

i-tec USB-C/USB-A Metal HUB 6 port (3x USB-C, 3x USB-A), LAN, Power Delivery 85W

PRODUCT DESCRIPTION

Expand your laptop's connectivity with a single compact hub. The **i-tec USB-C / USB-A Metal HUB** combines six high-speed USB ports, Gigabit Ethernet and Power Delivery in a premium aluminium enclosure.

Its biggest advantage is the **integrated USB-C cable with a built-in USB-C to USB-A adapter**, allowing the hub to work with both the latest USB-C devices and older computers equipped with USB-A ports—without the need for additional adapters. Three USB-A and three USB-C ports provide data transfer speeds of up to **5 Gbps**, while the dedicated **100 W USB-C Power Delivery input** powers the hub and delivers up to **85 W** of charging power to your laptop. Combined with reliable Gigabit Ethernet, it's the ideal companion for the office, home or travel.
