

Wall charger CU20C

Need a quick charge on the go? Meet CNS-CUW20C, the compact and powerful adapter designed to keep your devices fueled on the go. Delivering up to 20 watts of power through a single USB-C port, it quickly charges your compatible devices, saving you precious time.

Thanks to the adapter's advanced technology, you can now experience lightning-fast charging speeds. This pocket-sized device also fits effortlessly into your bag or pocket, making it easy to take with you wherever you go. Say goodbye to struggling with tangled cords or bulky chargers!

The CNS-CUW20C is equipped with multiple safety features, including over-voltage, overheating, overcurrent, and short circuit protection, ensuring your devices and charger are always protected. With input voltage ranging from 100-240V, the CNS-CUW20C works seamlessly with various power outlets worldwide, making it ideal for travelers. It also meets rigorous safety and environmental standards, complying with CE, RoHS, and ERP certifications.

Upgrade your charging experience with the CNS-CUW20C. Its combination of power, speed, portability, and safety makes it an essential accessory for anyone on the move. Order yours today and discover the future of fast charging!
