

DIGITAL GAME CHANGERS

Solution:
Data storage

Industry:
Public sector

Country:
Canada

“We’re reducing the amount of time it takes for police to conduct their work, which has a direct impact on the capacity they have to serve more citizens of Edmonton in a timely manner.”

– Nathan Wong

Director of Technology
Services, Edmonton Police
Service

Simplified data transforms frontline policing

The Edmonton Police Service (EPS) has undergone major changes that impact the way police conduct their work and the way the organization stores data. Frontline officers are now leveraging new data insights to better serve the community. By implementing a new data management system, Edmonton Police Service officers now have more time for proactive police work. A modern storage platform consolidates digital evidence from disparate sources that improves workflows and ultimately saves public funds.

Objectives

- Support consolidated data management from disparate sources
- Use the EPS’ budget, public funds more efficiently
- Enable police to perform their job more effectively and safely

Requirements

- Access available, scalable storage to support increased data
- Enable faster backup and restore times, save staff time
- Save up-front expenditures on unnecessary storage

Solution

- HPE Apollo 4510 Gen10 and HPE Apollo 4500 system
- HPE 3PAR StoreServ 8000 storage
- HPE Solutions for Scalability Scalable Object Storage
- HPE GreenLake edge-to-cloud platform
- HPE Pointnext Complete Care
- Scalability RING
- Veeam

Key partners

- Microserve
- Scalify
- Veeam

Outcomes

- Saves CAD\$2 million over five years by moving to OPEX model
- Reduces backup times by 76.9%, down from 13 hours to 3 hours
- Achieves multisite resiliency with data center rapid recovery
