

Privacy Filter 4-way magnetic Universal (16:9) 15.6

Effective privacy protection for your screen.

The DICOTA 4-Way privacy filter is ideal for working in public environments such as libraries, open-plan offices, airports and trains. It protects personal and confidential data by darkening the right, left, top and bottom of the screen from an angle of +/- 30 degrees. The filter is easy to attach and remove thanks to integrated magnets. The enclosed self-adhesive magnetic strips allow it to be used on all frame surfaces. The filter also offers protection against scratches, reduces fingerprints and prevents reflections.<break>
