

Norton VPN Standard

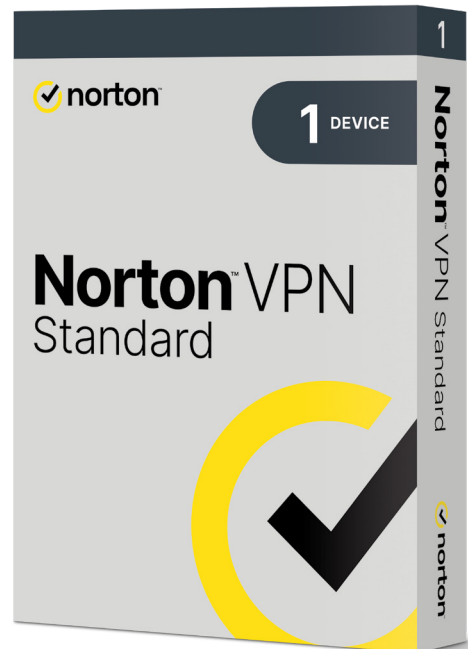

Browse more safely with a fast and reliable VPN

Stay safer and more private online with a top-performing VPN* that lets you access your favourite content wherever you are.

Features

-  **Change Location**
Seamlessly connect to your ideal country so you can enjoy what you're doing more securely, privately, and without interruption.
-  **Content Access**
Access your favourite videos, websites, or apps more privately around the world.
-  **Auto Connect**
Automatically turn on your VPN whenever you connect to a public network, so your data stays safer and more private.
-  **Ad Tracker Blocking**
Help block advertisers from tracking you, reducing the number of annoying ads that follow you online.

Norton VPN Standard

More Features

No-log Policy

A third party audit by VerSprite has verified that we don't track, log, or save your online activities.

Split tunneling

Decide which content uses your VPN for more security while letting less sensitive traffic access the internet directly.²

P2P Optimisation

Easily connect with your peers on P2P to transfer files with a click.¹

Kill Switch

Automatically disconnect your device from the internet if the VPN connection is lost, so your IP address and the online activity aren't accidentally exposed.¹

System Requirements

Microsoft Windows 11/10 (all versions except Windows 11/10 in S mode), 8/8.1 (all versions), 7 (32-bit and 64-bit) with Service Pack 1 (SP 1) or later. Mac OS X 10.15.x (Catalina) or later.

- Androids running 10.0 or later. Must have Google Play app installed.
- iPhones or iPads running the current and previous two versions of Apple® iOS.

For detailed system requirements and latest features, visit [Norton.com/sysreq](https://norton.com/sysreq)

Norton VPN is available for Windows™ PC, Mac®, iOS and Android™ devices. It may be used on the specified number of devices during the subscription term. VPN availability subject to restrictions in certain countries, please check your local laws.

¹Not available on iOS

²Not available on Mac and iOS

* Based on a test of eight other leading VPN products selected by Gen in the VPN Products Performance Benchmarks report conducted by PassMark Software commissioned by Gen, November 2023.
