

### **Dragon 15.0 Bluetooth Standalone Headset: Nuance SKU: HS-BLUE-SG1**

The Dragon Bluetooth wireless headset is specifically designed to meet Nuance's highest performance and quality standards for the most optimized and highest level of accuracy when using Dragon speech recognition products. This Bluetooth headset will allow you to wirelessly dictate to your computer while enabling you to maintain a consistent distance between your mouth and the microphone.

- Incredibly fast and easy to setup headset and dongle pre paired out of the box
  - Separate power slide switch and volume button, with single multifunction/call/mic button for easy, intuitive use. Up to a 33-foot range & up to 10 hours of talk time
  - Universal and highly comfortable design, adjustable to left or right ear
  - Works with all versions of Dragon 15.0 & includes USB Bluetooth Adapter for plug-and-play connectivity
- 

### **Dragon 15.0 USB Standalone Headset: Nuance SKU: HS-GEN-25**

The Dragon USB headset delivers superior audio input for use with Dragon NaturallySpeaking. A noise-cancelling microphone enhances speech accuracy while the USB-enhanced digital sound ensures consistent audio quality every time. Tune in to your PC while remaining in touch with your surroundings.

- The Dragon USB headset delivers superior audio input for use with Dragon
- A noise cancelling microphone enhances speech accuracy while the USB enhanced digital sound ensures consistent audio quality every time
