfect addition to conference rooms, huddle spaces, lecture halls, or classrooms to ensure that anyone can connect. The standard configuration includes the adapters to connect nearly any device to the in-room display supporting up to a 4K video resolution. C2G offers various connection combinations that can include HDMI to DisplayPort, Lightning, Mini DisplayPort, Micro HDMI, USB-C, VGA adapters to meet connectivity challenges. If you need additional connectivity, C2G has recently launched USB-A to USB-C Dongle Adapters for the USB 2.0 (480 Mbps) data only transmission.

#### BioCote Antimicrobial Coating

An added layer of antimicrobial product protection that's built into the connectors of the HDMI Dongle Adapter Rings to preserve their surface. The active ingredients in the connectors to inhibit the growth of microbes such as bacteria and mold that can cause odors, staining, and material degradation. The technology works to keep connectors continuously fresh and clean.

Note: BioCote® technology is built into Legrand HDMI Dongle Adapter Ring materials to inhibit the growth of microorganisms that may affect this product. BioCote protects users or others against bacteria, viruses, germs, or other disease organisms. This technology is not a substitute for good cleaning practices.

#### Dongle Style Adapter

It can be awkward when connecting an adapter to a smaller laptop or tablet. The adapter may not line up correctly, causing the computer to shift or not set flat on the table. The dongle style adapter gives more flexibility, allowing for better placement when connecting to thin or lighter weight laptops.

#### Color Coded Adapters

Each adapter is color-coded with a band that saves time and frustration by making it easy to identify the adapter you need quickly.

#### Integrated Pull Tab

Quickly grab the adapters when you need them with the integrated Pull Tab that is also available to be customized to feature your company or organization logo. Bulk order quantities apply to customized Pull Tabs.

#### Universal Cable Mount

The universal cable mount attaches directly to the in-room HDMI display cable, ensuring that the adapters are always within reach. The adapter ring slides to the connector when needed and out of the way when not in use, reducing strain on the HDMI cable and clutter on the tabletop. The optional stopper fits on HDMI cables 5mm to 10mm in diameter and prevents the adapters from sliding too far down the cable.

#### Tools Included

The tools for mounting the adapters and optional stopper are in the box to simplify the installation process. The innovative HDMI Cable Gauge Tool reduces stopper installation time by allowing the right-sized stopper to insert, allowing for quick identification of the HDMI cable.
