

Always feel safe knowing your home is protected, inside and out.

The Yale Smoke Sensor features a loud 85-decibel siren, so you can always be sure you're notified of any fire-related emergency within your home.

The Yale Smoke Sensor has been developed in partnership with FireAngel Safety Technology Group plc. This collaboration brings together the expertise of both brands to deliver exceptional smoke detection capabilities for enhanced home safety.

The Yale Smoke Sensor can work on its own but is strongest when interconnected with other smoke sensors around your home, to simultaneously raise the alarm. So even if a fire starts in your garage, your entire house will be alerted.

Receive real-time alerts via the app whenever the status of your sensor changes.
