# Mobile Configurator – Creator Notes

Feb 2025 v.104

- Ferrari/Pistis/Cacciari
- Added M12+accessories, M30/35 8GB models, Codiscan High-density model
- Skorpion X5 memory upgrade to 4/64GB, obsolete SKUs removed

June 18, 2024 – V1.03

- Wayne R Pan
- Altered first and last slide to remove corporate template, allow a longer life of the system
- Added several M30/35 and CODiScan pictures that were bad or missing.

June 1, 2024 – V1.02

- Wayne R Pan
- Updated Slide 91, M30 Pistol Grip – Requires Boot
- Updated Slide 310, added CODiScan 12 Slot Charger entry
- Added Slide 316, CODiScan 12 Slot Charger
- Added Slides for ALL items that I do NOT have pictures for, at least they will all be ready got their pictures to be added

May 15, 2024 – V1.01

- Wayne R Pan
- Updated all device pictures so the new Desktop Screens are shown

April 1, 2024 – V1.00

- Original Creator Wayne R Pan
- First Version
- Created out of spite, due to the lack of a needed product.
- Took a simple approach. Linked PowerPoint slides
- Each product has a unique set of slides, Product tree, and Accessories.
- Even if an item is used on multiple products, it is duplicated for each product, thus allowing a product group (ie M11) to be deleted without destroying the entire project.
- PowerPoint is then Exported to a PDF, minimum size for distribution
- Can be emailed to Sales Reps, AEs, and Partners. Or Posted for download on the Datalogic web site

# Thank you!
