TruTile™

MODULAR ACOUSTIC WALL TILES

TruTile™

Easily transition from ceiling to walls with TruTile™. The modular, 2′x2′ acoustic wall tiles support the creation of unique accent walls and bespoke wall art pieces that infuse spaces with beauty and enhance occupants′ comfort.

Mix and match various standard TruTile Designs, Textures, and Shapes and play with tile orientation to create unique patterns. TruTile offers a coordinated look with our other acoustic solutions using a shared PET felt color palette and The Naturals collection of four nature-inspired finishes.

Easily source ceiling and wall acoustic solutions for your projects from a single, vertically integrated manufacturer that provides peace of mind at every step, from design to manufacturing.

TruTile, curiosity at your fingertips.

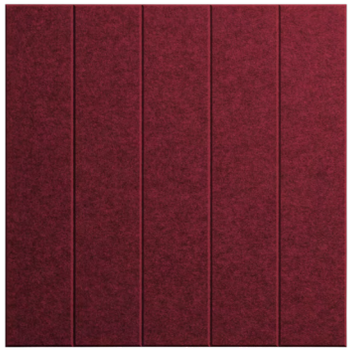

TruTile
DESIGNS

Curvaceous and linear designs intended for vertical or horizontal installation on walls.

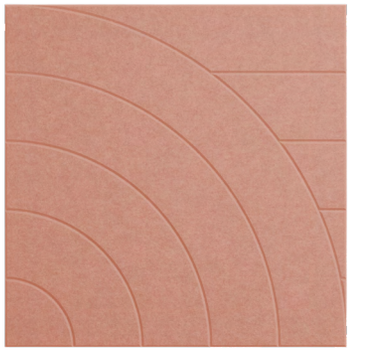

Play with tile design and orientation to create a myriad of bespoke installations.

SPECIFICATIONS

Acoustic Material

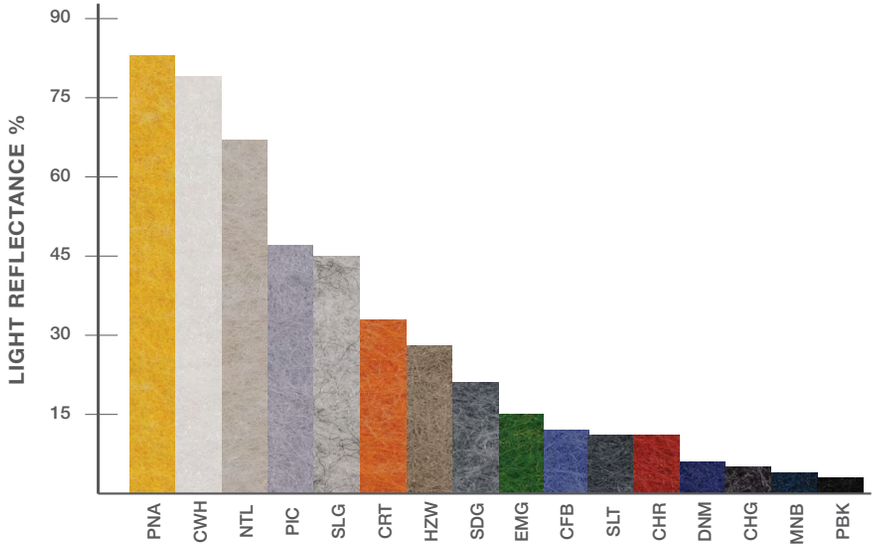

Content	Material is 100% polyester containing up to 50% of recycled plastic bottles (PET felt) and is moisture resistant. See Acoustic Materials page for color offering. Colors are subject to change without notice. For the most current color options, please visit legrandav.com/resources/360_product_overviews/acoustic-systems. Lead times vary depending on color.
Cleaning and Care	Remove dust and debris with a clean, soft, lint-free cloth or vacuum
PET Thickness	9mm
Surface Burning Characteristcs	ASTM E84 Class A / CAN ULC S102 Flame Spread: 0 Smoke Development Index: 300

Acoustic Performance

Acoustic testing is performed on all Middle Atlantic acoustic products and varies based on installation and configuration. ASTM C423 test reports are available upon request. Contact design center: av.customdesign@legrand.com for technical questions.

NRC	Noise Reduction Coefficient (NRC) is the average of how absorptive a material is at various frequencies within the human speech frequency range. Two materials with the same rating may not perform the same in application. Typically, an NRC of 0 indicates perfect reflection, and an NRC of 1 is designated as perfect absorption. However, based on the testing methodology and depending upon the material's shape or surface area products can test at an NRC greater than 1. **NRC = 0.30**

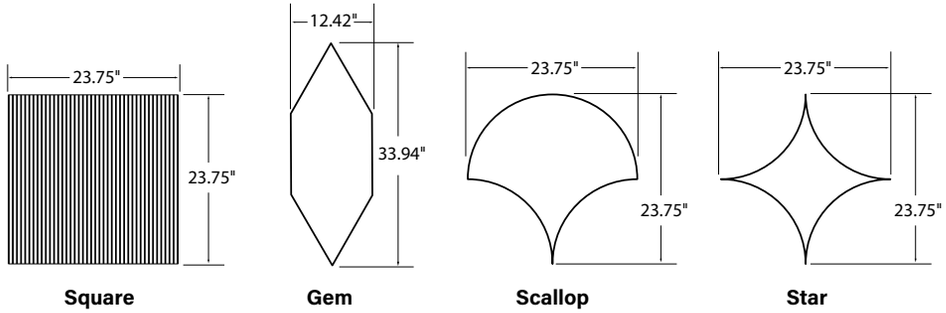

Light Reflectivity

Weight

1.8 lbs per tile. Ships up to (12) twelve per box = 25.25" x 25.25" x 5".

Dimensions

Reliability

At Middle Atlantic, our products are designed to stand the test of time. Each product is engineered using superior components, manufactured with the utmost care and rigorously tested.

Warranty

1-year limited warranty.
