Product Description

Desktop PC users who require the convenience of biometric login often find most fingerprint solutions are designed for use with laptops, leaving desktop PCs reliant on passwords or awkward add-ons. IT teams face the challenge of finding a desktop-ready solution that works seamlessly with Windows Hello and meets Microsoft's Enhanced Sign-in Security (ESS) requirements without adding complexity. The VeriMark™ Desktop 2.0 Fingerprint Key is purpose-built for desktop environments. It delivers fast, password-free login through native Windows Hello integration without requiring additional software. A reliable wired USB connection with USB-C® and USB-A support simplifies deployment, while Match-in-Sensor™ technology securely processes and stores fingerprint data within the device for consistent and dependable authentication.

Features

- SDCP & Windows Hello ESS certified security.
- Copilot PC+ Recall ready.
- Supports Windows on Intel (x86) & ARM.
- 360° fingerprint sensor for consistent reads.
- Native Windows Hello passwordless login.
- Match-in-Sensor™ with on-device biometric processing.
- False Rejection Rate (FRR) of 2.2% | False Acceptance Rate (FAR) of 0.0001%.
- Wired USB-C® and USB-A connectivity (1.2m/3.9' cable).
- Supports privacy & regulatory compliance initiatives.
- 2-year limited warranty.
