

USB-C external monitor

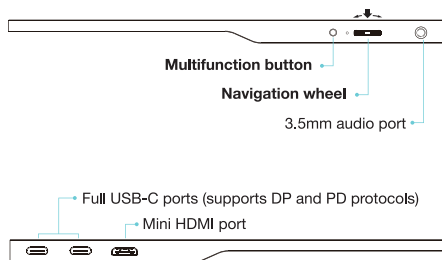

WITH UNIVERSAL HDMI PORT

DUPLEE USB-C

15.6"

User guide

1. Description of monitor ports

NAVIGATION WHEEL:

Menu closed (no menu displayed on screen)

- **Press**: Open the menu
- **Scroll down**: Volume adjustment
- **Scroll up**: Brightness adjustment

Menu open (the menu is displayed on the screen)

- **Press**: Validate the operation
- **Scroll down**: Down
- **Scroll up**: Up

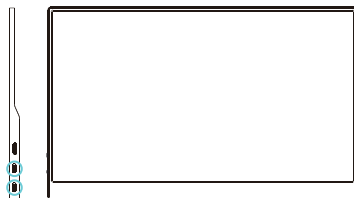

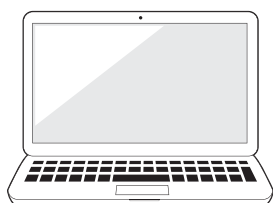

MULTIFUNCTION BUTTON

Press 3 to 5s: Turn on/off

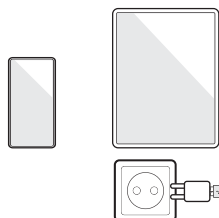

Brief press: Back (in the menu)

2. Connecting with a device that has a full USB-C port (DP Alt and Power Delivery mode)

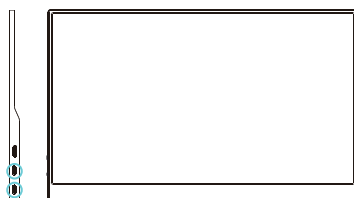

NOTEBOOK

SMARTPHONE & TABLET

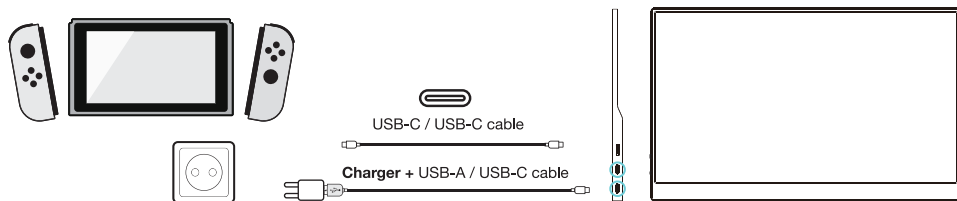

Charger + USB-A / USB-C cable

The electrical output power of USB-C may vary depending on the device model. **If the power is low, an external power supply is required to power the display.**

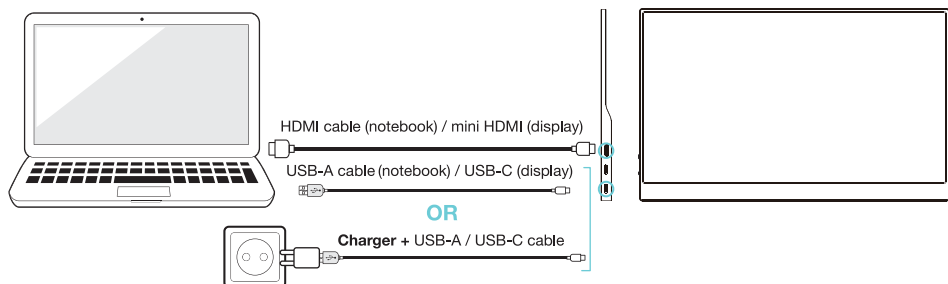

USB-C connection with a full port (continued)

GAME CONSOLE

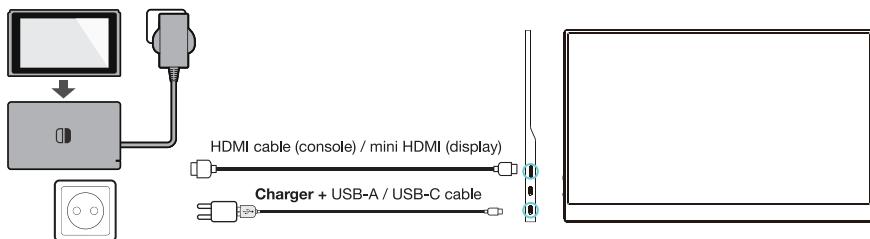

3. HDMI connection

NOTEBOOK

GAME CONSOLE

4. Technical information for the proper functioning of the monitor

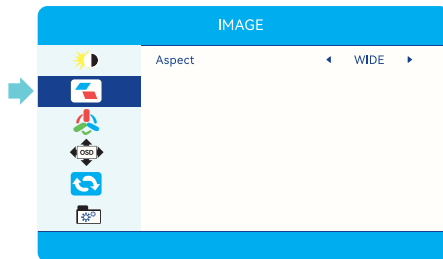

- Both USB-C ports can be used as video input, but they cannot be used simultaneously for the same function. (ex: if one USB-C port is used for charging, the other USB-C port should be used for video input)
- If the monitor needs to be connected to an external power supply, please plug in the power first, then connect the video cable.
- When the monitor is connected only via USB-C and the laptop is running on battery power, **the power saving mode will be automatically activated and the monitor screen will be darker**. Low computer battery power may cause the monitor to turn off or the display to be inconsistent/illegible.

5. Overview of the menu interface (OSD)

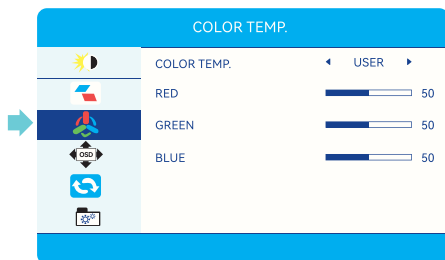

Picture Adjustment

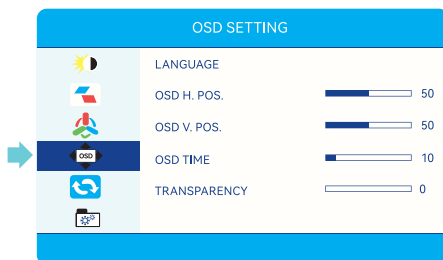

Adjusting the aspect of the image

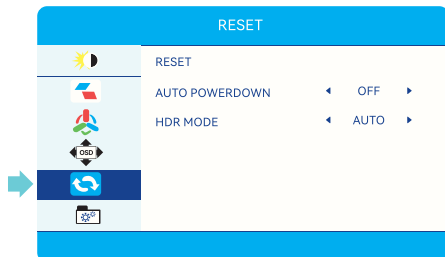

Adjusting the color balance

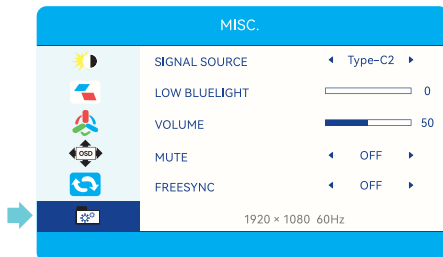

Language setting and OSD menu appearance

Operation adjustment and reset

Other settings

6. Monitor technical information

SCREEN

Screen size: 15,6"

Panel: TFT IPS with LED backlighting

Resolution: Full HD -1920*1080@60Hz

Ratio: 16:9

Viewing angle: 170°H / 170°V

Screen dimensions: 344,16mm(H)*193,59mm(V)

Frame material: black ABS - Aluminum

Charger output: DC 5V/2A

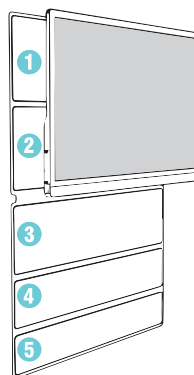

7. Using the protective cover in stand mode

STEP 1

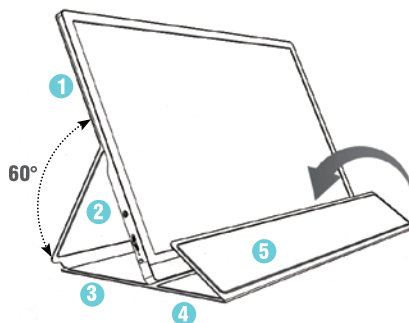

Lay the cover flat with the non-slip side facing up.

STEP 2

Place the monitor onto the case as shown above

STEP 3

Adjust the case flaps to stand mode to use the monitor

8. Precautions of use and contact

- 1- Do not insert a screwdriver or other blunt objects into the ports, buttons or vents of the monitor.
- 2- Do not disassemble the monitor case.
- 3- Do not throw away the charger but send it or drop it off at a recycling center.
- 4- Do not immerse, wet, heat or throw into fire.
- 5- Do not sit or lean on the monitor panel as you risk breaking it.
- 6- Do not use the monitor for any purpose other than that for which it was designed.
- 7- Do not expose to the sun.

8 - Do not leave within reach of children
