UPDATED VERSION

In our ongoing commitment to improving product quality and performance in accordance with industry standards, we have implemented minor updates to the power cord.

WHAT HAS CHANGED?

1. The NEMA 5-15P connector dimensions have been adjusted from $21 \pm 0.4\text{mm} \times 23.6 \pm 0.4\text{mm}$ (WxH) to $26 \pm 0.5\text{mm} \times 25 \pm 1\text{mm}$ (WxH).

We want to assure you that despite these changes, the power cords high performance remains unaffected, and there will be no impact on their usability.

During this transition period, you may continue to receive shipments of the previous product model until existing distributor stock is depleted. Both the old and new models meet our strict quality standards.

If you have any questions or require additional information, please don't hesitate to contact us. We appreciate your continued support.
