FEATURES

Support Back-Connect Motherboard

Supporting ATX and Micro-ATX Back-connect PROJECT ZERO motherboards enables easy installation without the worry of forgetting to connect cables, which might otherwise require disassembling graphics cards and coolers.

Upgraded Airflow Layout

At the bottom, there's a 40 mm clearance for optimal airflow, offering various intake and exhaust configuration choices. Additionally, it supports the flexibility of mounting a 360mm radiator in a push-pull configuration, giving you the option to install it either on the side or bottom

270-degree Panoramic Display

Drawing inspiration from the MAG logo, create a distinctive chassis design that embodies the unique MAG characteristics. The front interior of the chassis incorporates a space for displaying figurines, complemented by a 270-degree panoramic tempered glass, transforming it into a showcase-style chassis.

Multi-function Storage Bracket

The multi-function storage bracket serves as a convenient tool for SSD installation and cable management, maintaining a clean and aesthetic appearance in the main chamber.

Switchable PCIe Brackets

Vertical GPU bracket supports installation of graphics card vertically without installing extra bracket and also can install 2 x 60 mm fans in the same time.

Pre-build with Reverse-blade Fan

Pre-installed on the side are reverse blade fans, allowing the unobstructed display of the ARGB fan's beauty without any interference from fan frames.

1 to 4 ARGB-FAN Control Board

This fan control board supports up to 4 x ARGB fan function. Allow you to use the LED switch button to adjust the ARGB lighting intuitionly.
