# HPE and CTERA

HPE SimpliVity and CTERA Enterprise File Services Platform

**Working together. Accelerating results.**

## **A new style of partnering**

Hewlett Packard Enterprise and CTERA are collaborating in a fresh new way to bring increased value to customers like you.

We know that acquiring technology is only the first step in achieving a business goal. The technology pieces need to work together. They need to be tested. They need to provide rich functionality, quickly and effectively, so you can concentrate on your business needs.

To help satisfy these needs, CTERA is a member of the HPE Partner Ready for Technology Partner Program, an industry-leading approach to supply sophisticated integrated technologies in a simple, confident, and efficient manner.

CTERA has access to the right tools, processes, and resources to help our joint customers accelerate innovation and transformation that brings value, achieves business needs, and increases revenue and market share.

## Product overviews

### CTERA Enterprise File Services Platform

CTERA and HPE SimpliVity partner to bring the benefits of edge-to-cloud file services to hyperconverged environments. CTERA's Global File System integrates with HPE SimpliVity to deliver a hyperconverged edge filer that provides organizations with a powerful way to consolidate traditional IT infrastructure and modernize how users store, access, collaborate, and protect files. By unifying edge computing with secure edge-to-cloud file services, HPE SimpliVity and CTERA facilitate next-generation hyperconvergence initiatives with no impact on data privacy or performance.

### HPE SimpliVity

The HPE SimpliVity solutions give IT leaders the agility and economics of the cloud with the control and governance of on-premises IT. They deliver powerhouse hyperconverged solutions capable of running some of the world's most efficient and resilient data centers.

These solutions dramatically simplify IT by combining infrastructure and advanced data services for virtualized workloads onto the bestselling server platforms in the market.

## Company overviews

### About CTERA

CTERA is the edge-to-cloud file services leader with more than 50,000 connected sites and millions of corporate users. The CTERA Enterprise File Services Platform empowers enterprises to replace legacy file storage systems and gain new levels of multisite productivity and centralized data management without compromising security or performance. CTERA is trusted by the world's largest companies including leading industrial, media, and healthcare organizations, as well as the U.S. Department of Defense and other government organizations worldwide.

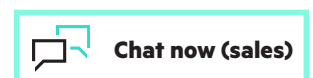

### About HPE

HPE is the edge-to-cloud company that helps organizations accelerate outcomes by unlocking value from all of their data, everywhere. Built on decades of reimagining the future and innovating to advance the way people live and work, HPE delivers unique, open, and intelligent technology solutions, with a consistent experience across all clouds and edges, to help customers develop new business models, engage in new ways, and increase operational performance.
