

Film Removable Side Stripe 100

■ clear 4313 - 100 µm

Transparency film for imaging by laser xerographic process, providing a brilliant colored image on a transparent background. The film has a 10 mm removable white optical sensor stripe along the long edge.

Suitable for color laser equipment with dry toner. Please refer to your device user manual.

Applications

- Overhead + Overlay

Advantages

- Images have good sharpness and color vibrancy because of high black and color optical densities.
- Designed for use on most color copiers / printers.

Film Removable Side Stripe 100

■ clear 4313 - 100 µm

Physical Properties

Thickness	100 µm	ISO 534
Smoothness Sheffield	60 +/- 20	TAPPI T538
Haze	< 4%	ASTM D1003

Recommended use and storage

For quality reasons this media should be stored and converted under conditions of 30-70% relative humidity and at a temperature of 15-30°C.

Shelf life minimum of 2 years from ship date when stored under ideal storage conditions.

The values provided on this datasheet are only for orientation.

Before using our media please check its compatibility for your printer and intended application. Technical specifications are subject to change, therefore we do not take responsibility for any misprints resulting from technically modified inks and/ or printers. 04.06.2012
