## MODERNIZING IT FOR THE CITIZENS

Coudekerque-Branche is a municipality in northern France. In 2020, the City Council launched a 6-year program to improve the quality of life for their citizens and make Coudekerque-Branche a better place to live. To meet the challenges of tomorrow, the council needed to enhance its IT environment to flexibly support all the commitments for future years.

### OBJECTIVES

- Improve efficiency of IT operations while enhancing the overall service levels for the residents
- Enable small IT team to take up new innovative tasks and support their colleagues daily
- Strengthen the council's reputation in credibility of the municipal project

### REQUIREMENTS

- Enforce disaster recovery plan, which will help regain access to data and the applications
- Ease to perform backups
- Get technical expertise and support from the vendor

### SOLUTION

- HPE SimpliVity 380
- VMware®
- HPE Pointnext Tech Care

### KEY PARTNERS

- Konica Minolta

### OUTCOMES

- A new disaster recovery environment, further protecting the council now and in the future
- Reduced infrastructure management
- Higher performance and processing power to improve applications and data availability
