

SmallRig

Camera Shoulder Strap

Operating Instruction

SmallRig Camera Shoulder Strap PSC2428 is designed for a better carrying solution of DSLRs. It can be worn as a sling, neck or shoulder strap. The strap features a dual-layer nylon webbing, and an ergonomic shoulder pad filled with memory foam which is thermo-compression formatted, helps relieve the pressures and pains on your shoulder and neck caused by longtime shooting and brings more comfortable carrying experience. The strap length is adjustable, the maximum length is 160cm and the minimum length is 110cm, to fit people with different sizes. Unique Rapid Link system allows quick attachment/detachment of the camera strap and provides your camera a safer carrying way. The strap comes with a QR plate which is compatible with both Arca-Swiss and Manfrotto® RC2 tripods. Four lanyard holes on the four corners can be used to attach Rapid Link Connectors for more ways of carrying a camera.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.
