Large accessory pocket

With zipped pouch

Shoulder strap

Adjustable and removable included

65W CHARGER

Puissance 65w - Power Delivery
Comporte 1 câble USB-C de 1.80M intégré

- + GaN component
- + Compatible with all European mains sockets (type C/E/F)
- + Input : 220-240V - 50/60Hz. 1.5A
Output : 5V3A, 9V3A, 12V3A, 15V3A, 20V3.25A

Power Delivery / PPS (Programmable Power Supply) technology: For USB-C charging ports.

These technologies speed up and optimise charging while adjusting the power delivered according to the device being charged. The mains adapter will not deliver the same power to charge a smartphone as it will to charge a tablet. This makes for **faster, more efficient** recharging, while preserving and **extending battery life**.

GaN (Gallium Nitride) component:

This component enables more efficient and **compact** electronic systems that **reduce energy losses**. Mains adapters equipped with this GaN component **consume less energy** while being smaller and lighter than traditional adapters.
