

SmallRig

Drop-in HawkLock mini Universal Quick Release Top Mount Plate

Operating Instruction

SmallRig mini Universal QR 3730B includes one top plate and fits devices with 1/4"-20 threaded holes such as cameras, monitors, cages, function plates, etc; The quick release plate is reserved for 2 optional dowel pins, which can be removed and installed as needed to effectively prevent the devices from deflection. Comes with built-in silicone cushions to prevent twists and scratches effectively. It supports Baseplate 3731 and snaps vertically into it for a secure and deflection-free fit. It is easy to lock and unlock, suitable for multiple scenarios. Its dynamic load-bearing capacity is 5kg.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
