Elite 481 Wood

270° Seamless Glass | Dual-Chamber mATX Case with Natural Wood Design

The Elite 481 Wood brings a warm, home-friendly aesthetic to high-performance PC builds. Featuring a compact dual-chamber mATX layout and a front panel crafted from **real natural wood**, it blends modern performance with organic design elements. With **seamless tempered glass panels**, vertical cooling support, and **full-size radiator compatibility**, the Elite 481 Wood is a versatile chassis that fits effortlessly into living spaces, creative studios, or stylish gaming setups.

KEY FEATURES

Natural Wood Front Panel Design
The unique real-wood front panel adds a natural, warm tone that complements home interiors, creative environments, and gaming rooms alike—blending technology with lifestyle.

270° Full-View Tempered Glass with Seamless Bevel Design
Dual tempered glass panels with 45° bevel edges create a clean, panoramic view of your components and lighting setup.

True Dual-Chamber Architecture
Separate zones for hardware and cabling ensure efficient airflow and a clutter-free layout. The right chamber includes a top-mounted PSU and 95mm of cable management space.

Vertical Cooling Configuration
Supports up to 9 fans with a bottom-to-top airflow path, accelerating heat dissipation and maintaining optimal system performance.

High-End Radiator Support
Despite its compact size, the Elite 481 Wood supports dual 360mm radiators (top and bottom) and a 280mm side radiator—matching ATX-level cooling flexibility.

Pre-installed ARGB Fan Setup with Motherboard Sync Support
Includes 3 ARGB fans—2 reverse-blade side intake fans and 1 rear exhaust fan. Each fan features daisy-chain connectors for cleaner cable management and streamlined setup, and is fully compatible with major motherboard ARGB software for synchronized lighting control.

Large Mesh Ventilation Zones
Mesh panels on the top and bottom provide ample airflow for improved thermal efficiency.

Support for RTX 50 Series Graphics Cards
GPU clearance up to 410mm ensures compatibility with the latest flagship graphics cards.

Upgraded High-Speed I/O Panel
Features dual USB 3.0 Type-A ports and a USB 3.2 Gen 2x2 Type-C port with up to 20Gbps transfer speed—perfect for fast data access and modern device connectivity.
