

Privacy Filter 2-way magnetic Apple iPad Pro M4 11 landscape

Effective privacy protection for your screen.

The DICOTA 2-Way privacy filter is ideal for working in public environments such as libraries, open-plan offices, airports and trains. It protects personal and confidential data by darkening the right and left side of the screen from an angle of +/- 30 degrees. The filter is easy to attach and remove thanks to integrated magnets. The enclosed self-adhesive magnetic strips allow it to be used on all frame surfaces. The filter also offers protection against scratches, reduces fingerprints and prevents reflections.
