

Delock Key Safe with shackle for storing keys with combination lock

Description

This key safe by Delock is suitable for the secure storage of keys and other valuables.

Mobile use thanks to the attached shackle

For example, at the swimming pool, when camping, on the beach or while surfing, the safe can be hung in a safe place. For use in rented properties, such as holiday flats, the key safe can also be attached to a secure place so that the user can remove the keys deposited there without the landlord having to be present.

Numerical code

The safe is locked with a **4-digit numerical code** and protected from weather and dirt thanks to a flap.

Note

Suitable for keys up to 8 cm length.

For easy assembly, the shackle can be removed to wrap it around the desired object first. It can then be clicked back into place on the lock.

Item no. 20933

EAN: 4043619209330

Country of origin: China

Package: Retail Box

Technical details

- 4 digit combination lock
- Colour: black
- Housing material: strong aluminium with plastic coating
- Material shackle: iron steel with PVC coating
- Protection class: IPX2
- Dimensions (LxWxH):
