

Anti-Glare Filter 9H Self-Adhesive Monitor 21.5" Wide (16:9)

The anti-glare filters reduce reflections caused by sunlight and protect the screen from scratches.

The DICOTA protective film fulfils a variety of functions: it protects the display from scratches, reduces annoying fingerprints and is easy to attach. It also provides a non-reflective coating for high-resolution displays, guaranteeing a clear view. This makes the anti-glare film the number one choice for you. The film adheres directly to the full surface of the display thanks to the use of a silicone layer.
