

MPN: VLMW3780MP

Pro Large Wall Mount with Media Player Space, Max 35kg, Up to VESA 600x400

Fixed Wall Mount 37"-80", Media Player Space

The Vivolink VLMW3780MP is a fixed wall mount designed for displays from 37" to 80" and weighing up to 35 kg. Its 62 mm profile provides additional space behind the display, making it suitable for installations where a compact media player, HUB, Docking, Switch or additional cabling needs to be positioned between the screen and the wall.

The open design improves airflow around installed equipment while providing easier access to cables and connections. The mount supports VESA patterns up to 600 x 400 mm and includes a bubble level for easier alignment during installation. Security screws help keep the display securely attached to the wall plate.

APPLICATION

Ideal for meeting rooms, digital signage, classrooms and other professional AV installations where additional space is required behind the display for a media player, cables or improved airflow.

- Additional space behind the display for a media player
- 62 mm distance between the display and wall
- Open architecture for improved ventilation
- Easier access to cables and connections
- Typical used for 37"-80" displays
- Supports displays weighing up to 35 kg
- Supports VESA mounting patterns up to 600 x 400 mm
- Built-in bubble level for easier alignment
- Security screws help secure the display to the wall plate
