

SmallRig

NATO Clamp Accessory Mount

(for DJI RS 2 / RSC 2 / RS 3 /
RS 3 Pro / RS 4 / RS 4 Pro /
RS 4 Mini)

Operating Instruction

SmallRig NATO Clamp Accessory Mount for DJI RS 2 / RSC 2 / RS 3 / RS 3 Pro / RS 4 / RS 4 Pro / RS 4 Mini 3025 is designed for attaching a monitor, microphone, wireless devices, etc. on the side of the stabilizer. It can be installed on each side of the stabilizer by NATO clamp, tightened by a rotary knob, easy to quick release. Featuring a 1/4"-20 threaded hole and an ARRI 3/8"-16 locating hole allow the attachment of a monitor with a Magic Arm 2115, as well as 2163 for action camera so that you can have two camera views. The 1/4"-20 threaded hole comes with two locating holes which is compatible with DJI RS 2 smartphone mount. The integrates cold shoe mount can be used for a microphone, sound receiver or wireless devices, etc. Comes with an anti-removal stud on the NATO clamp can prevent the equipment from falling.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
