

TILED™ SERIES dvLED UNIVERSAL WALL MOUNTS

Chief has continually evolved the TILED™ direct view LED mount system to keep pace with the dynamic innovations of video walls for over five years. Now we are set to outpace the rapid advancements of display manufacturers with a truly progressive dvLED mount design. Just as Fusion® is a universal mount solution for flat panels, the next generation of TILED will be the go-to mounting solution for dvLED displays.

WHAT'S DIFFERENT?

By introducing new floating button-capture technology and universal mounting hardware, this first release of universal TILED mounts is compatible with a multitude of interlocking panels regardless of manufacturer make or model. This also streamlines specifying, ordering and installation. One set of part numbers can be ordered and stocked globally to fulfill a variety of dvLED video walls.

WHAT'S NOT DIFFERENT?

The precision pixel alignment Chief has honed with 3-axis mount adjustments (X, Y, and Z) producing perfectly flat installations on uneven and imperfect wall surfaces. TILED makes it possible to fine-tune the position of each mount, accommodating displays with pixel pitches well below 1 mm while cutting installation time from days to hours.

The next generation of TILED™ dvLED Wall Mounts is a universal modular system. New floating button-capture technology and mounting hardware streamlines specifying, ordering and installation. One set of part numbers can be ordered and stocked globally to fulfill a variety of video wall installation needs.

Starter mounts can be ordered in 2, 3, or 4 panel lengths and mixed and matched with extender mounts to achieve the exact installation height needed. Calibrate panel positioning and alignment with X-Y-Z axis adjustments for a flawless video wall and accommodate displays with pixel pitches well below 1 mm. New independent Y-axis adjustment at each panel edge helps set a flat and level base for your direct view LED video wall. Double-depth Z-axis adjustment creates a perfectly flat video wall installation.

TILED™ SERIES dvLED UNIVERSAL WALL MOUNTS

Easy to Specify - Easy to Order
Easy to Install

Visit our Mountfinder tool on legrandav.com to see verified panel models. New models added frequently!

HIGHLY ADAPTABLE & STOCKABLE!

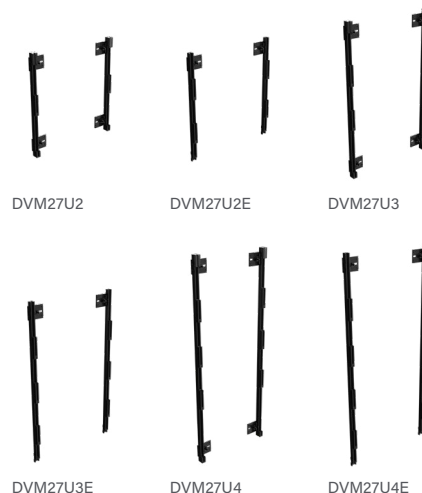

- Sized for interlocking dvLED panels
- Floating button-capture technology is compatible with most panels currently on the market.
- Experience a consistent installation process every time with universal mounting hardware.
- Scalable & versatile!
- Accurate alignment of panels to compensate for uneven installation surfaces with 3-axis adjustments (X-Y-Z axis)
- Double Depth Adjustment: macro and micro-adjustments create flawlessly flat video walls.
- Independent Column Adjustment for perfectly level installations.

RECOMMENDED PARTS LIST:

# OF ROWS	STARTER PIECE	EXTENDER 1	EXTENDER 2
2	DVM27U2		
3	DVM27U3		
4	DVM27U4		
5	DVM27U3	DVM27U2E	
6	DVM27U3	DVM27U3E	
7	DVM27U4	DVM27U3E	
8	DVM27U4	DVM27U4E	
9	DVM27U3	DVM27U3E	DVM27U3E
10	DVM27U4	DVM27U3E	DVM27U3E
11	DVM27U4	DVM27U4E	DVM27U3E
12	DVM27U4	DVM27U4E	DVM27U4E

* Select number of rows high your configuration is from the first column and order the same number of parts according to how wide your configuration is. Example: If your wall is 7x5 find 5 rows high in the table and order 7 starter piece's (DM27U3) and 7 extender columns (DVM27U2E).
