

Atlona LinkConnect Captive Screw Cables

Decrease installation time and increase productivity with Atlona's family of Captive Screw cable solutions. No longer do you have to cut, solder and terminate cables adding to installation time and overall complexity of connecting devices. With the captive screw collection, cables are pre-cut and soldered enabling seamless connectivity into device connectors insuring a dependable connection point every time.

Installation Made Easy

Installers asked for a manufactured cable that was easier to manage, and Atlona listened: our captive screw cables are pre-stripped, color-coded, and labeled at one end to provide a quick connection. No more soldering in the field and no more bulky bundles to be managed at the rack.

Fail-Safe Connection

Direct contact with the conductor ensures a reliable signal. Captive screw connections allow a larger portion of the wire to contact the terminals for a secure connection.

Specifications			
	AT-LC-CS-2CH-2M	AT-LC-CS-RS232-2M	AT-LC-CS-IR-2M
JACKET MATERIAL	PVC	PVC	PVC
CONNECTOR	Gold-plated RCA 2CH Unbalanced Audio	DB9 RS-232	Nickel-plated 3.5mm IR
SHIELDING	Spiral	Foil	N/A
CONDUCTOR	24 AWG	22 AWG	28 AWG
LENGTH	2 M (6 ft)	2 M (6 ft)	2 M (6 ft)
