

SmallRig

Universal 15mm LWS Lens Support

Operating Instruction

SmallRig universal 15mm LWS rod mount lens support 2727 is designed to provide lens support and protect the mount for the lens. Use the thumbscrew to adjust the vertical height. The support protects the lens with an external diameter of 73-108mm. The V-shaped bracket has a built-in pulley, and the usable position is not limited by the position of the zoom ring or the focus ring. It provides stable support & simple installation, which makes users feel comfortable.

Safety Guidelines

1. Environment

Do not use the product underwater, in extreme temperatures (e.g., freezing or direct heat), corrosive environments, or excessive dust. Dry metal parts immediately after liquid contact to prevent corrosion.

2. Load Capacity

Do not exceed the maximum weight capacity indicated on the product. Overloading risks structural failure, deformation, or accidental drops.

3. Cleaning & Maintenance

Clean surfaces with a dry, soft cloth. Avoid chemicals like alcohol or solvents. Ensure dry and ventilated conditions for long-term storage.

4. Structural Integrity

Do not modify the product (e.g., drilling, cutting)—this compromises structural integrity and increases drop risks.

5. Malfunctions

Stop use immediately if you notice deformation, unusual noises, or loose components, and contact support.

In the Box

Lens support

× 1

Fits for Various Lenses

The diameter range of lens support: 78mm to 100mm

30.5mm Vertical Adjustment

Offers 30.5mm vertical adjustment for better shooting

Easy To Use with Thumbscrew

Lock the Y-shape
adapter via thumbscrew

Built-in Pulley

15mm Rod Hole

360° Rotation Wingnut

Built-in Pulley

Do not interfere with the rotation of the zoom ring or focus ring

Package Includes

1 x Lens support

Specifications

ID:
2727

Product Dimension:
107 x 77.5 x 27mm

Net Weight
96g±5g
