

# USB2.0 CABLES

We offer a wide range of USB 2.0 cables including the standard A to B cable used by many devices such as printers and scanners. The mini B cables are widely used on smaller devices such as cameras and older PDAs.

The new Micro USB devices are used on most modern smart phones including Blackberry, HTC, Nokia and many more.

All our cables are capable of supporting the maximum USB 2.0 speed of 480mbps, while also supporting the 12mbps and 1.5mbps speeds of USB 1.1.
