HOVERAir X1 PROMAX Retail Combo

255659

The HOVERAir X1 Pro Max is a foldable 8K flying camera that combines cinematic quality with effortless control, making it the perfect tool for creators on the move.

Key Features:

- World's first compact flying camera with 8K@30fps video and SmoothCapture 2.0 stabilization
- Wide 107° FOV lens and 10+ hands-free flight modes for cinematic shots made simple
- Tracks subjects at 42 km/h with bursts up to 60 km/h for action-packed adventures
- Advanced obstacle detection and aerospace-grade HEM propeller guards for safe, reliable flights
- 64GB built-in storage (expandable to 1TB) with live app control and instant sharing

PRODUCT DETAILS

World's First 8K Flying Camera: The HOVERAir X1 Pro Max

redefines aerial content creation as the world's first flying camera capable of shooting 8K@30fps video. Capture big-screen brilliance in 8K horizontal or crisp 4K vertical for social platforms - no compromises. From mountain trails to ocean surf, every moment is preserved in lifelike clarity for creators who demand more.

Totally Hands-Free Filming:

Launch from your hand with a single tap or voice command—no controller or phone required. Choose from over 10 automated flight modes, including Hover, Zoom Out, Follow, and Dolly Track, and let the flying camera film while you enjoy the action.

OmniTerrain, Built for Every Adventure:

Snow, water, cliffs—take your flying camera anywhere, with confidence. With enhanced aerodynamics, it achieves follow speeds of up to 42 km/h and burst speeds of 60 km/h. Advanced tracking ensures you stay centered, even during cycling or skiing at high speed.

SmoothCapture 2.0 for Ultra-Stable Shots:

Equipped with a 2-axis gimbal, EIS (electronic image stabilization), and horizon leveling, the X1 Pro Max keeps your footage smooth and steady - even in motion. A wide 107° FOV lens ensures every frame is action-packed and cinematic.

Smarter Collision Detection:

The upgraded rear ToF and visual sensors detect obstacles and enable active braking at speeds up to 3 m/s, delivering safer, smarter flight performance in both outdoor and indoor environments.

Portable, Durable & Ready to Go:

Foldable and fully enclosed, the X1 Pro Max is built for portability and safety. Aerospace-grade HEM propeller guards offer superior strength, elasticity, and impact resistance - lighter than carbon fiber yet tough enough for any adventure.

App Control & Massive Storage:

Control advanced modes, view live previews, and share instantly through the Hover X1 App. With 64GB of built-in storage and support for up to 1TB SD cards, the X1 Pro Max gives you the freedom to capture, save, and share without limits.

What's In The Box:

- HOVERAir X1 Pro Max x1
- Smart Battery x3
- Charging Hub x1
- Combo Case x1
- USB-C Cable x1
- Storage Bag x1
