

ASUS Marshmallow Keyboard KW100

Multi-device. 2-level kickstands. Quiet.

ASUS Marshmallow Keyboard KW100 is compact wireless keyboard with a subtle aesthetic design that can be used in any environment. It can connect with up to 3 devices and is compatible to Windows, Chrome, MacOS, iOS, and iPadOS systems. The notebook-like scissor keys and familiar layout allows you to switch from notebook to this keyboard without the frustrating learning period.

The keyboard provides more than 12 function hot keys, with extra Print Screen and Insert key for quick access. It uses durable 10-million-click keys to ensure

for a long lasting lifespan, and the noise level for the keys are quiet for office environment. With two AAA batteries, the battery life can run up to almost 24 months.

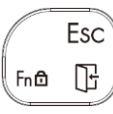

The notebook-like scissor keys and layout design helps user to avoid frustrating learning period. The key travel is directed related to comfortability, and that is why the Marshmallow Keyboard is designed with 1.6mm travel distance for better typing experience. In addition to the compact size that allows the mouse to be closer to the keyboard, there is a 2-level adjustable kickstands in the back of the keyboard for users to adjust the angle that helps with body posture while typing.
