

# Norton Mobile Scam Defence

 iOS

## Your life is on your mobile - keep it safer wherever you go

Norton Mobile Scam Defence offers AI-powered scam protection across email, texts, calls, and the web all in one app, eliminating the need for separate security solutions. It also helps you protect your personal data by notifying you where you're on unsecured Wi-Fi that hackers use to steal sensitive information.

### Features

#### Safe SMS

Powered by the Norton AI engine, it detects sophisticated scams in text messages, giving you advanced protection against scams and peace of mind when checking your messages.

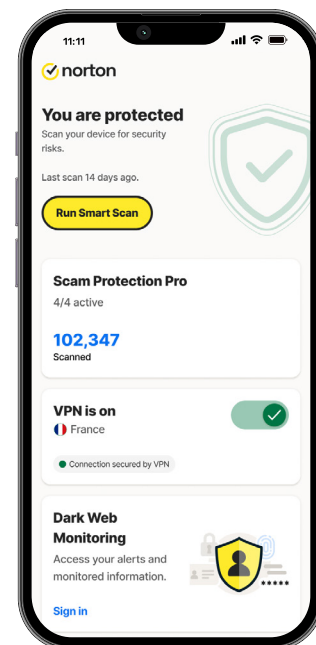

#### Safe Call

Uses its AI engine to automatically block scam calls and label incoming calls as scam, spam, or a verified business - so you'll know when it's safe to pick up.

#### Safe Email

Utilises AI to proactively scan your inbox flagging suspicious emails so you'll know if it's potentially a scam before opening it.<sup>1</sup>

# Norton Mobile Scam Defence

## Features

### Safe Web

Its advanced AI helps protect you from scams when shopping or browsing online by checking for scams on the pages you visit.

### Wi-Fi Security

Uses advanced scanning technology to help detect and alert you if your device is connected to a Wi-Fi network that is under attack, allowing you to join safe networks only.

### Device Security

Keeping your phone and tablet up to date and secure are the first lines of defence against attacks on the personal information you have stored there. The Device security scans for outdated operating systems and missing device passcodes to help you keep your data safer if your phone or tablet is stolen.

### Norton Genie AI-powered Assistant

Our built-in AI powered assistant can give you advice if you believe you are being scammed, detect deepfake videos<sup>2</sup>, answer general cyber safety questions, or help you navigate the features in your plan.

### App Advisor

Helps protect your Android device by scanning existing apps and new apps before you download them from Google Play Store, for online threats like malware, ransomware, adware, and privacy leaks, by using a patent-protected app-scanning technology.<sup>3</sup>

### Safe Search

Provides a safety rating for websites in your search results, so you know if a site is likely to be safe before you click.<sup>3</sup>

## System Requirements

- Norton Mobile Scam Defence covers 1 mobile device.
- Android 10.0 or later. Must have Google Play app installed. Multi-user mode not supported. ColorOS 7.1 or later. Must have Google Play app installed.
