HOME THEATER

4K UHD 9.1.6 IMMERSIVE AV PREAMP PROCESSOR

AudioControl's high-performance processors enable home theater specialists and A/V integrators to create systems that deliver new levels of precision, power and control. The Maestro X9S supports the most sought after immersive surround formats, such as Dolby Atmos, Auro-3D, DTS:X, and IMAX Enhanced, with 16-channels of balanced and unbalanced outputs, including four user-configurable outputs. The Maestro X9S offers a full complement of inputs for connection to the latest audio/video components.

The Maestro X9S houses the very latest in audio and video processing technology, featuring Dirac Live® room correction to overcome acoustic anomalies in any space, and ESS PRO SABRE DACs that ensure unprecedented levels of detail and clarity along with earth-shaking, authoritative bass response.

Enthusiasts will enjoy intuitive app-based control, Google Chromecast®, Apple® AirPlay 2, Roon Ready, Bluetooth with aptXHD® support, Wi-Fi streaming connectivity options, and integrated web-based configuration.

This outstanding technology is elegantly wrapped in a beautifully designed chassis, distinguishing AudioControl's Immersive AV Processor lineup from all other solutions.
