

EGOV Connector

Connection with EGOV Software

CONFERENCE

Description

Televic and EGOV software partners work together in a technology partnership and bundle competencies to deliver a solution that precisely fits the customer's needs. The EGOV software is the expert in meeting preparation and meeting-linked document management, where Televic delivers top-notch audio-video conferencing technology, failure safe, ensuring the key moments of the meeting such as the voting.

A workflow integration that reduces time and effort with a certainty of correct voting results.

With this connection, Televic makes it possible to use your prepared meeting from your EGOV software without extra effort where you want to ensure the key moments of the meeting such as voting, where all users are involved, in the room and remote :

- » With one push of a button, you get to sync a prepared meeting from the EGOV software, including the participants and agenda, to your Televic meeting management system.
- » Televic is in the lead at a key moment in the managed meeting: with its voting system, Televic ensures a successful voting where all the results are shown.
- » The voting results of remote participants are involved.
- » The voting results are automatically sent back to the EGOV software without extra effort and time.

Features

The connection between Televic and several EGOV software systems contains the following functionalities:

- » Import of agenda and participants in Televic Confero PLAN.
- » Export of voting results from Televic Confero PLAN to the EGOV software.
