Welcome to the ultimate comfort zone with the Fabric XL-Size Gaming Chair Boulder XLCH01, your new favorite spot for epic gaming and cozy nights in! If you've ever wished for a throne worthy of a gaming champion, this chair is here to make those dreams come true.

First off, this XL chair gives you all the room you need to spread out and get comfy, because who wants to feel squished while battling virtual foes? You can kick back and relax without worrying about elbow bumps. It's like upgrading from a studio apartment to a spacious mansion – who wouldn't want that? The secret sauce of this chair is the cold-molded foam, the kind that hugs you back. This chair is designed to contour to your body, and it won't make you feel like sitting on a rock. Plus, the high-quality fabric adds a soft touch that feels like a warm hug every time you plop down.

Worried about durability? The durable metal frame is built to last, so you won't have to replace your chair anytime soon. With a multiblock mechanism, adjusting your seating position is easy. Speaking of which, with an adjustable backrest angle from 90° to 160°, you can sit up straight to focus or recline all the way back to contemplate life's biggest questions.

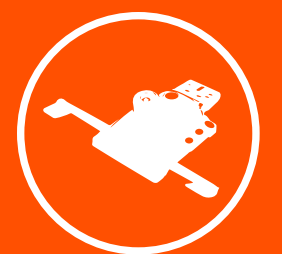

There's more: the adjustable lumbar support features a 2D curvature to fit your lower back just right. Feel free to focus on beating your enemies, not fidgeting with discomfort. And the magnetic memory foam headrest pillow is like having a supportive friend right behind you, cheering you on (but way quieter). With a 5-star metal base and quiet 60 mm casters, you can glide around your gaming setup effortlessly. No more rolling and rattling like you're in a horror movie; keep the focus on your game (and not on that unfortunate squeak). Designed to support users up to 150 kg (337 lb), the Boulder XLCH01 is perfect for all gamers – because comfort should never come with a weight limit! And with the Class-4 gas lift, you can adjust your seat height in a snap. Let's not forget the 4D armrests that move up, down, left, right, and all around to fit your needs.

Magnet head pillow

Comfortable 4D armrests

Multi-block mechanism

5-star metal base

Adjustable lumbar 2D curvature

## XL SIZE

Say goodbye to cramped quarters! The XL size of this chair is perfect for those who appreciate a little extra room to move around. You'll have the freedom to stretch out, shift positions, or even do a little celebratory dance after landing a gaming victory.

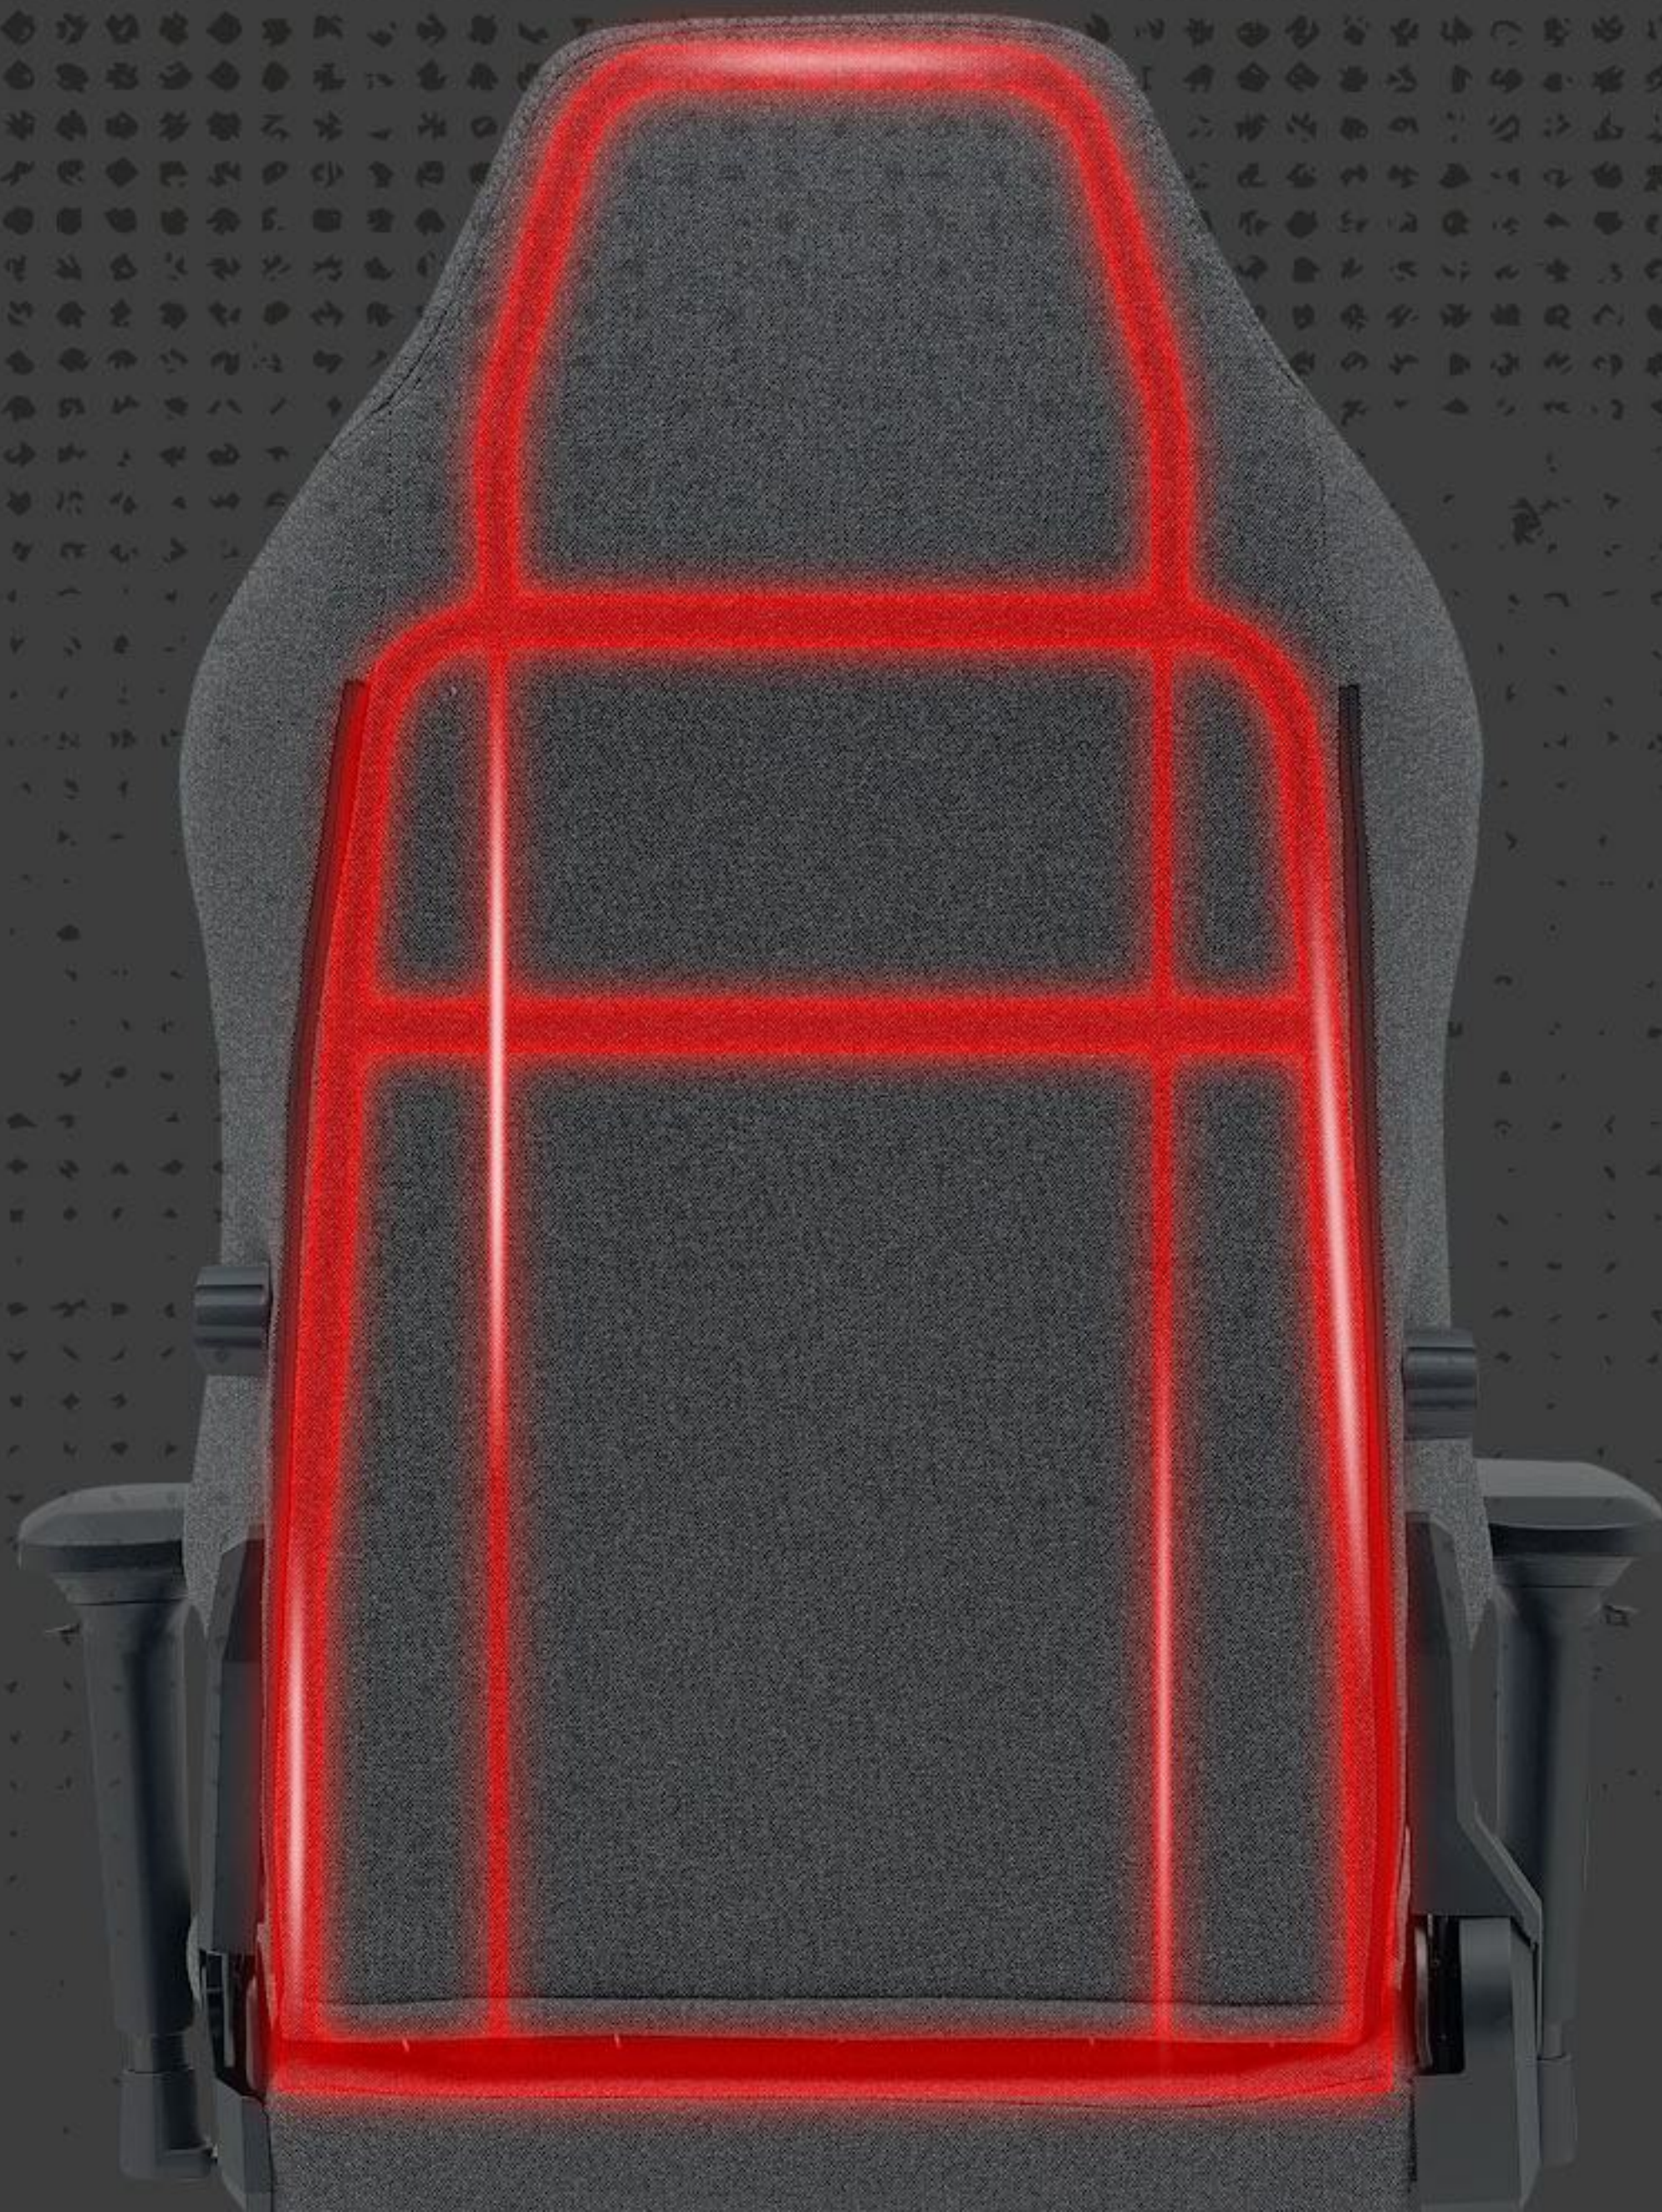

## MEMORY FOAM FOR BACKREST & PILLOWS

Comfort just got an upgrade with memory foam! The backrest and pillows are crafted with this cloud-like material that hugs your body in all the right places, ensuring you're perfectly supported no matter how long you play. Your back and neck will thank you for this feature.

## 5-STARS METAL BASE

Stability is key when you're deep into gaming, and the 5-star metal base delivers it. This sturdy foundation is designed to keep you grounded. It's like having a solid rock beneath you, allowing you to lean, shift, or even launch out of your seat in excitement without worrying about tipping over.

## **DURABLE METAL FRAME**

Built to last, this chair's frame combines strength with a lightweight design. It's perfect for easily moving the chair around your space, whether you're rearranging for a gaming tournament or simply shifting it to catch some rays. It's a trusty sidekick in the quest for maximum comfort.

## ERGONOMIC DESIGN

The ergonomic design of the Boulder XLCH01 helps keep your spine aligned and your shoulders relaxed, so you can game in comfort without the aches and pains that come from slouching. It supports you in all the right spots, letting you focus on your gameplay instead of fidgeting to get comfy.

## COMFORTABLE SEAT

Get ready to experience the most inviting seat ever. It's generously padded with premium materials and it envelops you in cozy support, allowing you to dive deep into your favorite games without any distractions. It really is a new level of relaxation.

A close-up, black and white photograph of a Class-4 gas lift mechanism. The mechanism is a black, cylindrical component with a textured, ribbed top section. It is mounted on a metal plate that is part of a chair's seat assembly. A hand is visible, pulling a lever on the side of the mechanism. The background is a dark, perforated metal surface.

## **POWERFUL CLASS-4 GAS-LIFT**

With the powerful Class-4 gas lift, you can easily raise or lower your seat to find that perfect level for your desk or gaming setup. It's as easy as a quick pull of a lever, no awkward fumbling in sight.

## **HIGH-QUALITY FABRIC**

Made to withstand continuous gaming, the chair's fabric is equally soft and pleasant to the touch as it is durable. It's easy to clean, so spills and crumbs from snack attacks won't ruin the fun.

## ADJUSTABLE BACKREST

Whether you prefer to sit upright while focusing or lean back for a power nap, the adjustable backrest lets you choose the perfect angle from 90° to a full 160°. Finding the right position has never been easier, so you can go from intense gameplay to relaxation mode in seconds.

## LUMBAR SUPPORT

This chair is equipped with an adjustable support system that gently hugs your lower back, promoting healthy posture while you sit. No matter what you're engaged in, this feature will keep you feeling great and focused on the task, not on your back.

## HEADREST PILLOW

Made from soft, supportive materials, the chair's headrest pillow props your head up while you game, reducing strain and letting you keep your eyes on the screen. The pillow adds that extra touch of comfort to your gaming sessions and the breaks in between – it's a new level of relaxation you didn't know you needed.

## **4D ADJUSTABLE ARMREST**

These armrests can move up, down, forward, backward, and even pivot side to side. No more awkward arm positioning – simply adjust them to fit your style and make sure your arms are always in a comfortable position.
