

# Wall charger CU35CC

This is your chance to experience the future of fast charging: our CNS-CUW35CC Dual Port. This compact yet very powerful adapter delivers an impressive 35 watts of power through two USB-C ports. As a result, you can charge your power-hungry devices, such as laptops, tablets, and smartphones at lightning-fast speeds.

Feel free to connect two compatible devices simultaneously and enjoy rapid charging for both. The PowerHub 35W Dual Port supports PPS (Programmable Power Supply) technology, ensuring optimal charging efficiency for a wide range of devices.

This adapter is pocket-sized and very easy to carry, plus it works with various power outlets worldwide – isn't that perfect for seasoned travelers? Also, rest assured that your devices are protected with built-in safety features, including over-voltage, overheating, overcurrent, and short circuit protection. And of course, the adapter meets all safety and environmental standards, complying with CE, RoHS, and ERP certifications.

The CNS-CUW35CC Dual Port is a step forward than being a charger; it's a powerful tool that keeps you connected and productive.
